IOM UN MIGRATION

DTM Nigeria

15 Points of Entry

**924** Total movements (within, incoming and outgoing) observed

OVERVIEW

IOM DTM in collaboration with the World Health Organization (WHO) and the state Ministry of Health have been conducting monitoring of individuals moving into Nigeria's conflict-affected northeastern states of Adamawa and Borno under pillar four (Points of entry) of COVID 19 preparedness and response planning guidelines.

During the period 1 to 30 November 2020, 924 movements were observed at Fifteen Points of Entries in Adamawa and Borno states. Of the total movements recorded, 390 were incoming from Extreme-Nord, 13 from Nord, 2 from Centre in Cameroon and 147 from Diffa in Niger republic. A total of 552 Incoming movements were observed at Ten Points of Entries.

A range of data was collected during the assessment to better inform on migrants' nationalities, gender, reasons for moving, mode of transportation and timeline of movement as shown in Figures 1 to 4 below:

PASSENGERS HEALTH SCREENING

Through interviews with travelers by enumerators at Points of Entry, information was obtained from travelers' points of departures, intended destination, vulnerabilities, temperatures, reasons for moving and mode of transport. Additional questions concerning the COVID-19 pandemic were asked to determine if travelers exhibit any symptoms of coronavirus; if they had come in contact with anyone who exhibiting such symptoms or might have died from it?

Furthermore, the assesment was to check if travelers had taken any medications in the last 24 hours and also to know if they are aware of the authorities to call in case of emergencies. The results are shown in figures 5 to 8.

VULNERABILITIES

13 Breastfeeding

2 Pregnant

2 Seperated child

4 Single Parents

1 Special protection needs

HAVE YOU SOUGHT ANY MEDICAL CARE IN ANY HEALTH FACILITY WITHIN THE LAST 14 DAYS? (FIG. 6)
