

TROPICAL CYCLONE IDAI RESPONSE BASELINE ASSESSMENT — ROUND 4 MANICALAND AND MASVINGO PROVINCES, JULY 2020

Interview with key Informants from Ward 16 in Gutu District. @ IOM July 2020

BACKGROUND

Tropical Cyclone Idai made landfall in Zimbabwe on 15 March 2019, the country experienced floods and sustained heavy rains caused by the weather system. From the 29th of June 2020 to the 13th of July 2020, IOM, in close coordination with the Government of Zimbabwe (GoZ) and various District Civil Protection Units (DCPU), conducted the Displacement Tracking Matrix (DTM) Baseline Assessment in two provinces which were heavily affected by the cyclone, Manicaland and Masvingo.

This report provides an analysis of priority needs of the Cyclone Idai affected communities to inform the targeting and design of future humanitarian programming.

SUMMARY

From the 29th of June to the 13th of July 2020, IOM DTM carried out a baseline assessment in **12** districts affected by Cyclone Idai in Manicaland and Masvingo provinces to monitor and track the locations and priority needs of the affected populations. A total of **60** enumerators were engaged and carried out assessments in **269** of the targeted **272** wards.

Overall, there is still **35,166** individuals displaced due to cyclone Idai, with the majority having returned to their original homes and in most cases living in makeshift structures. An estimated **7,667** homes were completely destroyed, while **25,190** homes were partially destroyed. In total **6,782** households are reported to be still in need of shelter support, with only **3,643** having received emergency shelter support since the cyclone made its landfall in Zimbabwe.

Baseline assessments were done at ward level through focus group discussions with key informants at the ward centres in coordination with the Department of Civil Protection. Enumerators were identified at district level and trained to carry out data collection. Gender mainstreaming was implemented throughout the whole assessment from enumerator selection and training to information gathering. The enumerators were encouraged to have a gender balanced composition amongst the key informants, in order to capture the needs and concerns from different gender perspectives.

This report presents descriptive analysis through province and district profiles and summary statistics, including an analysis of sector-wide needs, such as shelter, non-food items, water, sanitation and education.

College of pictures through the Baseline Survey exercises from enumerator training to interviews with key informants. @IOM J-july 2020

MANICALAND PROVINCE

Manicaland Province Priority Needs

This round of Baseline Survey covered **155 Wards** from the **seven** Cyclone Idai affected Districts in Manicaland Province.

The first urgent need in the province as reported by 50 wards across the province was food (32%), followed by drinking water reported by 45 wards (29%), shelter/housing reported by 31 wards (20%). The relative gap reflects urgent need for food, water and shelter assistance.

Highlights

106,502 affected population

25,517 IDPs from 6,541 households
10,058 males and 15,459 females

22,201 returnees from 4,319 households

4,799 totally destroyed homes

13,594 partially destroyed homes

3,646 households need shelter support
3,035 households received shelter support

1,588 individuals from 323 households live in host communities across 166 locations, and 185 households, 859 individuals live in camps.

Number of Damaged Facilities

205 Schools

29 Health Facilities

162 Bridges

96 Roads

135 Boreholes

137 Water Springs

25 Dip tanks

18 Public buildings

BUHERA DISTRICT MANICALAND PROVINCE

32 WARDS ASSESSED

- 19,862 affected population
- 4,150 partially destroyed homes
- 1,877 totally destroyed homes
- 635 households need shelter support
- 1,032 households received shelter support
- IDP presence in 31 wards
- 2,746 IDPs from 603 households
- 1,229 males and 1,517 females
- Returnees are present in 21 wards
- 4,392 returnees from 775 households
- 1,588 individuals from 323 households live in host communities across 166 locations

Buhera District Priority Needs

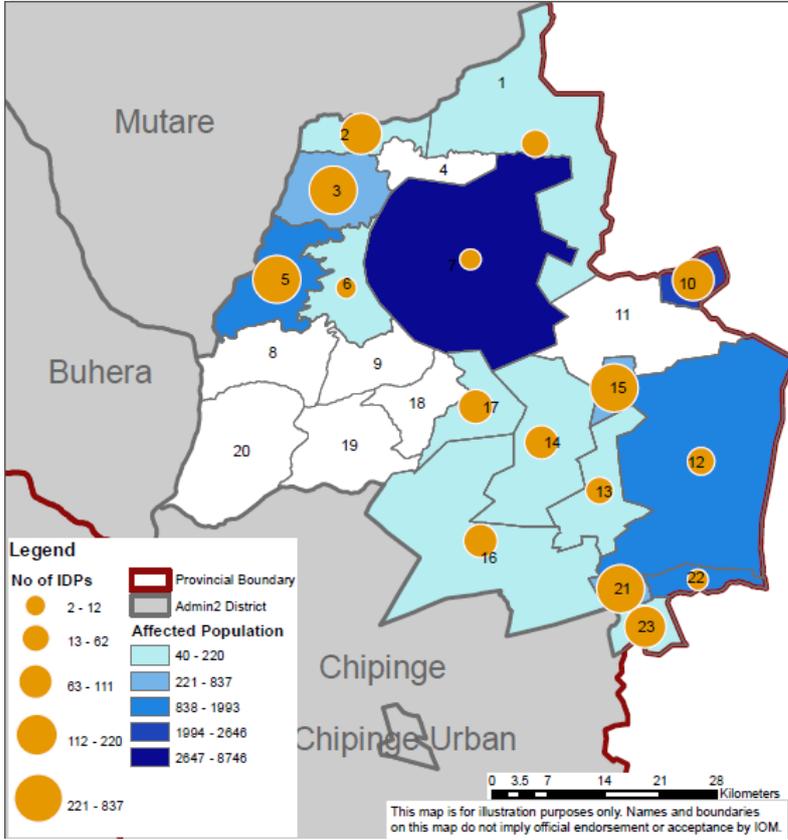

The top three priority needs in the district as indicated by the key informants were shelter/housing, food and health sanitation.

Damaged Facility	Number of wards with damaged facilities	Number of damaged facilities
	27 Wards	71 Schools
	6 Wards	6 Health Facilities
	15 Wards	23 Bridges
	22 Wards	60 Roads
	3 Wards	7 Public Buildings
	10 Wards	41 Boreholes 6 Deeptanks

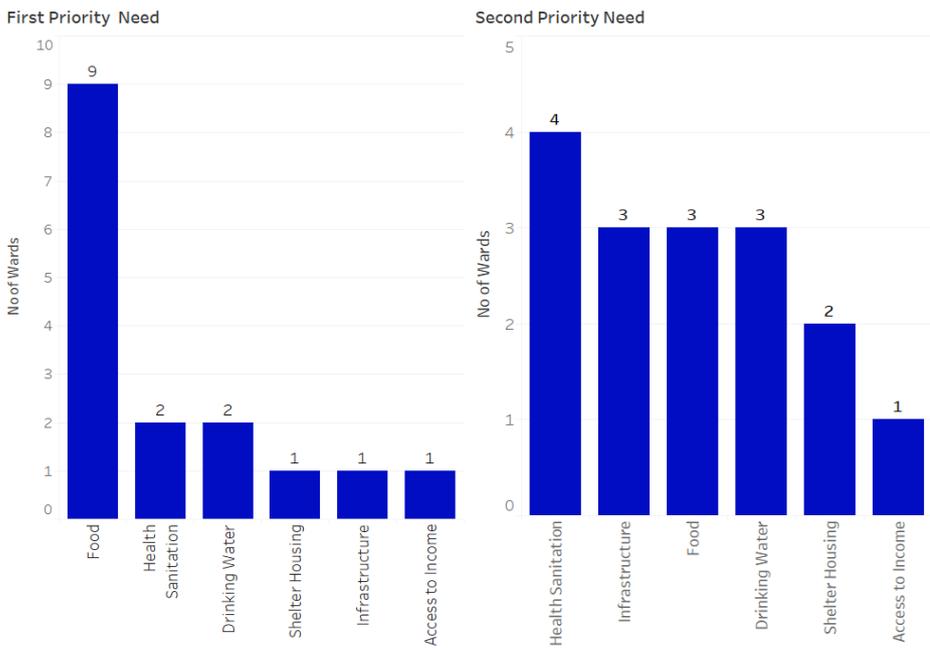

CHIMANIMANI DISTRICT MANICALAND PROVINCE

16 WARDS ASSESSED

- 19,438** affected population
- 2,416** partially destroyed homes
- 1,118** totally destroyed homes
- 719** households need shelter support
950 households received shelter support
- IDP presence in **15** wards
4,048 IDPs from **1,667** households
1,639 males and **2,409** females
- Returnees are present in **13** wards
4,241 returnees from **691** households
- 156** individuals from **39** households live in host communities across **10** locations, and **185** households, **859** individuals live in camps

Chimanimani District Priority Needs

The top three priority needs in the district as indicated by the key informants were food, health and sanitation, and shelter/housing.

Damaged Facility	Number of wards with damaged facilities	Number of damaged facilities
	10 Wards	25 Schools
	5 Wards	455 Health Facilities
