

CONTEXT

The COVID-19 outbreak first reported in the People’s Republic of China in late 2019 was declared a pandemic by the World Health Organisation (WHO) on 11 March 2020. As of 28 June, approximately 9,843,000 confirmed cases had been reported in 195 countries, areas or territories according to WHO and the neighboring country Dominican Republic already reported that 31,816 individuals tested positive to the virus and 733 died from the disease. On 20 March, the first two cases were confirmed in Haiti and the country remains at high risk of rapid contagion given the weak health system, the proximity and porous border with Dominican Republic and the limited external connections now possible. In response, the Government of Haiti has communicated many important instructions to minimize the spread of the disease, particularly: closure of schools and factories, closure of airports and ports to passengers, banning of meetings of more than 10 people, nationwide curfew between 20:00 and 5:00 and plea for social distancing guidelines to be respected. At present, 5,933 cases of infection, 105 deaths and 839 recoveries have been confirmed in Haiti.

IOM has adapted its ongoing Displacement Tracking Matrix (DTM) initiative along the Haiti– Dominican Republic border to support the ongoing preparedness and response. The Flow Monitoring initiative is being carried out in 50 Border Crossing Points between Haiti and the Dominican Republic: 46 unofficial points and 4 official points in collaboration with the Support Group for the Repatriated and Refugees (GARR in French), Jesuit Services to Migrants (SJM in French) and Jano Siksè Border Network (RFJS in Haitian Creole).

DEMOGRAPHICS - WEEK OF 22 JUNE TO 28 JUNE 2020

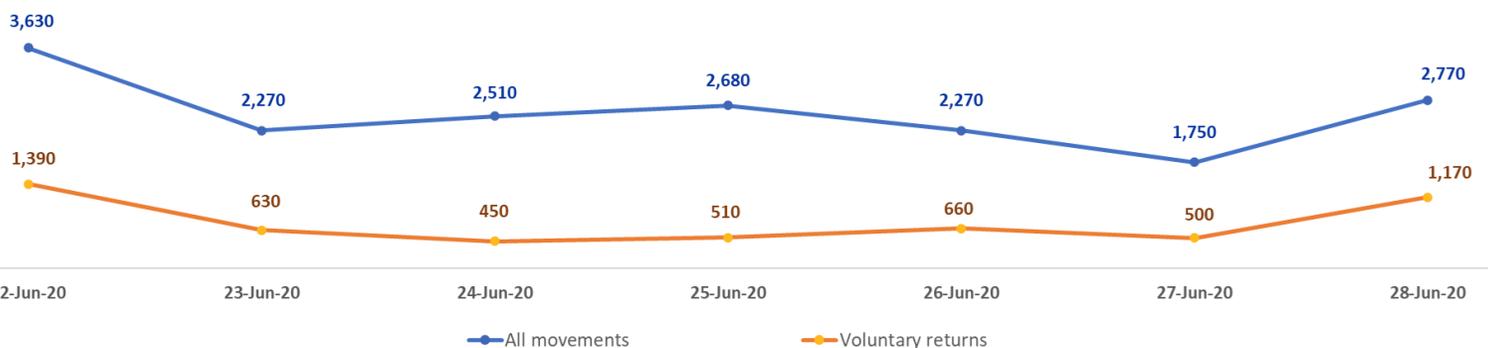

WEEKLY FIGURES - 22 JUNE TO 28 JUNE 2020

BREAKDOWN OF VOLUNTARY RETURNS PER BORDER LOCATION - WEEK OF 22 JUNE TO 28 JUNE 2020

CROSS BORDER MOVEMENTS AT THE BORDER FROM 22 JUNE TO 28 JUNE 2020 (ROUNDED FIGURES)

Please note that the figures above take into account all types of movements (forced, voluntary, daily etc.) observed along the monitored entry points. They do not replace official numbers but rather aim to provide insight on movements trends and patterns observed at the border.

In addition, these figures represent the data entered at the time of the report. Information is being entered consistently and figures updated as the information becomes available.

CUMULATIVE FIGURES FROM 17 MARCH 2020

332,886

Cumulative movements observed on border crossing points from 17 March to 28 June 2020.

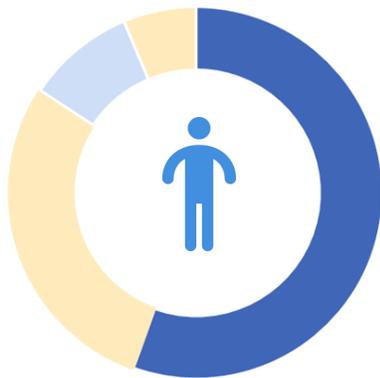

134,426

Cumulative movements observed from Haiti to the Dominican Republic from 17 March to 28 June 2020.

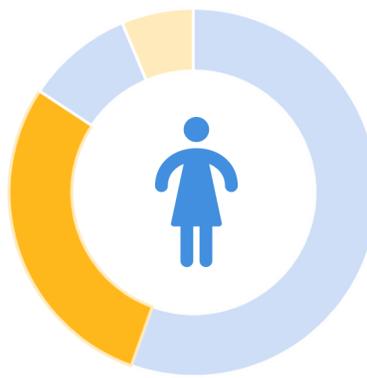

198,460

Cumulative movements observed from the Dominican Republic to Haiti from 17 March to 28 June 2020.

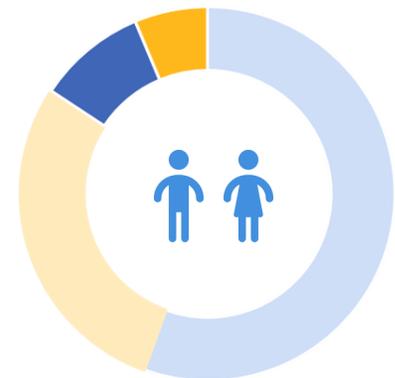

DEMOGRAPHICS SINCE ONSET OF COVID-19 IN HAITI - from 17 MARCH TO 28 JUNE 2020

WOMEN 28.8%

BOYS 9.4% GIRLS 6.3%

VOLUNTARY RETURNS FROM 17 MARCH TO 28 JUNE 2020

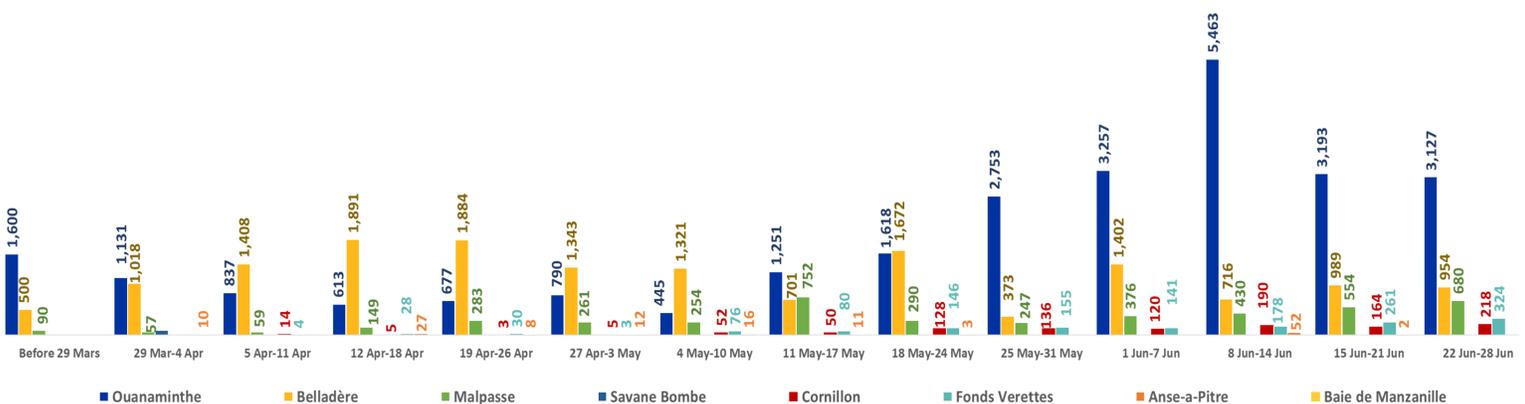

VOLUNTARY RETURNS

50,182

Voluntary Returns observed at the border from 17 March to 28 June 2020.

VOLUNTARY RETURNS BY BORDER CROSSING POINTS FROM 17 MARCH TO 28 JUNE 2020

REPATRIATIONS

The migration of Haitians remains one of the most complex and challenging in the region. It is estimated that there are more than 1.2 million persons Haitian migrants across the world (MPI 2017), most in United States of America, Canada, France, the Bahamas and Dominican Republic, among others. Haiti also remains highly exposed to natural disasters such as earthquakes and hurricanes. Adding to these challenges, the country's continuous socio-economic issues caused by political turmoil have consistently caused instability, widespread poverty, risks of epidemics among others. These factors combined contribute to exacerbate the country's vulnerability thus directly driving irregular migration flows.

In line with this, IOM is monitoring other movements and migratory flows outside of Haiti, particularly those observed towards northern countries such as the Bahamas, Turks and Caicos and United States of America. Indeed, as increased movements and repatriations of Haitian migrants from the Northern part of Haiti (Nord-Ouest, Nord and Nord-Est) have been observed for the better part of 2019 and early 2020, IOM's flow monitoring teams will continue to track all trends that may also affect movements toward the Dominican Republic.

CUMULATIVE FIGURES FROM 2018

2,205

Repatriations as of 2018

1,549

Repatriations by air as of 2018

646

Repatriations by boat as of 2018

DEMOGRAPHICS OF REPATRIATED PERSONS BY COUNTRY
