

## Raja County, Western Bahr El Ghazal

IOM's Displacement Tracking Matrix conducted a remote Event Tracking assessment between 14 and 21 September 2020 in Raja County, Western Bahr El Ghazal State with subsequent follow-up on the ground. DTM gathered information about flood related displacements caused by heavy rains and flooded rivers through interviews with key informants. The floods displaced 9,001 individuals (1,957 households) from low land to high land areas and destroyed crops cultivated in Timsah, Firka and Siri Malagain in the north and east of Raja County. The floods further hindered road access to these locations.

The displaced have currently found refuge with host communities. During the assessment, DTM focal persons on ground noted urgent humanitarian assistance needed by the displaced, notably food, shelter, healthcare and NFIs.

Assessment Date	Location name	Main trigger for movement	IDPs Households	IDPs Inds.	Setting
21 September 2020	Timsah	Natural Disaster (Floods)	749	3,445	Host Community
21 September 2020	Firka	Natural Disaster (Floods)	719	3,307	Host Community
21 September 2020	Siri Malaga	Natural Disaster (Floods)	489	2,249	Host Community

# Event Tracking Report

Raja County, Western Bahr El Ghazal

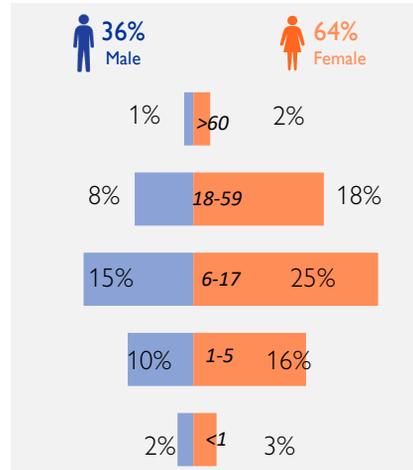

Location: High Land Area, Timsah, Raja County

Data collected on: 21 September 2020

TRIGGER FOR MOVEMENT	Natural Disaster (Floods)
# of IDPs Households	749
# of IDPs Individuals	3,445
Arriving from	Low Land Area, Timsah (Raja County)
Mode of transport	On foot
Nature of movement	Spontaneous
Setting	Host Community

## DEMOGRAPHIC BREAKDOWN

n = 3,445 inds

## HUMANITARIAN NEEDS

● AVAILABLE ● INSUFFICIENT  
● UNAVAILABLE ● UNKNOWN

HEALTH	
WATER	
SANITATION	
PROTECTION	
FOOD	
SHELTER	
NON-FOOD ITEMS

Period Covered: 14 – 21 Sept 2020

IOM DTM employs Event Tracking as a more rapid and localized assessment tool complementing overall efforts to report on IDP and returnee figures nationally (see Mobility Tracking reports and maps on [displacement.iom.int/south-sudan](https://displacement.iom.int/south-sudan)). IOM teams access IDP / returnee locations and consult local key informants including community representatives, local authorities or humanitarian partners and triangulate findings to provide partners with the most accurate as possible, actionable and current data.
