IDPs and Returnees were covered by DTM Round 33

IOM manages the Displacement Tracking Matrix (DTM) in Nigeria and other countries around the world, to support humanitarian communities with data on displacement and mobility. This information management product determines the status, locations, and needs of people affected by the ongoing conflict in Northeast Nigeria.

As of 15 August 2020, the DTM has identified 2,118,550 IDPs (436,058 households) across Adamawa, Bauchi, Borno, Gombe, Taraba and Yobe States. This represents an increase of 2 per cent (30,426 persons) over DTM Round 32, while the number of returns from neighbouring regions into situations of secondary displacement increased by less than 1 per cent (9,115 persons) from previous DTM round.

Displaced
2,118,550 Individuals

43% of the IDPs are in camps/camp like settings

57% of the people are in host community settings

78% Women and Children

47% Male
