

REGIONAL DISPLACEMENT TRACKING MATRIX (DTM) LAKE CHAD BASIN CRISIS – MONTHLY DASHBOARD #21

Context: The crisis currently affecting the Lake Chad Basin states results from a complex combination of factors, including conflict with Non-State Armed Groups, extreme poverty, underdevelopment and a changing climate, which together have triggered significant displacement of populations. As of 23 June 2020, Cameroon, Chad, Niger and Nigeria were hosting an estimated 4,824,766 affected individuals made up of Internally Displaced Persons (IDPs), Refugees (both in- and out-of-camp), Returnees (Former IDPs and Returnees from abroad) and Third Country Nationals (TCNs). 78 per cent of the affected population (representing 3,720,466 individuals) were located in Nigeria, while 11 per cent resided in Cameroon (528,082 individuals), 6 per cent in Chad (312,700 individuals) and 5 per cent in Niger (263,518 individuals).

Sources and dates: DTM Cameroon (Round 20 – December 2019), DTM Chad (Round 11 – April 2020), DTM Nigeria (Round XXXI – February 2020), Government of Niger (29/05/2020), DREC-M/R/UNHCR Niger (May 2020), UNHCR Cameroon (31/05/2020), CNARR & UNHCR (31/05/2020).
