

Bor South County, Jonglei State

Data collected on: 30 May 2020

On 30 May 2020, IOM's Displacement Tracking Matrix (DTM) conducted Emergency Event Tracking to capture information about flood related displacement in Bor South County. According to available data, 12,320 individuals, (2,442 households) were displaced between 22 and 30 May 2020 to nearby areas in higher altitudes after the River Nile broke a locally constructed barrier guarding Bor Town from excessive water outflow affecting villages across the Bor Town Payam.

IDPs found shelter in host communities not affected by the floods. Urgent needs identified include food, sanitation, water, health, and shelter.

¹ Please note that not all coordinates for reported locations were available at the time of writing. The map only displays locations for which coordinates were available.

Location: Bor Town Payam, Bor South County

Period Covered: 22 - 30 May 2020

Information source: Key Informant Interview

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking reports and maps on displacementiom.int/south-sudan). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
