PASSENGERS HEALTH SCREENING

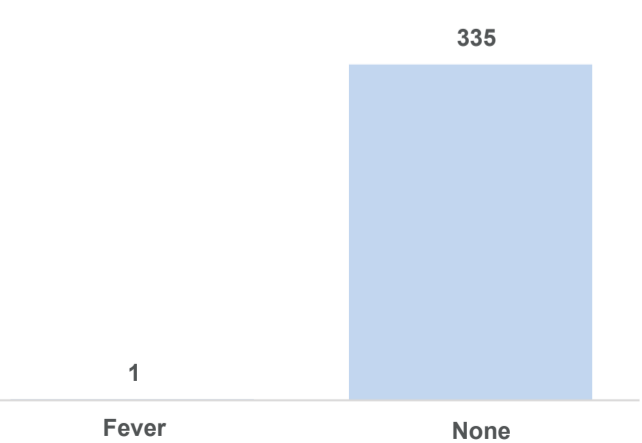

Through interviews with travelers by enumerators at Points of Entry, information was obtained from travelers' points of departures, intended destination, vulnerabilities, temperatures, reasons for moving and mode of transport. Additional questions concerning the COVID-19 pandemic were asked to determine if travelers exhibit any symptoms of coronavirus; if they had come in contact with anyone who exhibiting such symptoms or might have died from it?

Furthermore, the assesment was to check if travelers had taken any medications in the last 24 hours and also to know if they are aware of the authorities to call in case of emergencies. The results are shown in figures 5 to 8.
