

OVERVIEW

The current outbreak of COVID-19 has resulted in a global pandemic, increasing the risk to vulnerable populations, mobile populations and internally displaced people. On 17 March 2020, the Government of Zimbabwe (GoZ) declared COVID-19 a national disaster and imposed movement restriction measures to prevent the spread of COVID-19.

In response to this pandemic, IOM's Displacement Tracking Matrix (DTM) in collaboration with Government of Zimbabwe, conducted assessments in 12 Cyclone Idai affected districts covering 272 wards in Manicaland and Masvingo provinces for the purposes of informing response partners on the preparedness and precautionary measures in place and help in decision making with regards to response interventions.

Key Findings at Ward Level

272 Wards Assessed

Since lockdown **37,200 returnees** were recorded in **215 wards** **33,267** from within Zimbabwe in **181 wards** and **3,933** from outside Zimbabwe in **157 wards**

Health facilities in **51 wards** have isolation spaces

117 wards have health facilities with infrared thermometers

217 wards have access to health facilities

260 wards took precautionary measures

In **224 wards**, health workers were trained on COVID-19

In **73 wards**, clinics have access to personal protective equipment (PPE)

In **114 wards**, clinics have access to some of the PPE

151 wards have access to handwashing stations

In **118 wards**, **all** villages and in **123 wards**, **some** of the villages are observing social distancing

School children have access to home learning in **55 wards**

A makeshift foot-step hand washing station in front of a shop in Makoni. @IOM July 2020

The COVID-19 baseline assessment targeted **272** wards in the two provinces affected by cyclone Idai in 2019 which were identified as harbouring IDPs identified during the [IOM DTM baseline assessment of December 2019](#).

Information was gathered physically through focus group discussions (FGD) with ward level key informants, including councillors, wards secretaries, chiefs, health personnel and education officers.

Main focus was assessing:

- * the impact of COVID-19 on population mobility,
- * prevention and impact of lockdown measures,
- * COVID-19 preparedness in displacement areas and
- * impact of COVID-19 on education activities.

Manicaland Province

157 Wards Assessed

Local Arrivals into Manicaland

International Arrivals into Manicaland

This map is for illustration purposes only. Names and boundaries on this map do not imply official endorsement or acceptance by IOM.

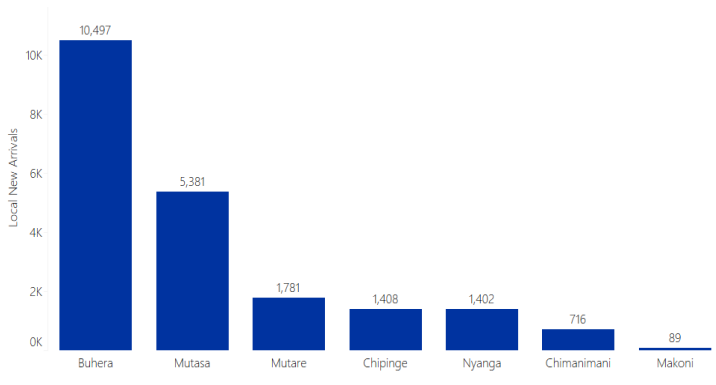

Arrivals into the wards since lockdown

7 districts reported that there were new arrivals since lockdown, a total of **21,274** individuals from within Zimbabwe and **1,598** individuals from abroad.

Number of Local Arrivals by District

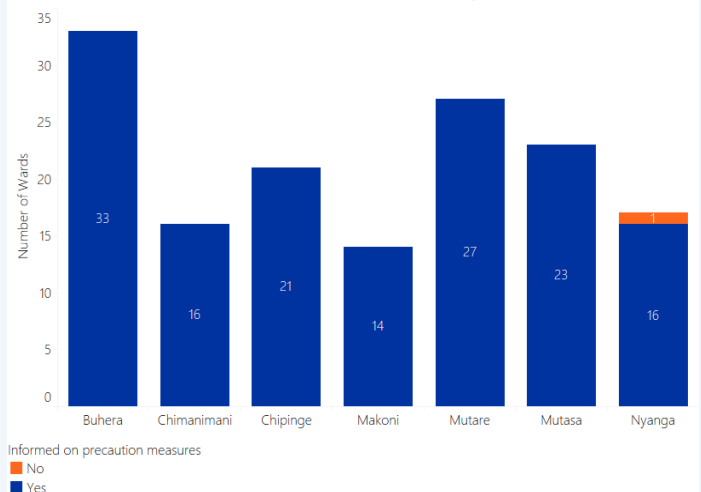

COVID-19 Preparedness

In **151 wards**, villagers were informed about the COVID-19. In **150 wards**, villagers were informed on preventive and precautionary measures by health partners, non-health humanitarian agencies, community leaders and local government officers.

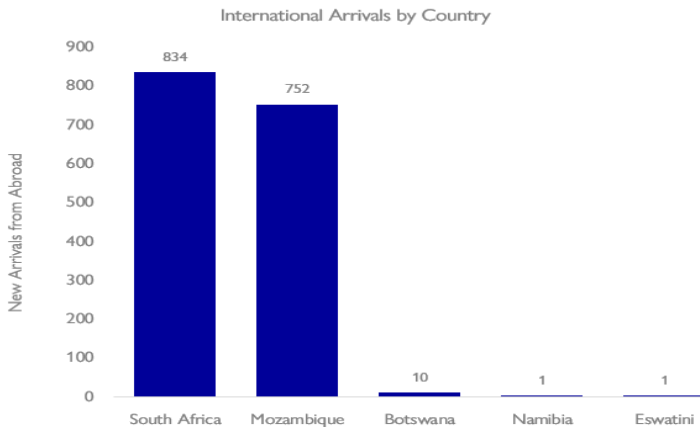

Wards Informed on COVID-19 Precautionary measures

Manicaland Province

157 Wards Assessed

COVID-19 Preparedness

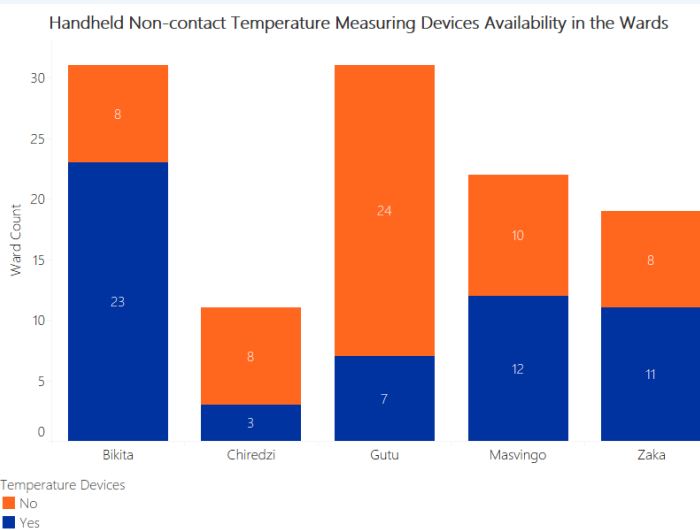

In **130 wards**, hand washing stations with soap and water are in place.

In **139 wards**, villagers are observing social distancing.

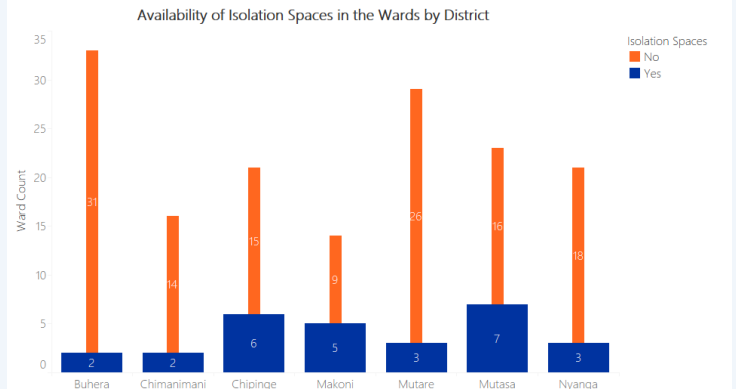

Health workers were trained on COVID-19 prevention and management in **123 wards**.

In **2 wards** health facilities have access to personal protective equipment (PPE) while in **96 wards** clinics have access to some of the PPE.

In **60** of the **157 wards** have health facilities are equipped with infrared thermometers.

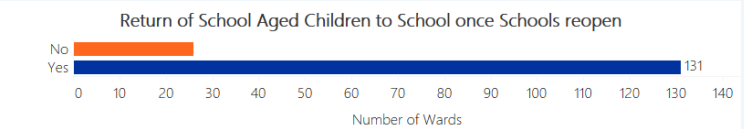

In **28** of the **157 wards** health facilities have isolation centres in place.

Impact of COVID-19 on Education

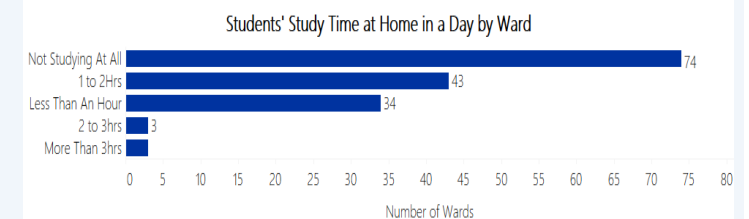

In **114 wards** school children do not have access to learning materials at home.

Return To School
■ No
■ Yes

Respondents in **131 wards** indicated that as soon as schools open children will go back to school, while **26 wards** indicated that the pandemic is still upon us and are not ready to send children back to school.

School children are getting home learning support from parents (**48 wards**), teachers (**29 wards**) and their peers (**21 wards**).

In **13 wards**, school children were reported to be studying from home through the use of TV education.

School children from **45 wards** were reported to be studying using radios.

In **20 wards** school children are studying through the use of online resources.

41 wards reported that school children were studying through messages from teachers and in **46 wards** through the use of work books.

0 12.5 25 50 75 100 Kilometers

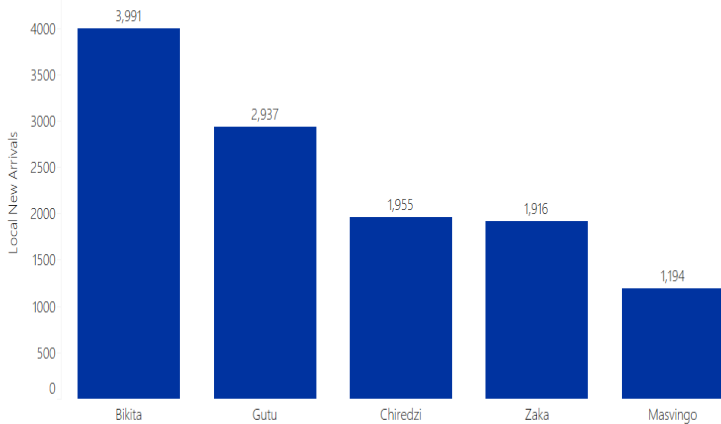

Arrivals into the wards since lockdown

Five Districts reported that there were new arrivals since lockdown, a total of **11,993** individuals from within Zimbabwe and **2,335** individuals from abroad.

Number of Local Arrivals by District

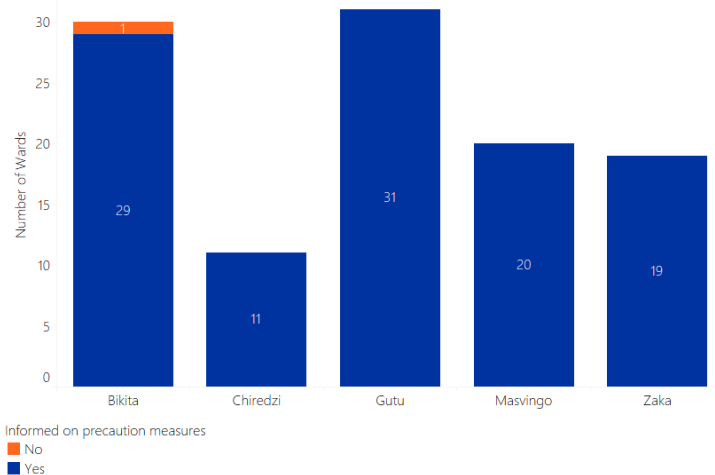

COVID-19 Preparedness

In **111 wards**, villagers were informed about the COVID-19. In **110 wards**, villagers were informed on preventive and precautionary measures by health partners, non-health humanitarian agencies, community leaders and local government officers.

Wards Informed on COVID-19 Precautionary measures by District

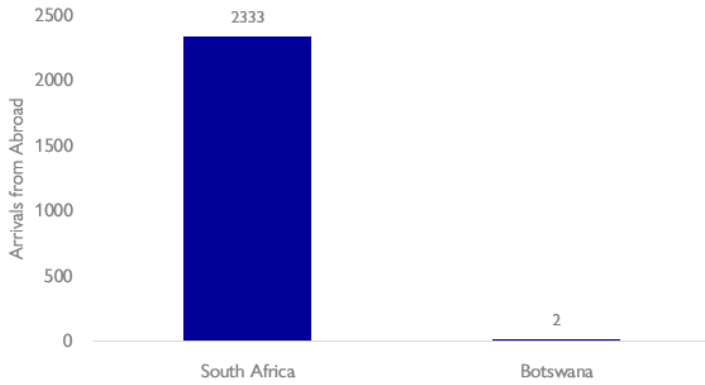

Masvingo Province

115 Wards Assessed

COVID-19 Preparedness

International Arrivals by Country

 In **61 wards**, hand washing stations with soap and water were in place.

 In **50 wards**, villagers are observing social distancing.

 Health workers were trained on COVID-19 prevention and management in **101 wards**.

 In **8 wards** health facilities have access to all PPE while in **50 wards** clinics have access to some of the PPE.

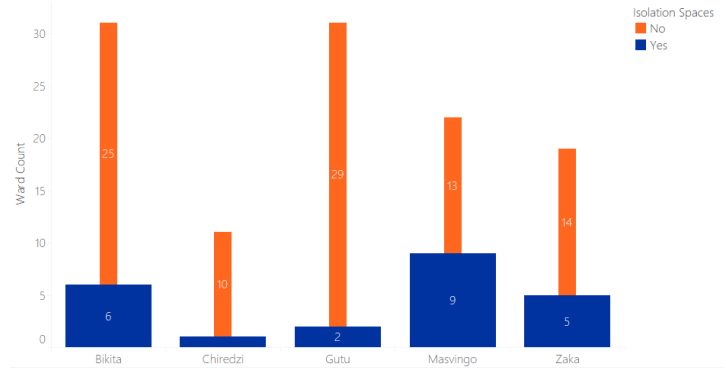

Handheld Non-contact Temperature Measuring Devices Availability in the Wards

 In **57** of the **115 wards** health facilities are equipped with infrared thermometers.

 In **23** of the **115 wards**, health facilities have isolation centres.

Availability of Isolation Spaces in the Wards by District

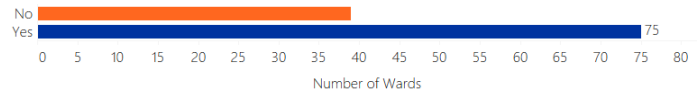

Impact of COVID-19 on Education

In **102 wards** school children do not have access to learning materials at home.

Respondents in **75 wards** indicated that as soon as schools open children will go back to school, while **39 wards** indicated that the pandemic is still upon us and are not ready to send children back to school.

Return of School Aged Children to School once Schools reopen

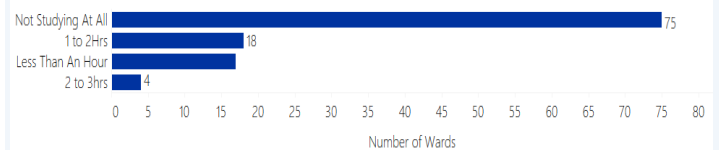

Return To School

School children are getting home learning support from parents (**16 wards**), teachers (**13 wards**) and their peers (**6 wards**).

Students' Study Time at Home in a Day by Ward

In **3 wards** school children were reported to be studying from home through the use of TV education.

School children from **24 wards** were reported to be studying using radios.

In **19 wards** school children are studying through the use of online resources.

36 wards reported that school children were studying through messages from teachers and in **100 wards** through the use of work books.
