Province:	Sofala
District:	Nhamatanda
Post:	Nhamatanda
Locality:	Vila De Nhamatanda
Site Location:	-19.501 , 34.204

DISPLACEMENT & DEMOGRAPHICS				
IDP Households	164			
IDP Individuals	820			
Majority of IDPs living on this site?	Yes	Age Range	% Male	% Female
Province of Origin:	Sofala	< 1	2%	6%
District of Origin:	Sofala	1 - 5	4%	7%
Post of Origin:	Nhamatanda	6 - 17	22%	17%
Locality of Origin:	Nhamatanda	18 - 59	15%	17%
		60 +	3%	5%
				Male 47%
				Female 53%

SITE CHARACTERISTICS & LAND TENURE				
Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household
Site Management Agency at the site	Yes	Site physically accessible	Limited access (only 4x4 vehicles)	• renting land in place of origin: 49
Status	Open	Inaccessible if disaster	No	• owning land in place of origin: N/a

NEEDS	
First need:	Shelter
Second need:	Healthcare
Third need:	Other

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Mosquito nets	Number of Household living outdoors:	N/a
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living in emergency shelter:	142
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	22

PROTECTION	
Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	12	Elderly without care givers:	0
Breastfeeding mothers:	77	Single female head of household:	53
Mental/Physical disability:	15	Single male headed of household:	29
Chronic diseases:	3	Elderly head of household:	37
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps Small water	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	217		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	N/a
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	2-3 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	No

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Suggestion box Call centre /hotline
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Community leader or group Call centre /hotline
Literacy level of majority of households	Reads and writes moderately

Is medicines available for majority of the population:	Do not know/ no answer	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	56		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Local government office
Top 3 ways humanitarian partners communicates with population:	Radio Staff from humanitarian agencies Local government office
Literacy level of majority of households	Does not read neither write

NEEDS	
First need:	Food
Second need:	Household Items (NFI)
Third need:	Shelter

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,...)	Number of Household living outdoors:	N/a
Top two NFI need not accessible to IDPs:	Cooking stoves	Number of Household living in emergency shelter:	139
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	160

PROTECTION	
Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Other

VULNERABILITIES			
Pregnant women:	28	Elderly without care givers:	0
Breastfeeding mothers:	73	Single female head of household:	2
Mental/Physical disability:	8	Single male headed of household:	1
Chronic diseases:	26	Elderly head of household:	0
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps Open well	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	333		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	16 - 30 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

Mental/Physical disability:	14	Single male headed of household:	16
Chronic diseases:	19	Elderly head of household:	2
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes but not good quality	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Small water system	Is there functional bathing space at site?	Yes
Main problem with water:	Other	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	10 - 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	Between 16 and 30 minite	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	80		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last two weeks

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	75
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	No

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Community volunteer/mobilizers
Top 3 ways humanitarian partners communicates with population:	Community leader or group Community volunteer/mobilizers Local government office
Literacy level of majority of households	Reads and writes moderately

SITE CHARACTERISTICS & LAND TENURE			
Site Management Committee at the site	No	Site safe and secure	Yes
Site Management Agency at the site	Yes	Site physically accessible	Yes
Status	Open	Inaccessible if disaster	Yes
		Number of Household	• renting land in place of origin: N/a
			• owning land in place of origin: N/a

NEEDS	
First need:	Food
Second need:	Water
Third need:	Shelter

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Closed containers to transport and /or st	Number of Household living outdoors:	N/a
Top two NFI need not accessible to IDPs:	Mosquito nets	Number of Household living in emergency shelter:	537
Top three NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living in permanent shelter:	28

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	14	Elderly without care givers:	1
Breastfeeding mothers:	21	Single female head of household:	256
Mental/Physical disability:	16	Single male headed of household:	65
Chronic diseases:	0	Elderly head of household:	52
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Lagoons and waterways	Is there functional bathing space at site?	Yes
Main problem with water:	Long waiting time (queue)	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	Between 16 and 30 minte	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	48		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	No money to purchase items Other
Have people received food from a distribution at site?	No
When was the latest food distribution at this site?	N/a

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	No
If yes, how long does it take the majority of the population to reach their farming land?	N/a
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	No

COMMUNITY ENGAGEMENT

Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	8	Elderly without care givers:	0
Breastfeeding mothers:	38	Single female head of household:	9
Mental/Physical disability:	15	Single male headed of household:	1
Chronic diseases:	12	Elderly head of household:	12
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	N/a	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Other	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	No	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Between 16 and 30 minte	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	42		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Other
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community volunteer/mobilizers Local government office
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Community leader or group Local government office
Literacy level of majority of households	Does not read neither write

SITE CHARACTERISTICS & LAND TENURE				
Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household
Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin: 487
Status	Open	Inaccessible if disaster	No	• owning land in place of origin: N/a

NEEDS	
First need:	Healthcare
Second need:	Shelter
Third need:	Other

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Mosquito nets	Number of Household living outdoors:	N/a
Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter:	104
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	591

PROTECTION	
Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Lack of confidence on the existing services Shame on reporting the situation

VULNERABILITIES			
Pregnant women:	42	Elderly without care givers:	0
Breastfeeding mothers:	80	Single female head of household:	226
Mental/Physical disability:	142	Single male headed of household:	126
Chronic diseases:	108	Elderly head of household:	7
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps Small water	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	120		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	No
When was the latest food distribution at this site?	N/a

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	75
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Call centre /hotline
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Community volunteer/mobilizers Call centre /hotline
Literacy level of majority of households	Reads and writes moderately

Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

## WASH

Main source of drinking water:	Hand pumps Open well	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	0		

## FOOD SECURITY

Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

## EDUCATION

Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

## LIVELIHOOD

Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	<1 hr
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

Site Management Agency at the site	Unknown	Site physically accessible	Yes	• renting land in place of origin: N/a
Status	Open	Inaccessible if disaster	No	• owning land in place of origin: N/a

NEEDS	
First need:	Shelter
Second need:	Food
Third need:	Household Items (NFI)

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Mosquito nets	Number of Household living outdoors:	N/a
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living in emergency shelter:	135
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	135

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Lack of confidence on the existing services Shame on reporting the situation

VULNERABILITIES			
Pregnant women:	10	Elderly without care givers:	0
Breastfeeding mothers:	14	Single female head of household:	202
Mental/Physical disability:	9	Single male headed of household:	3
Chronic diseases:	11	Elderly head of household:	36
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	N/a	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Other	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	142		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	95
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site?	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Local government office
Top 3 ways humanitarian partners communicates with population:	Community leader or group Local government office Radio
Literacy level of majority of households	Does not read neither write
