

CONTEXT

The COVID-19 outbreak first reported in the People’s Republic of China in late 2019 was declared a pandemic by the World Health Organisation (WHO) on 11 March 2020. As of 31 May, approximately 5,930,000 confirmed cases had been reported in 187 countries, areas or territories according to WHO and the neighboring country Dominican Republic already reported that 17,572 individuals tested positive to the virus and 502 died from the disease. On 20 March, the first two cases were confirmed in Haiti and the country remains at high risk of rapid contagion given the weak health system, the proximity and porous border with Dominican Republic and the limited external connections now possible. In response, the Government of Haiti has communicated many important instructions to minimize the spread of the disease, particularly: closure of schools and factories, closure of airports and ports to passengers, banning of meetings of more than 10 people, nationwide curfew between 20:00 and 5:00 and plea for social distancing guidelines to be respected. At present, 2,226 cases of infection, 24 recoveries and 45 deaths have been confirmed in Haiti.

IOM has adapted its ongoing Displacement Tracking Matrix (DTM) initiative along the Haiti– Dominican Republic border to support the ongoing preparedness and response. The Flow Monitoring initiative is being carried out in 50 Border Crossing Points between Haiti and the Dominican Republic: 46 unofficial points and 4 official points in collaboration with the Support Group for the Repatriated and Refugees (GARR in French), Jesuit Services to Migrants (SJM in French) and Jano Siksè Border Network (RFJS in Haitian Creole).

CROSS BORDER MOVEMENTS AT THE BORDER FROM 24 MAY TO 31 MAY 2020 (ROUNDED FIGURES)

Please note that the figures above take into account all types of movements (forced, voluntary, daily etc.) observed along the monitored entry points. They do not replace official number but rather aim to provide insight on movements trends and patterns observed at the border.

In addition, these figures represent the data entered at the time of the report. Information is being entered consistently and figures updated as the information becomes available.

CUMULATIVE FIGURES FROM 17 MARCH 2020

258,479

Cumulative movements observed on border crossing points from 17 March to 31 May 2020.

103,541

Cumulative movements observed from Haiti to the Dominican Republic from 17 March to 31 May 2020.

154,938

Cumulative movements observed from the Dominican Republic to Haiti from 17 March to 31 May 2020.
