

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Information is collected through key informant interviews or direct observation. This dashboard provides information on movements which took place in the city of N'Djamena in August 2020.

Following **floods** which have been ongoing since early August 2020 in N'Djamena, **7,122 households (31,853 individuals)** fled their homes located in **15 quartiers (7 arrondissements)** of the city. They took refuge either elsewhere in their arrondissement, or in neighbouring arrondissements. **Ten individuals died** following the floods. It should be noted that **5,250 shelters have been destroyed**. Most of the affected individuals are **hosted by relatives**, but **some of them are currently without shelter**. As of 25 August 2020, **no assistance** has been provided to meet their needs.

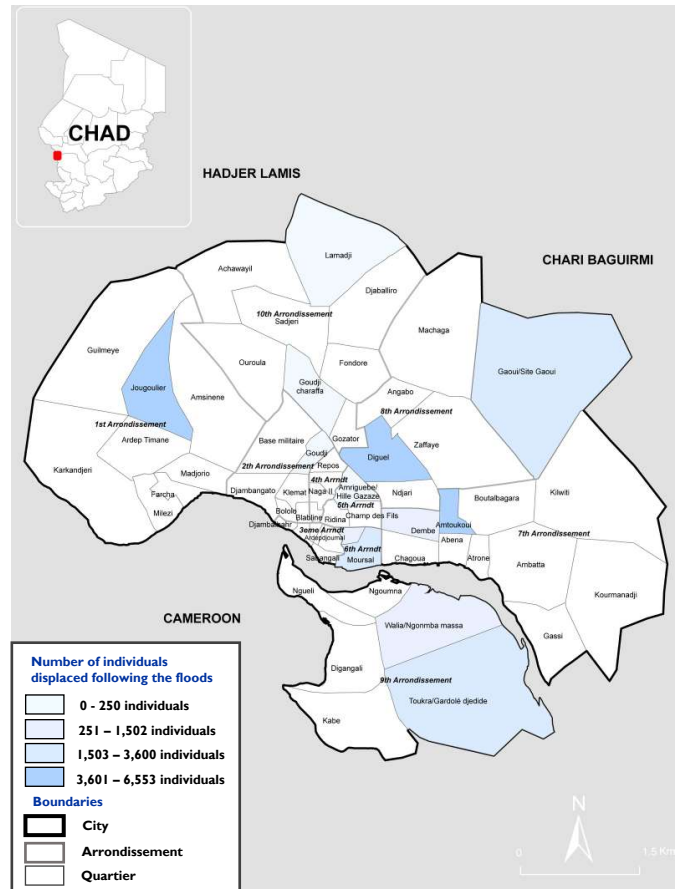

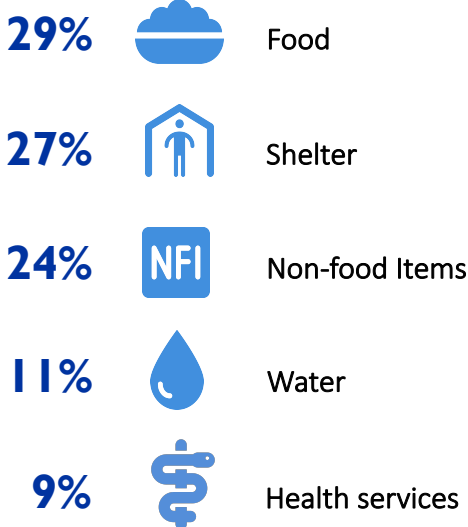

METHODOLOGY : Data were collected through assessments in affected areas (for 53% of assessed quartiers) or through phone interviews (47%), with quartier representatives and heads of carrés. These data were then triangulated with the Permanent Secretariat for Non-Governmental Organizations and Humanitarian Affairs (*Secrétariat Permanent des ONG et des Affaires Humanitaires, SPONGAH*), which is part of Chad's Ministry of Economy and Development Planning.

SUMMARY OF EVENTS

NUMBER OF MOVEMENTS AND DISPLACED PERSONS

PRIORITY NEEDS

This map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown on maps and included in this report are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM. It should be noted that the Madaga and Hillé Houdjad quartiers could not be represented on the map.

DISPLACEMENT DETAILS

| # | Arr. | Quartier | Displaced population | Population category | Host location | Number of deaths | Priority needs | | |
