

Renk County, Upper Nile State

Renk County of Upper Nile State recorded heavy and persistent rainfall throughout late July and early August 2020. In addition to the rain, the [collapse of the Butt Dam](#) (Blue Nile) releasing 5 million cubic meters of water upriver in neighbouring Sudan resulted to flooding in Renk County. Heavy downpour and flood waters cut off the main road linking Renk to the state capital, Malakal and the oil production areas in Palouch.

DTM and humanitarian partners received reports of large numbers of households that were displaced due to flooding in the county in need of humanitarian assistance prompting DTM to conduct an Emergency Event Tracking assessment. The team found that an estimated 2,607 households comprised of 13,556 individuals have been displaced in Renk 3 Primary School, Monydeng Primary School and the Eye Clinic Centre as indicated in the below map. Urgent needs identified include water, sanitation, protection, food, shelter and non-food items.

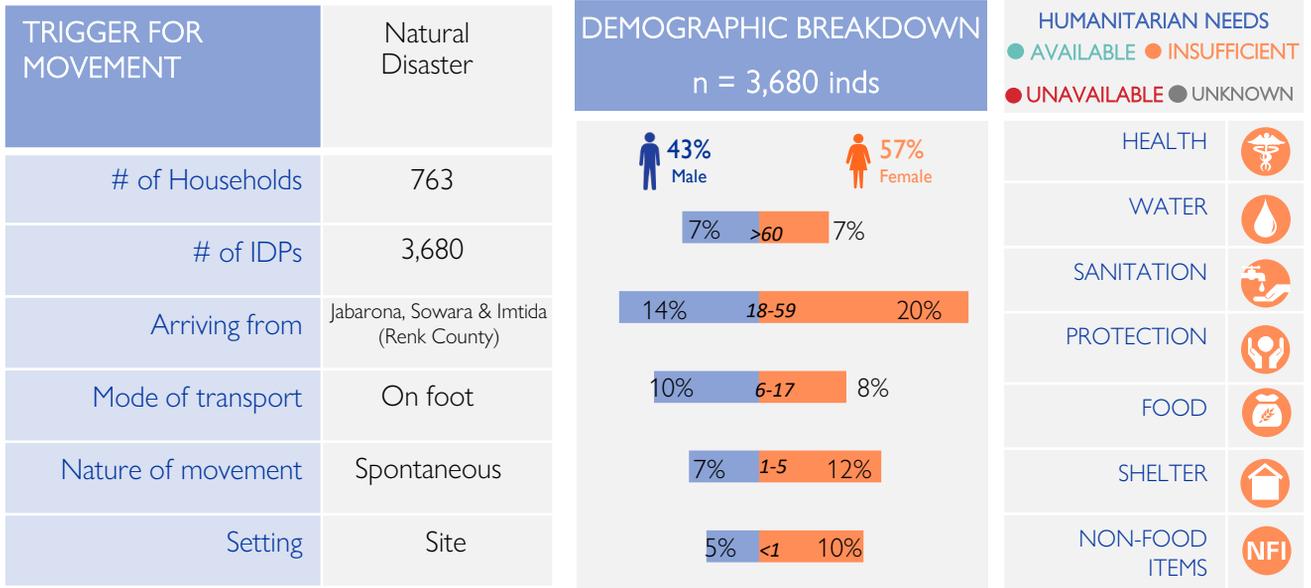

Assessment Date	Location	Trigger for movement	IDPs (Households)	IDPs (individuals)	Setting
11 August 2020	Renk 3 Primary School	Natural Disaster	763	3,680	Site
17 August 2020	Monydeng Primary School	Natural Disaster	1,243	6,231	Site
17 August 2020	Eye Clinic Centre	Natural Disaster	601	3,645	Site

Event Tracking Report

Period Covered: 1 - 17 August 2020

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking reports and maps on displacement.iom.int/south-sudan). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
