OVERVIEW

The crisis in Nigeria's North Central and North West zones, which involves long-standing tensions between ethnic and linguistic groups; attacks by criminal groups; and banditry/hirabah (such as kidnapping and grand larceny along major highways) led to fresh wave of population displacement.

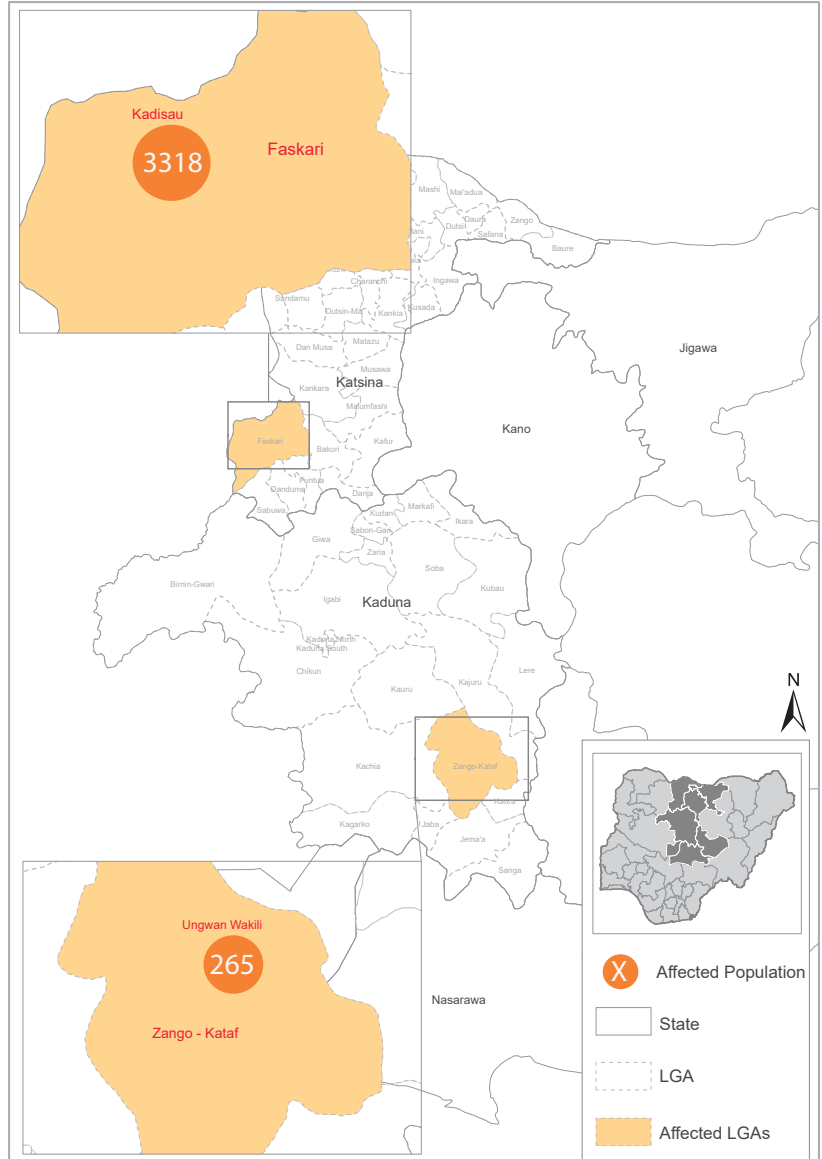

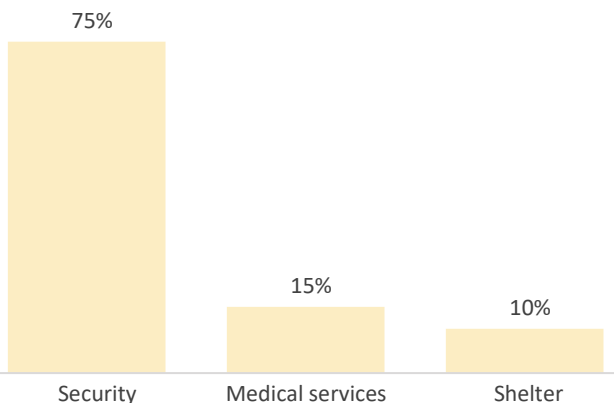

Latest attacks affected 3,583 individuals, including 61 injuries and 52 fatalities, in Faskari LGA (Katsina) and Zango - Kalaf LGA (Kaduna) between 9 - 12 June 2020. The attacks caused people to flee to neighboring localities.

A rapid assessment was conducted by field staff to assess the impact on people and immediate needs.
