

# COVID-19 MOVEMENT RESTRICTIONS

## SUDAN MOBILITY RESTRICTION DASHBOARD #1 (16 APRIL 2020)

### Reported COVID-19 Cases in Sudan

Source: [Government of Sudan, Federal Ministry of Health](#)

32 Confirmed      3 Recovered      5 Deaths

### Mobility Restrictions

In response to the COVID-19 pandemic, the Government of Sudan (GoS) declared a nationwide health emergency and introduced mitigation measures in March 2020 to reduce the transmission of the virus. These measures include restrictions on travel due to closure of airports, points of entry (POE) along land borders and maritime boundaries, as well as domestic movement restrictions.

All points of entry along land borders, as well as the Sawakin sea port, are closed for entry and exit. The Karb Eltoum unofficial border crossing point remains open.

All international airports are closed for entry and exit with the exception of humanitarian and cargo shipments.

Domestic movement restrictions were enforced by the GoS on 31 March 2020 through a curfew effective between 6PM and 6AM. All bus travel between states has been banned as of 26 March 2020 with the exception of humanitarian, commercial and technical shipments. A 24-hour lockdown will be effective in Khartoum starting 18 April 2020 for three weeks.
