ROUND 10: MARCH/APRIL 2018**

Summary of key findings

DATE OF PUBLICATION: 4 MAY 2018

DISPLACEMENT TRACKING MATRIX (DTM) AFAR, ETHIOPIA ROUND 10: MARCH/APRIL 2018

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Sites by causes of displacement

- Conflict
- Climate induced
- Other

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799 Individuals displaced within the region

1,596 Cross-regional displacement (incoming individuals)

260 Cross-regional displacement (outgoing individuals)

Disclaimer:
 The delineation of the boundaries shown on the map should not be considered as authoritative.
 Map Data Source: Boundary Shapefile - CSA 2008

Note:
 The newly created zones and woredas boundaries in this region are not available in our Geodatabase; hence their boundaries are combined with their mother zones and woredas.

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA

ROUND 10: MARCH - APRIL 2018

AFAR REGION - KEY FINDINGS

LOCATION AND CAUSE OF DISPLACEMENT:

56,375 displaced individuals comprising 9,408 households in 56 displacement sites were identified in AFAR region*. These figures represent an increase of 3,652 in the total number of displaced individuals (+6.93%) since round 9 (January/February 2018). 20% of the identified sites opened in 2017 and no sites opened in 2018. Drought was recorded as the primary cause of displacement for an estimated 38% of the displaced population.

DEMOGRAPHICS: 50% of displaced individuals were female and 50% were male. 60% were younger than 18 years old and 6% were over 60 years old.

SHELTER: 53 sites reported that over 25% of households were living in shelters that were below regional and cultural standards.

WASH: Only 1 site met SPHERE standards of access to over 15 liters of water per person per day. 42 (75%) displacement sites reported having no latrines.

FOOD, NUTRITION AND LIVELIHOODS: 3 sites, representing 4,280 individuals, reported no access to food, and 64% of sites reported that IDPs did not have access to income generating activities.

* 1 site was inaccessible during this round and information taken from previous round.

HEALTH: Malaria was the primary health concern in this round of data collection with 24 sites reporting this.

EDUCATION: In 5 sites, 50% or less of the children on site are attending formal primary school. Formal primary school education is available at 51 sites. Alternative basic education (ABE) is available at 4 sites.

COMMUNICATION: 48% of sites reported that families/friends were IDPs primary source of information followed by local leaders at 45% of sites.

Figure 1 illustrates trends in stock totals of displacement in the region over time compared to recent displacement. Figure 2 shows IDP numbers disaggregated by cause over time.

Figure 1: IDP individuals by year of displacements

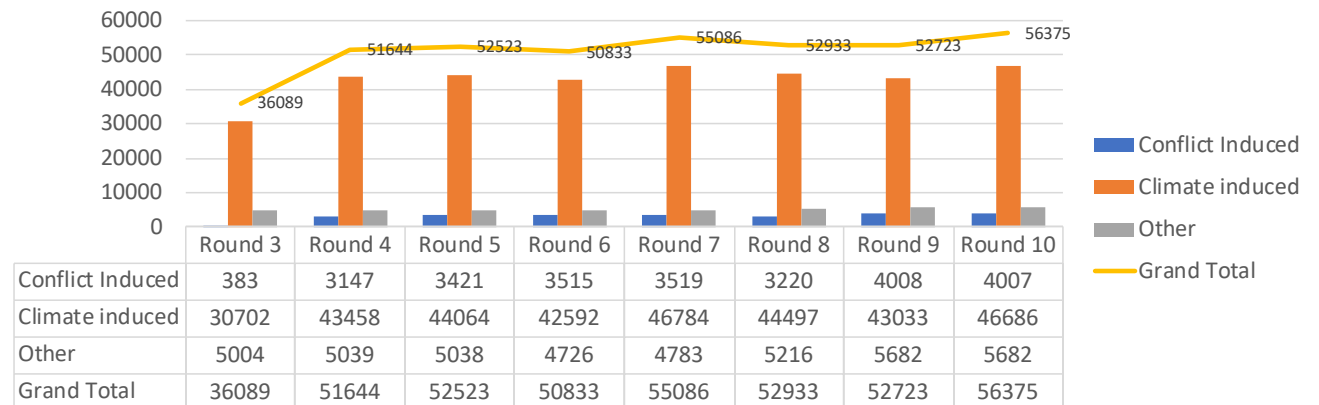

Figure 2: IDPs by cause of displacement by round

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA ROUND 10: MARCH - APRIL 2018

MOBILITY TRENDS AND CAUSE OF DISPLACEMENT

No new IDP arrivals has been recorded in 2018. At 11 sites new arrivals were recorded in 2017 and at 45 sites the last new arrivals were recorded before 2017.

None of the sites identified opened in 2018 while 20 % opened between January and December 2017 and 80 % of sites opened before 2017.

Figure 3 shows the number of IDPs displaced by zone and cause of displacement. Figure 4 shows the distribution of IDPs by driver of displacement and time of displacement.

97% of all IDPs are displaced within their region of origin. Of all those displaced within their region of origin up to 96% are also displaced within the Zone of origin.

4,608 individuals had reportedly been previously displaced. No IDPs were leaving displacement sites.

Figure 3: IDPs displaced by zone and cause of displacement

Figure 4: Distribution of IDPs by cause of displacement and time of displacement

Duration	Conflict Induced	Climate Induced	Other
Before 2017	2,329	43,482	2,160
During 2017	1,678	3,204	3,522
Total	4,007	46,686	5,682

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA

ROUND 10: MARCH - APRIL 2018

DURABLE SOLUTIONS, VOULNERABILITIES AND DEMOGRAPHICS

IDPs at all 56 sites did not foresee a resolution to their displacement.

At 96% of sites , IDPs prefer reintegration as a durable solution to their displacement while at 4% sites they prefer return.

Figure 5 shows the percentage of sites reporting various obstacles to returns, while figure 6 shows support IDPs need to return or reintegrate.

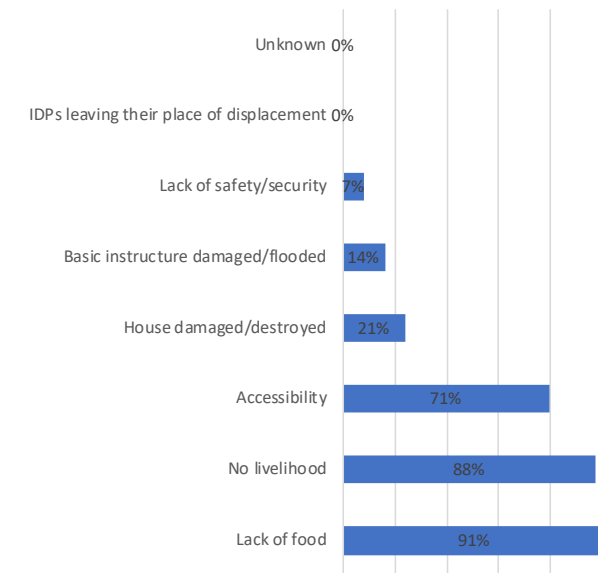

Figure 5: % Sites reporting obstacles to return

The demographic breakdown is shown in figure 7. Individuals with specific vulnerabilities were also reported at displacement sites and are represented in figure 8.

Figure 6: % Sites by support needed to return or reintegrate

Figure 7: Demographic breakdown

Special Vulnerabilities	# Individuals
Breastfeeding Mothers #	1104
Child headed Households	7
Elderly headed Households	309
Elderly Persons without care givers	105
Members of ethnic minorities #	332
Members of religious minorities #	0
Orphaned Children	91
Persons w/ Chronic Diseases/Serious Medical Conditions	74
Persons w/ Disabilities # over 18	116
Persons w/ Disabilities # under 18	108
Pregnant girls # under 18	0
Pregnant Women # over 18	971
Separated Children	106
Single-female headed Households	234
Single-male headed Households	145
Unaccompanied Children	0

DISPLACEMENT TRACKING MATRIX (DTM) AFAR REGION, ETHIOPIA ROUND 10: MARCH - APRIL 2018

ABOUT DTM

DTM GLOBAL

The Displacement Tracking Matrix (DTM) is a system to track and monitor displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. More information is available at www.globaldtm.info.

DTM IN ETHIOPIA

In Ethiopia, data is collected at zone, woreda and site level. Since September 2016, ten rounds of assessments have been completed. The DTM programme is implemented in close collaboration with the National Disaster Risk Management Commission, regional, zonal and woreda counterparts and DTMs implementing partner, the Danish Refugee Council (DRC).

METHODOLOGY

IOM's DTM team composed of enumerators from IOM and DRC were deployed across the country to collect the data. The process involved the following steps:

Zone level: Interviews with key informants from

the Disaster Prevention and Preparedness Office (DPPO), community representatives, and the education and health offices collect information including (among others) estimated caseload of displaced population, identification of woredas within the zone that host displaced populations, reason for displacement, time of arrival of IDPs and location of origin.

Woreda level: Information is collected from key woreda informants and includes (among others) estimated length of stay, number of displaced households and individuals at woreda level, displaced population by type of temporary settlements and approximate locations of identifiable displacement sites. The information is used to plan site assessments.

Site assessments: In-depth IDP site assessments capture detailed information through key informant interviews, direct observation and focus group discussions with male, female, elderly, children and IDP representatives. Data on available services by sector, accessibility constraints, exact type, location and name of the site, place of origin of IDPs, estimated size and type of the site and most common type of shelter are captured. Age and gender disaggregation for the site is extrapolated using a demographic calculator

tool based on the age range and sex of the household members of 20 randomly selected households from the site.

Annex II - Afar region displacement causes and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Sites by causes of displacement

- Conflict
- Climate induced
- Other

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

Displacement Statistics

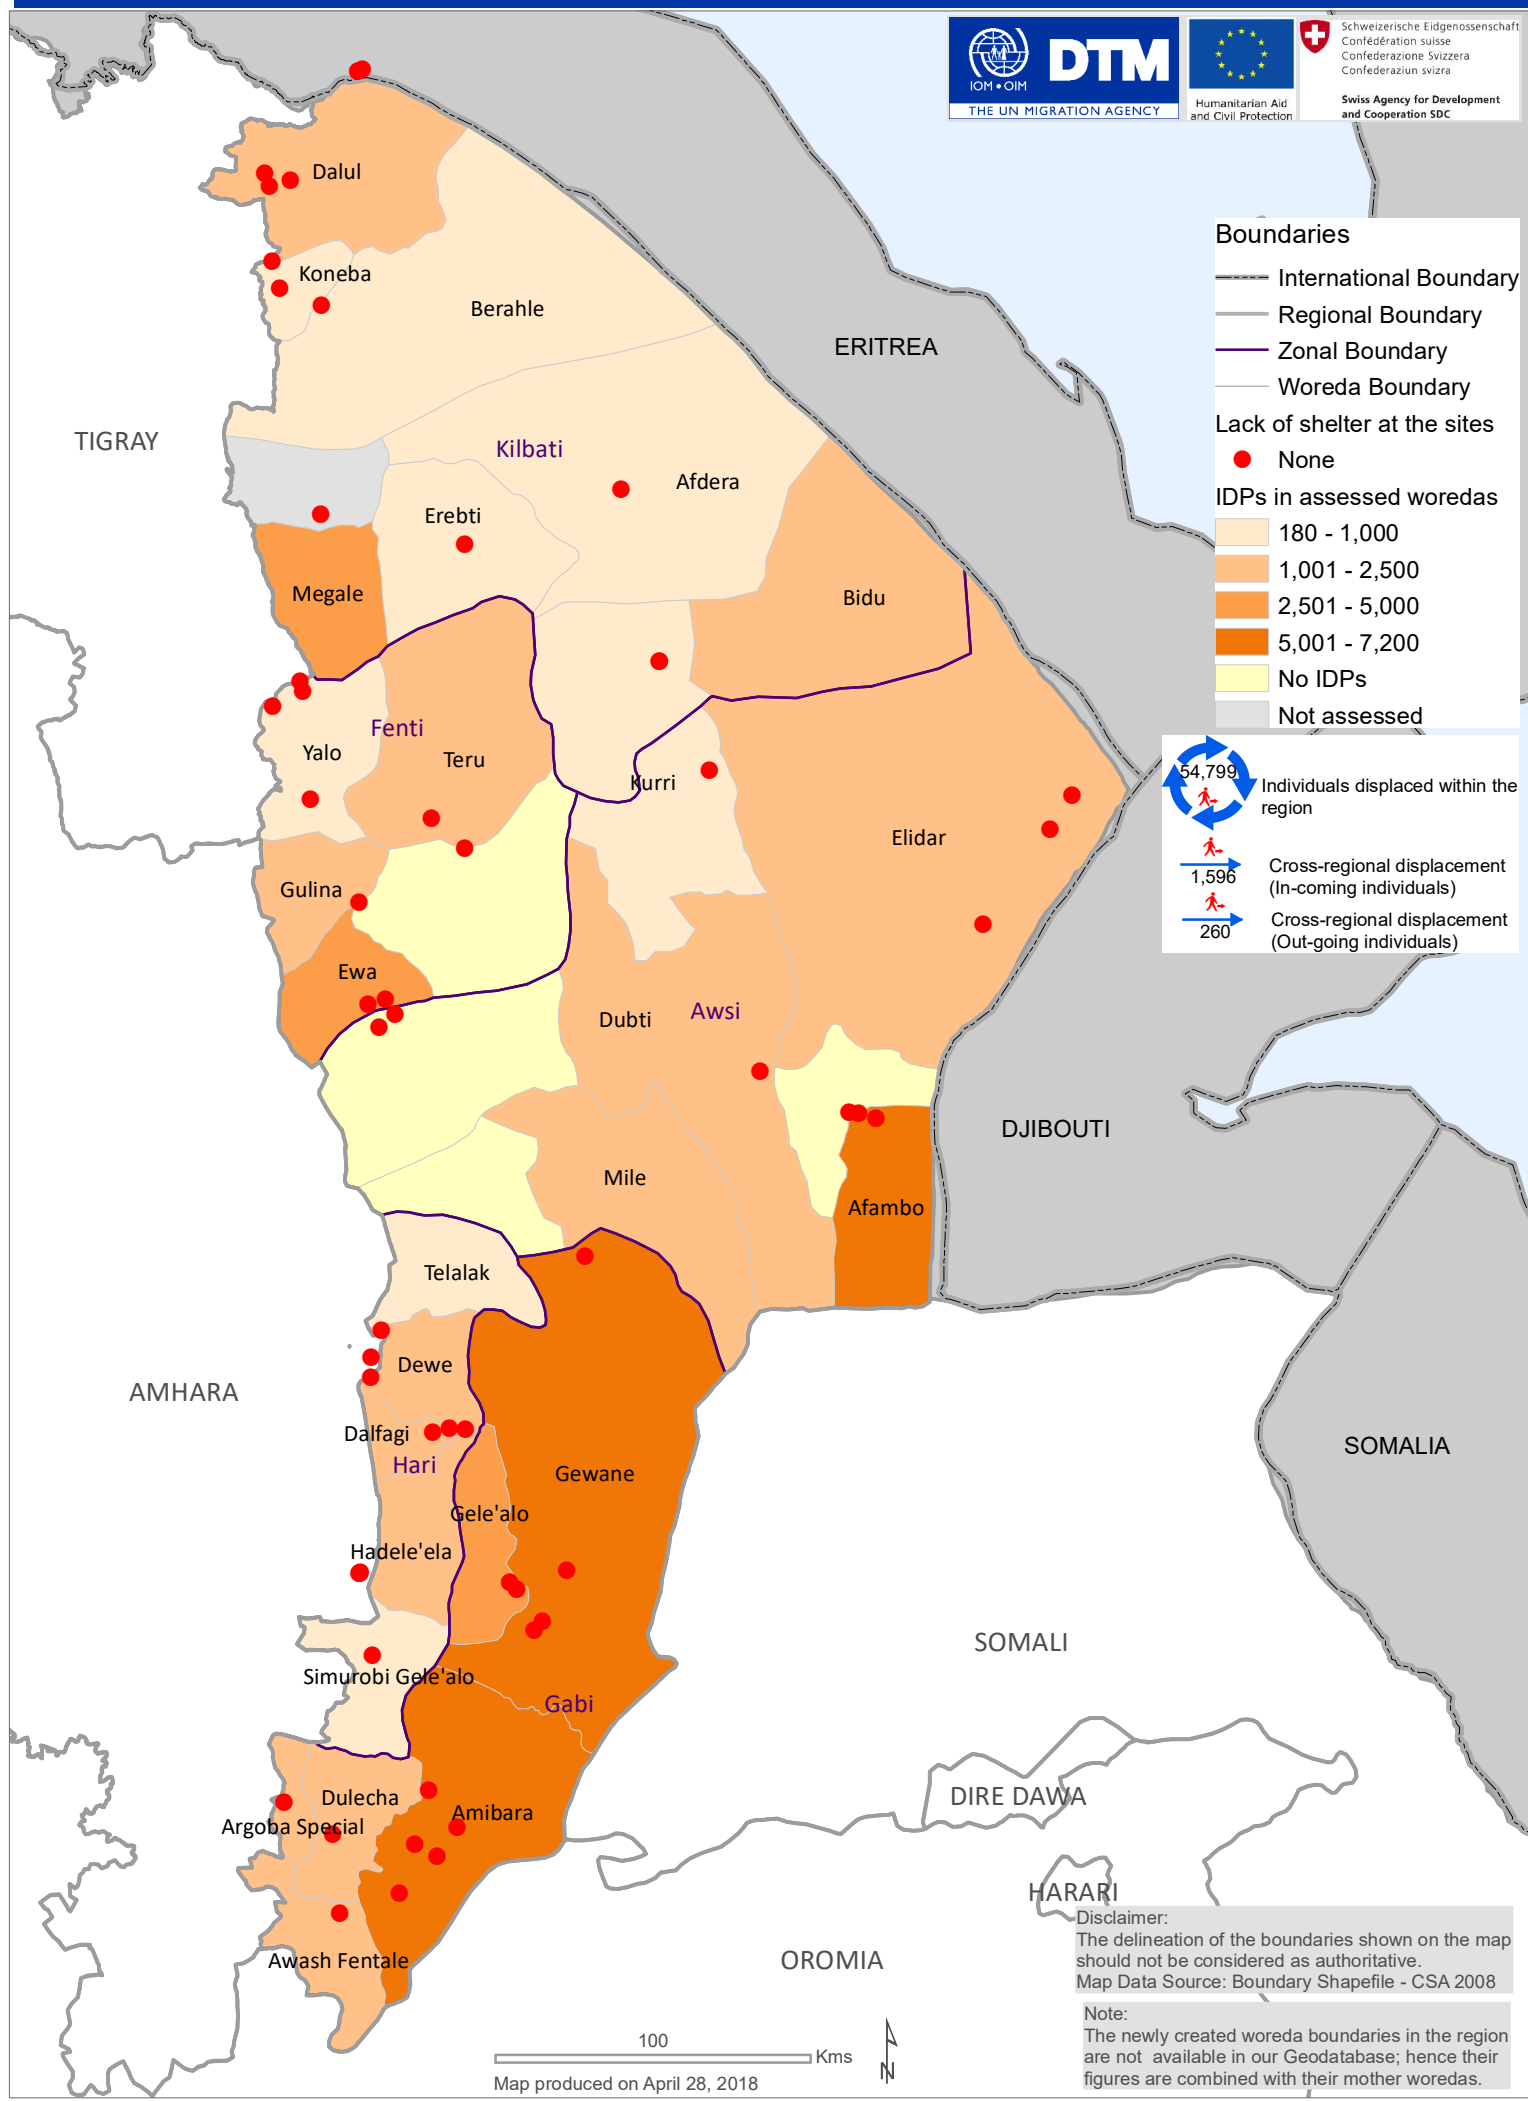

- 54,799 Individuals displaced within the region
- 1,596 Cross-regional displacement (In-coming individuals)
- 260 Cross-regional displacement (Out-going individuals)

Disclaimer:
 The delineation of the boundaries shown on the map should not be considered as authoritative.
 Map Data Source: Boundary Shapefile - CSA 2008

Note:
 The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex III - Afar region households reporting lack of shelter at the sites and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Lack of shelter at the sites

- None

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799 Individuals displaced within the region

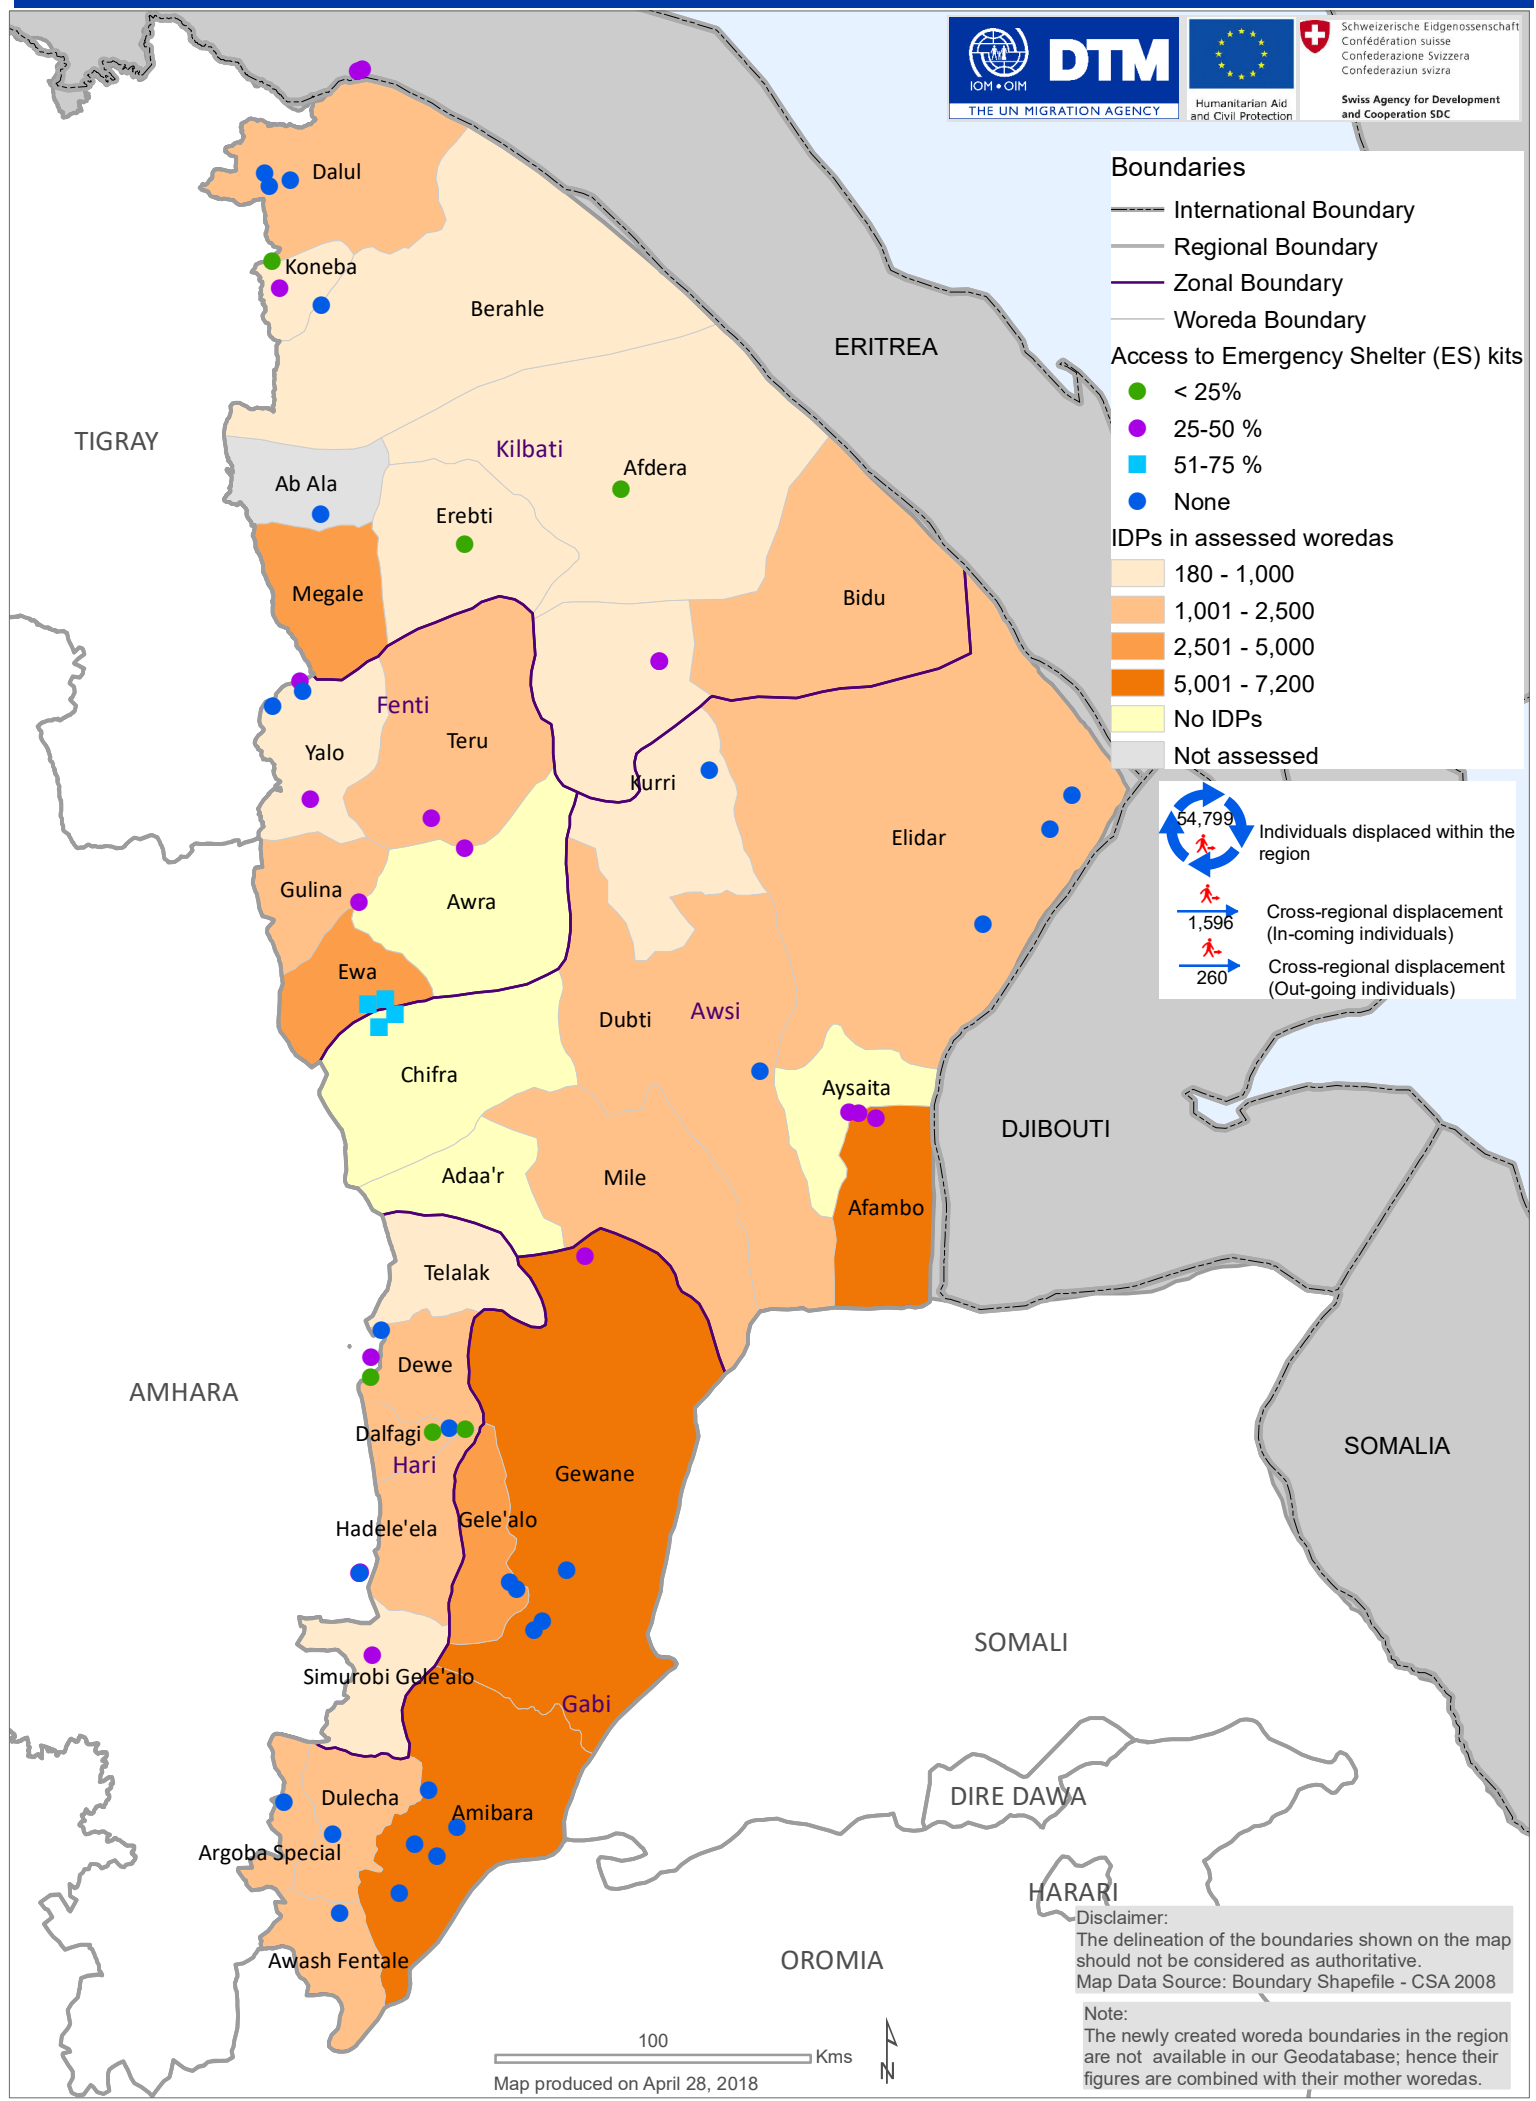

- 1,596 Cross-regional displacement (In-coming individuals)
- 260 Cross-regional displacement (Out-going individuals)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex IV - Afar region households reporting acces to ES kits and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to Emergency Shelter (ES) kits

- < 25%
- 25-50 %
- 51-75 %
- None

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799 Individuals displaced within the region

1,596 Cross-regional displacement (In-coming individuals)

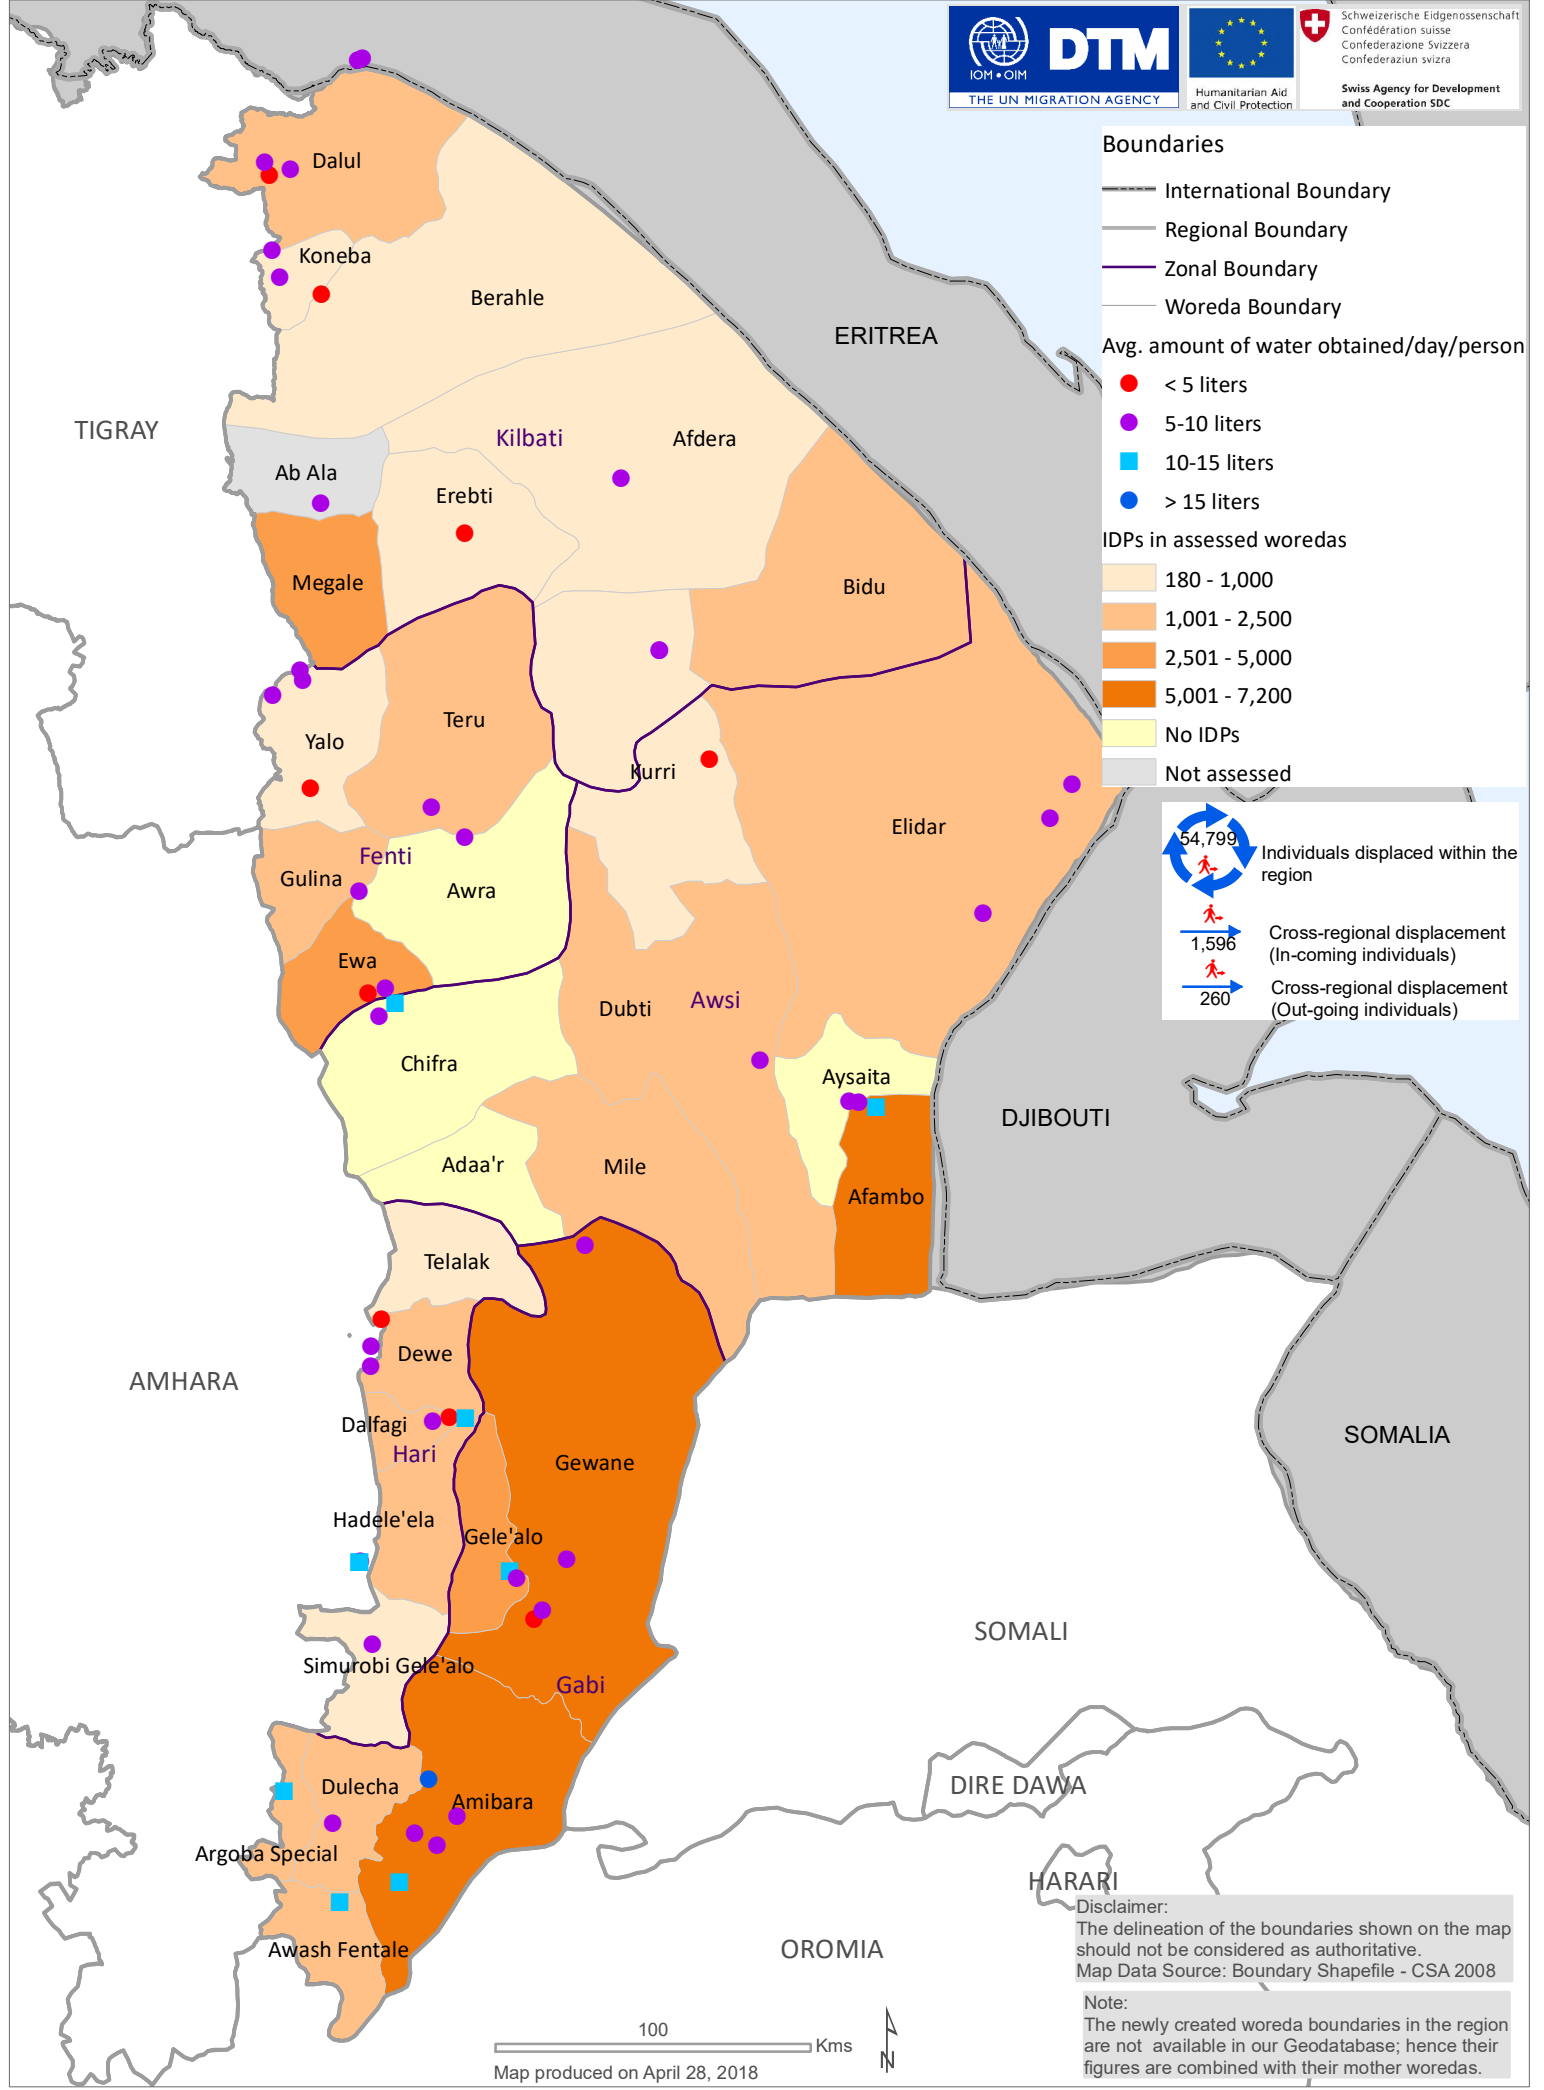

260 Cross-regional displacement (Out-going individuals)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex V - Afar region households reporting acces to water and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Avg. amount of water obtained/day/person

- < 5 liters
- 5-10 liters
- 10-15 liters
- > 15 liters

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799 Individuals displaced within the region

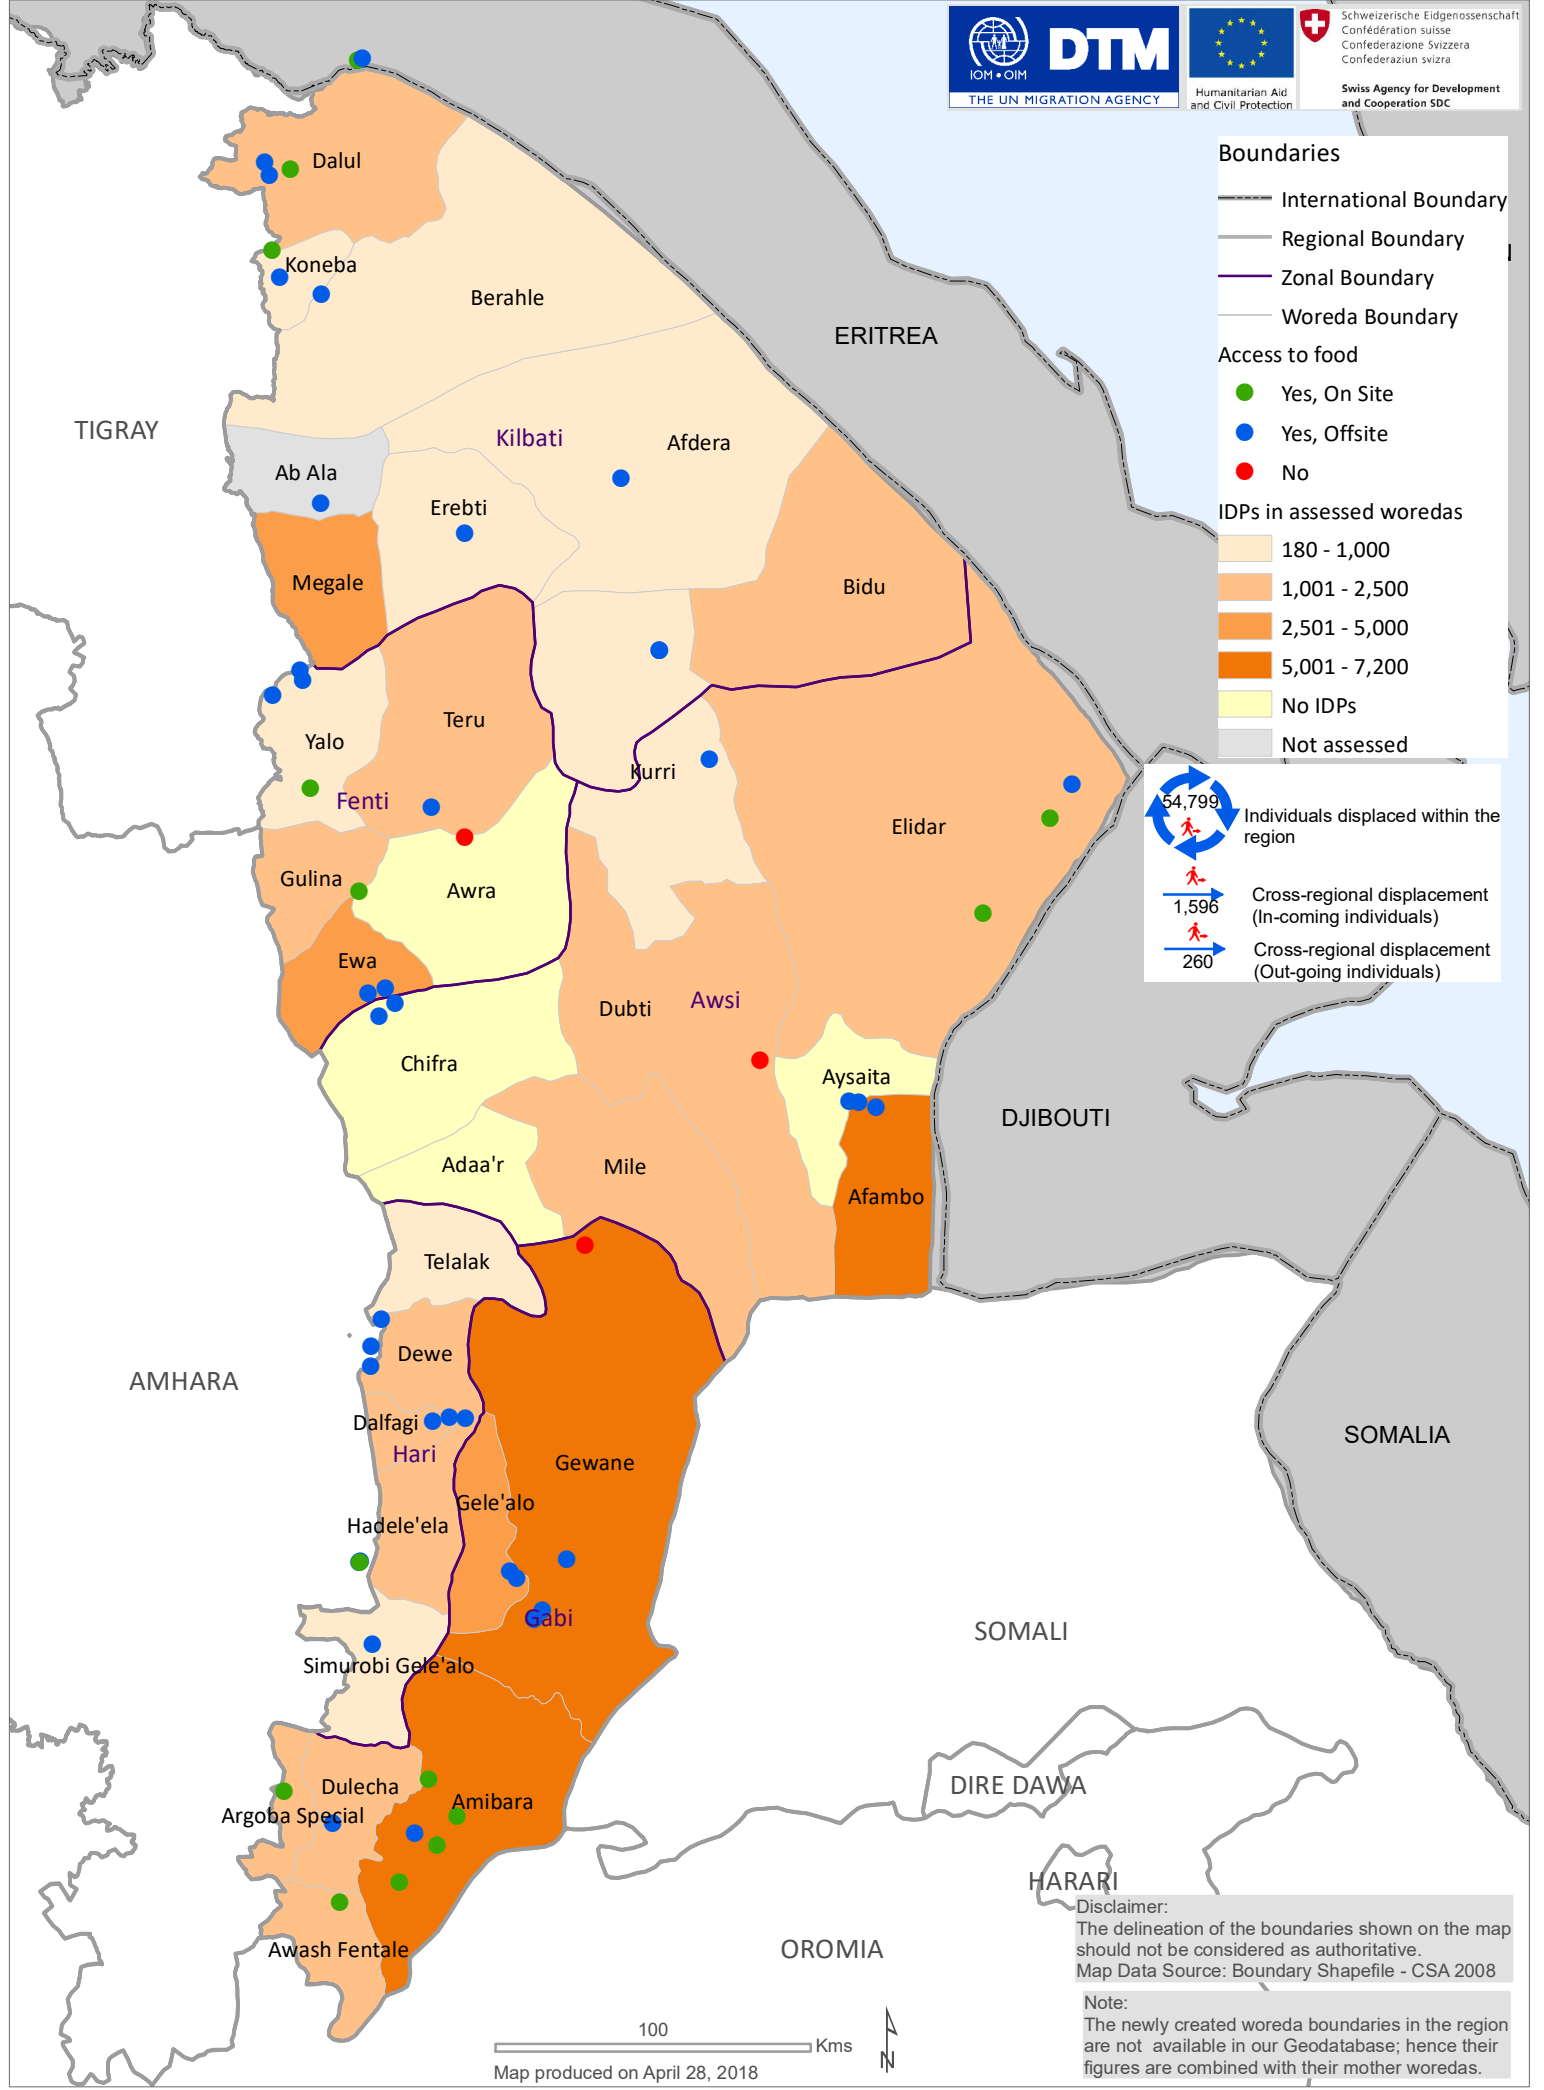

- 1,596 Cross-regional displacement (In-coming individuals)
- 260 Cross-regional displacement (Out-going individuals)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VI - Afar region households reporting acces to food and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to food

- Yes, On Site
- Yes, Offsite
- No

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799
Individuals displaced within the region

1,596
Cross-regional displacement (In-coming individuals)

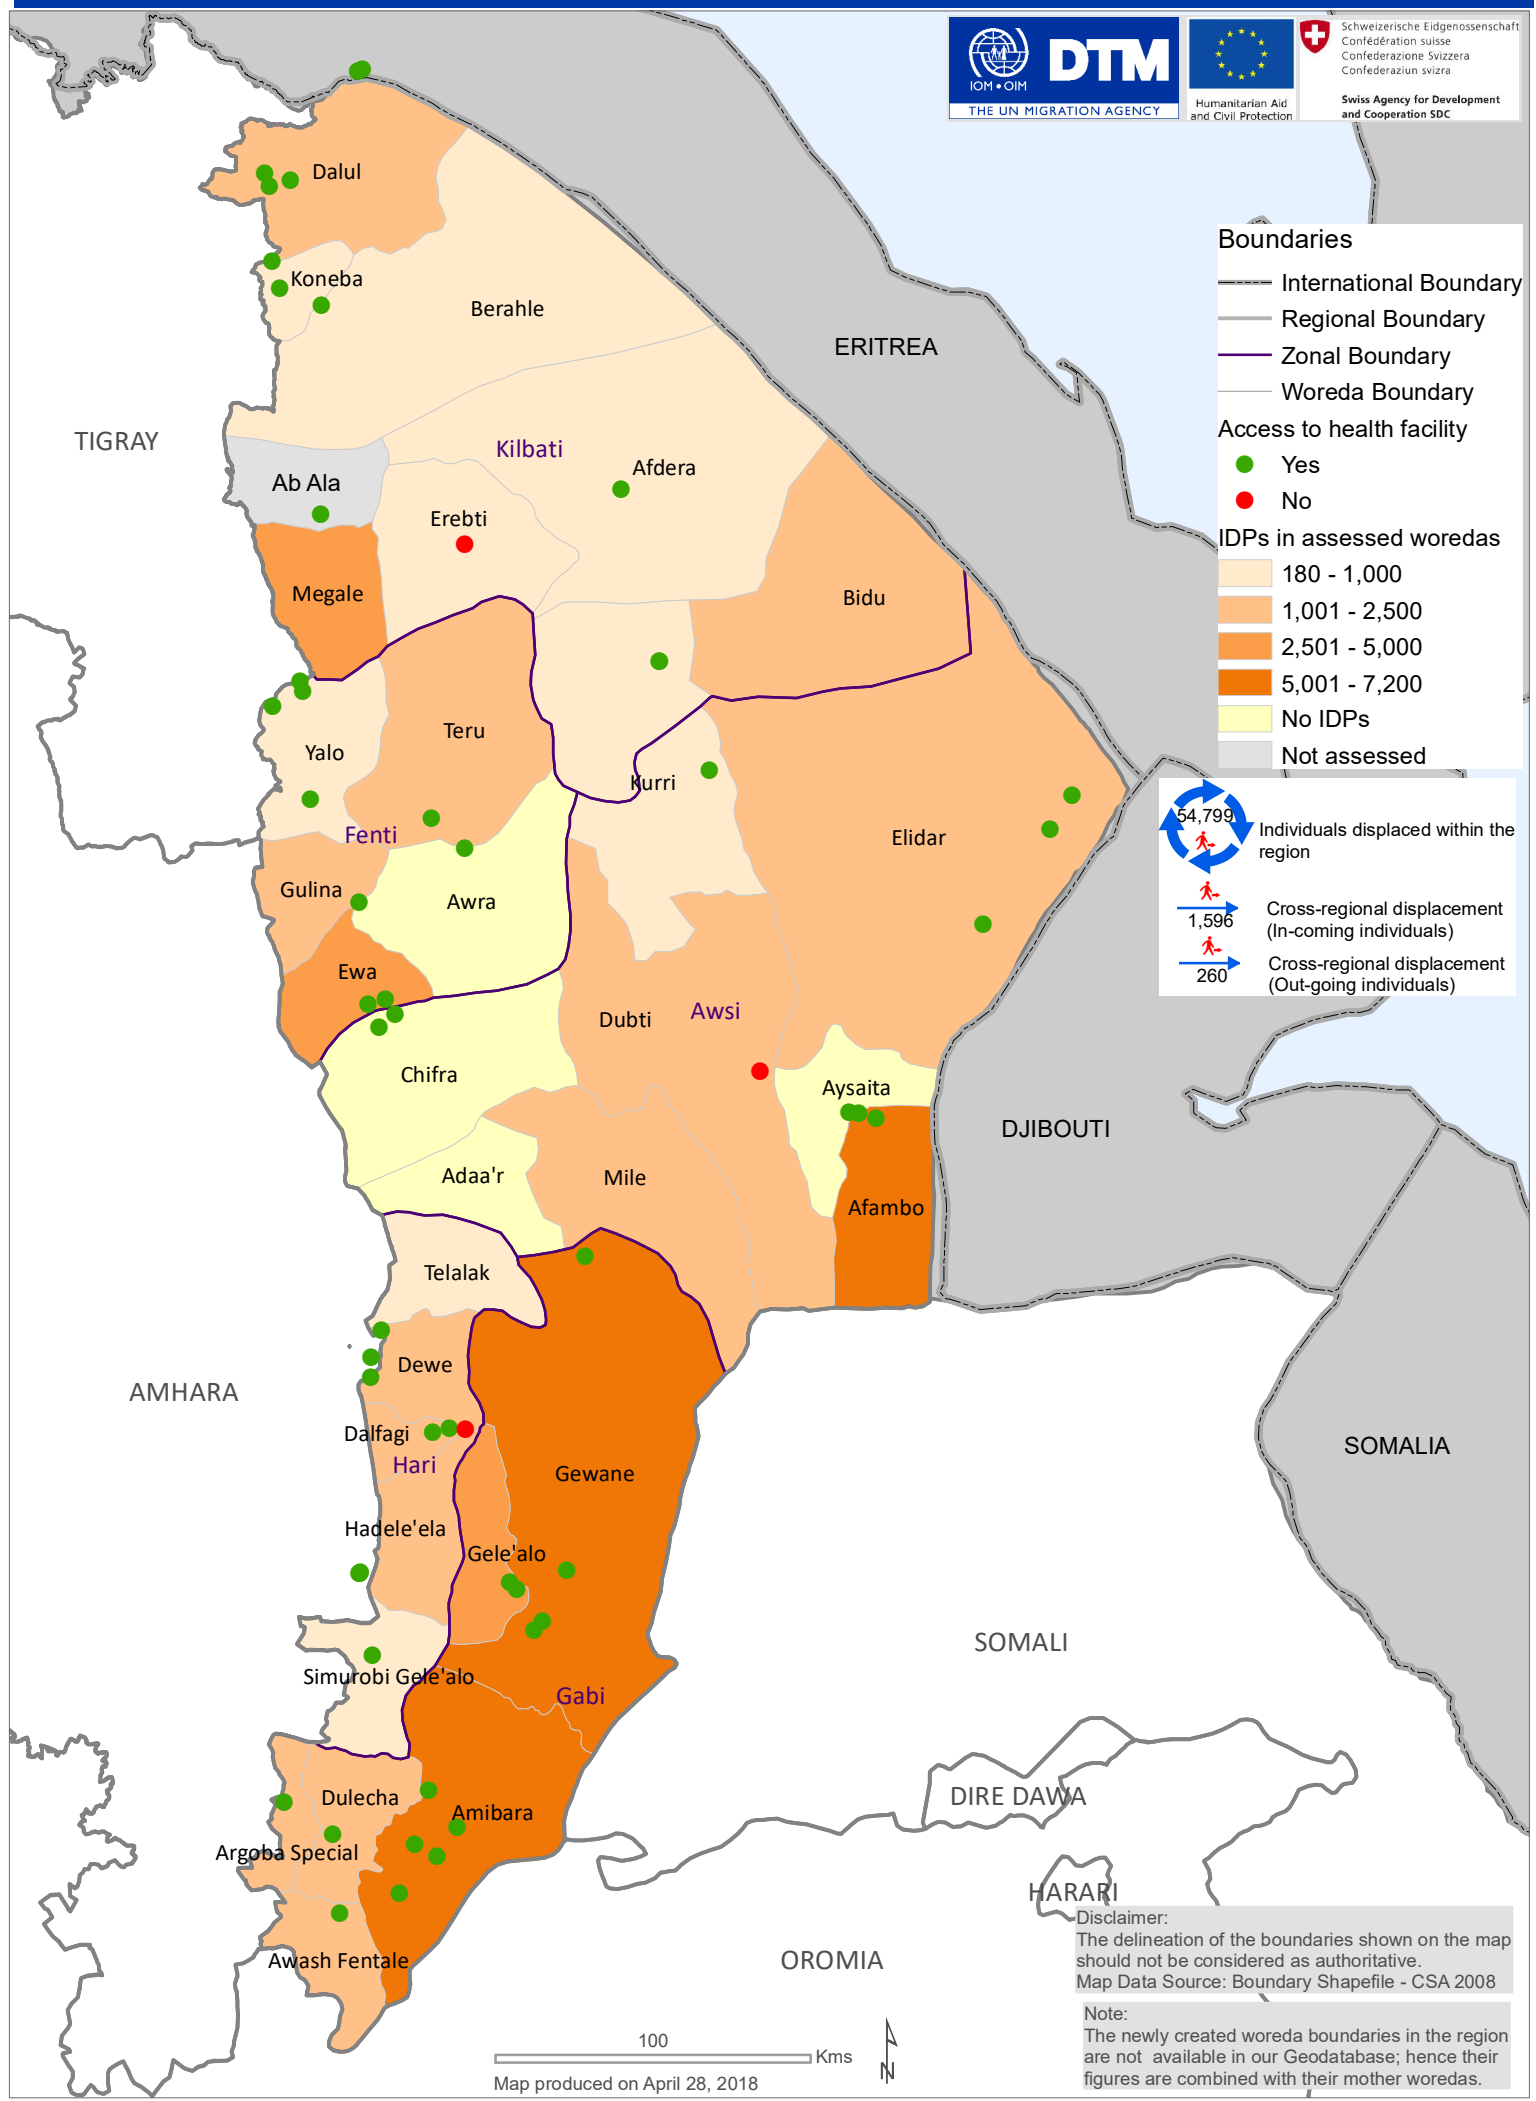

260
Cross-regional displacement (Out-going individuals)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VII - Afar region households reporting acces to health facility and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

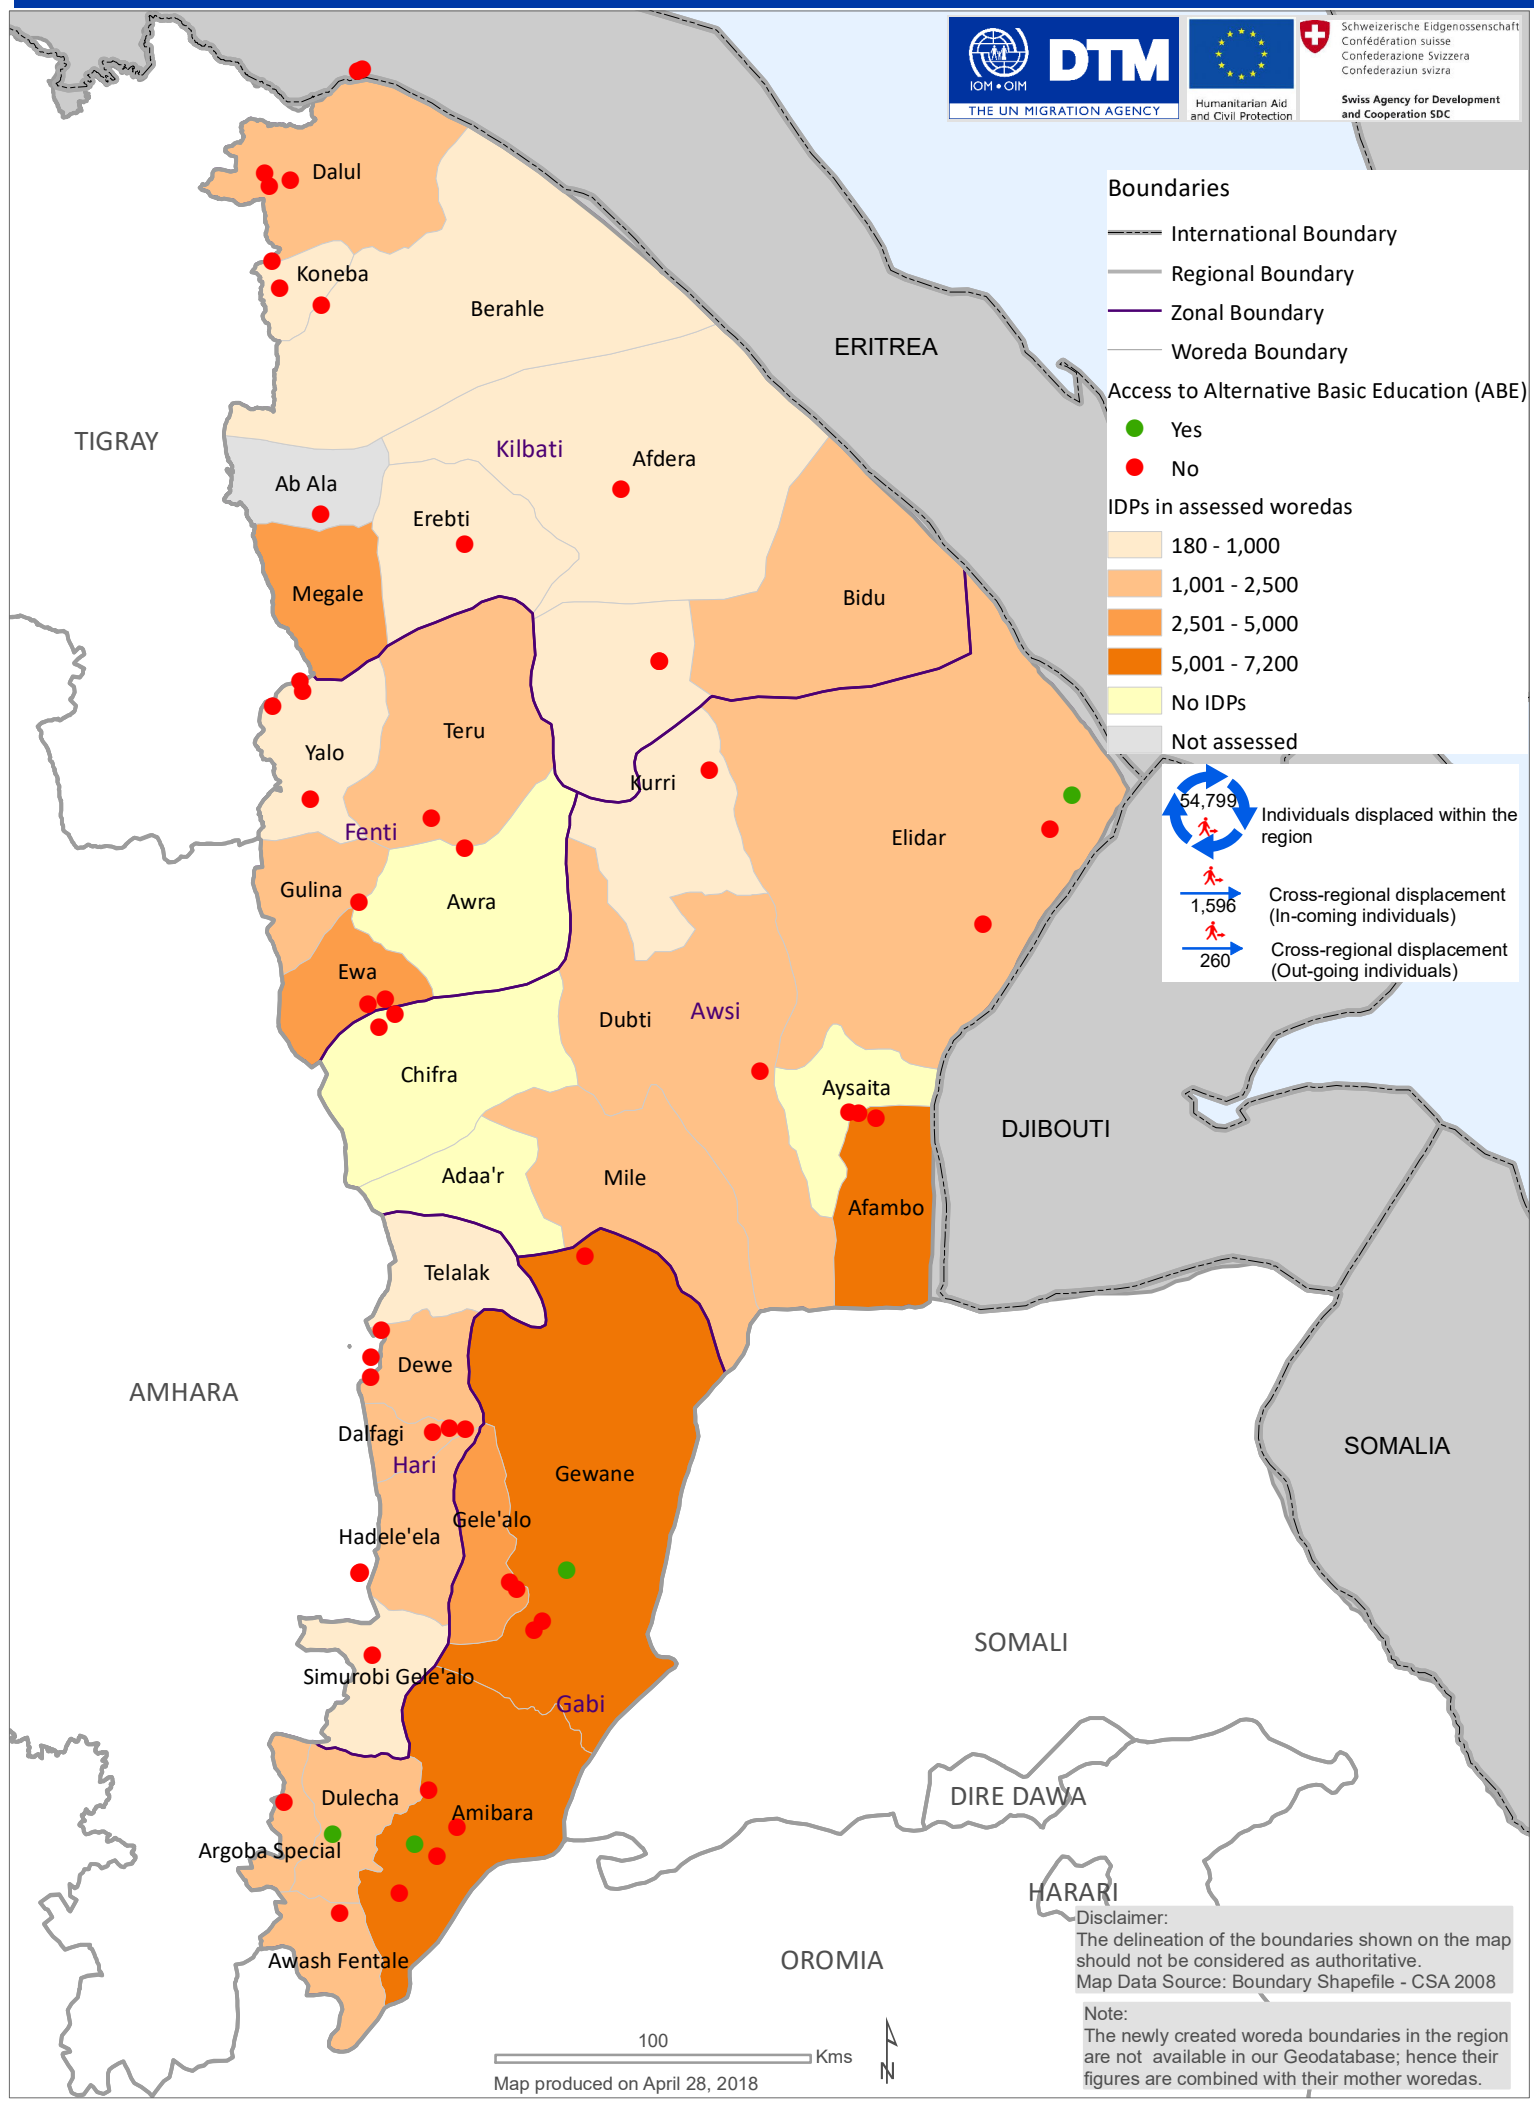

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex VIII - Afar region households reporting acces to ABE and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)

Boundaries

- International Boundary
- Regional Boundary
- Zonal Boundary
- Woreda Boundary

Access to Alternative Basic Education (ABE)

- Yes (Green dot)
- No (Red dot)

IDPs in assessed woredas

- 180 - 1,000
- 1,001 - 2,500
- 2,501 - 5,000
- 5,001 - 7,200
- No IDPs
- Not assessed

54,799 Individuals displaced within the region

1,596 Cross-regional displacement (In-coming individuals)

260 Cross-regional displacement (Out-going individuals)

Disclaimer:
The delineation of the boundaries shown on the map should not be considered as authoritative.
Map Data Source: Boundary Shapefile - CSA 2008

Note:
The newly created woreda boundaries in the region are not available in our Geodatabase; hence their figures are combined with their mother woredas.

Annex IX - Afar region households reporting acces to Formal PES and IDPs in assessed woredas

DTM round ten (05/03 - 05/04, 2018)
