

**Maiduguri, Jere, Kaga and Konduga LGA (Local Government Area)**

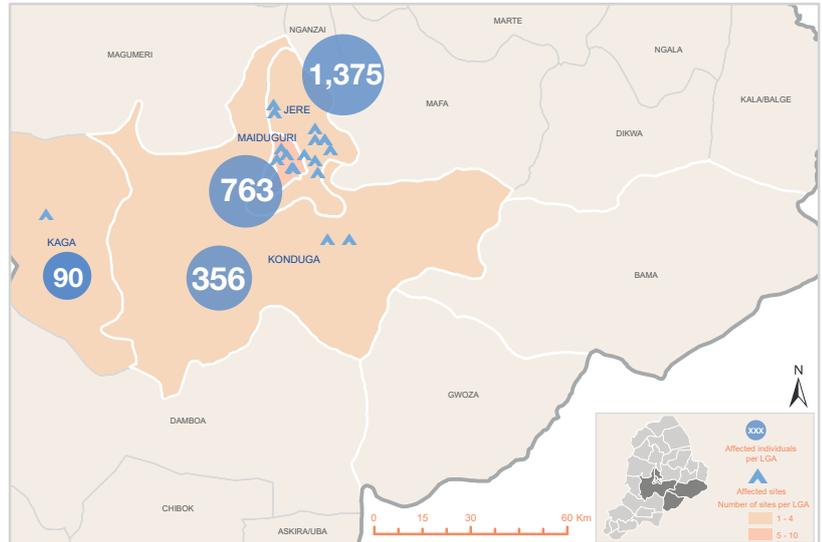

**04 July 2020**

**SUMMARY**

With the onset of the rainy season in Nigeria's conflict-affected northeastern State of Borno, varying degrees of damages are expected to infrastructures (self-made and constructed) in camps and camp-like settings. This is so because the rains are more often than not accompanied by very high winds and have been known to cause serious damage to properties.

On 04 July 2020, IOM's DTM program carried out an assessment to ascertain the level of damage sustained in camps and camp-like settings due to heavy windstorm and rainfall between the 29th of June - 3rd of July 2020. Overall, 19 camps were affected in Maiduguri, Jere, Kaga and konduga LGAs. The worst-hit of the camps assessed was the Federal Low cost Chezcoan camp in Maiduguri Metropolitan Council where a heavy rainfall left 118 makeshift shelters damaged and an estimated 342 individuals without shelter.
