

DISPLACEMENT TRACKING MATRIX

EMERGENCY TRACKING

MOSUL OPERATIONS DATA SNAPSHOT: 18 JULY 2017

The Emergency Tracking (ET) system is a crisis-based tool that aims at tracking sudden displacement or return movements triggered by specific crises. The ET figures reported on this portal are not cumulative of the all persons affected by the Mosul crisis thus

far, rather the ET update provides only a snapshot of the current displacement situation for the indicated date. The data and information reported on this page are related solely to the displacement caused by the Mosul operations which started on 17 October 2016. IOM IRAQ

TOTAL NUMBER OF IDPS CURRENTLY DISPLACED

140,970
IDP FAMILIES

845,820*
IDP INDIVIDUALS

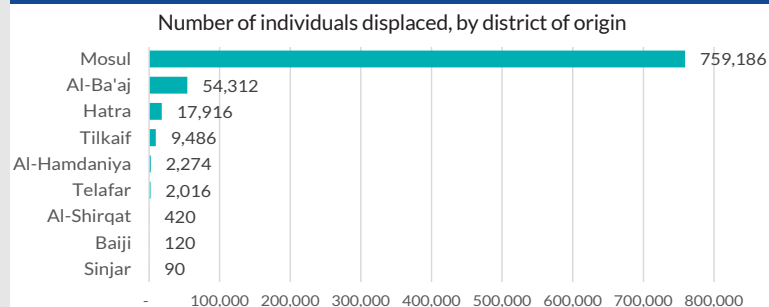

WHERE ARE PEOPLE DISPLACED TO?

Number of IDPs, by governorates of displacement and districts in Ninewa

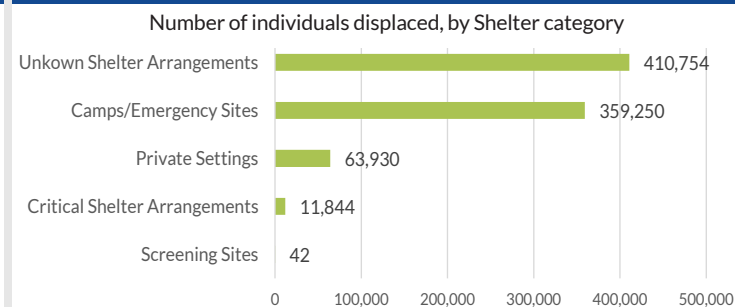

Governorate and District of displacement	IDP individuals	%
Total Ninewa Governorate	806,868	95%
Akre	48	<1%
Al Hamdaniya	129,336	15%
Al-Shikhan	10,932	1%
Hatra	1,440	<1%
Mosul	648,186	77%
Telafar	8,682	1%
Tilkaif	8,244	1%
Anbar Governorate	708	<1%
Babylon Governorate	198	<1%
Baghdad Governorate	16,980	2%
Basrah Governorate	420	<1%
Diyala Governorate	270	<1%
Erbil Governorate	12,918	2%
Missan Governorate	240	<1%
Qadissiya Governorate	18	<1%
Salah al-Din Governorate	6,288	1%
Sulaymaniyah	630	<1%
Thi-Qar Governorate	204	<1%
Wassit Governorate	78	<1%
Total	845,820	100%

All information collected on IDPs and returnees is included in the Emergency Tracking (ET) database once the locations of displacement or return have been identified and validated. The identification of the locations of displacement of the new arrivals requires some time, especially in out-of-camp locations. As some areas are not easily accessible, time is required between an actual population movement and its tracking and reporting.

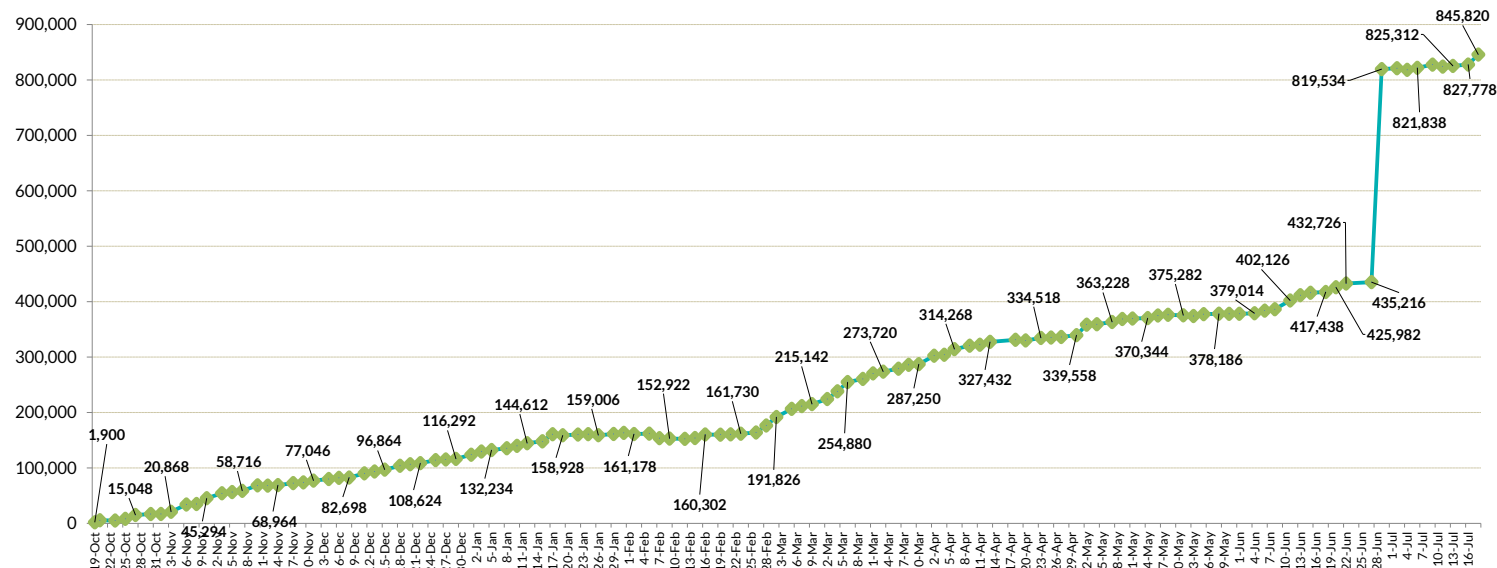

WHERE ARE PEOPLE COMING FROM?

WHERE ARE PEOPLE STAYING?

NUMBER OF DISPLACED INDIVIDUALS IDENTIFIED BY EMERGENCY TRACKING SINCE 17 OCTOBER

As of 17 July:

- The fluctuations recorded across camps in Dibaga sub-district are not due to new arrivals or departures, rather to new updates provided by the camp management;
- Ongoing field visits allowed to identify new IDP families in the city of Mosul. Fluctuations are due to the high fluidity of the situation on the ground.

*Emergency tracking numbers are not cumulative. They reflect a snapshot of displacement on the day of reporting. The number of individuals is calculated by multiplying the number of identified families by six, which is the average size of an Iraqi family.

The IOM Iraq Displacement Tracking Matrix (DTM) is the standard data source being used in Iraq to guide the humanitarian response. Emergency tracking for the Mosul operations began identifying people displaced resulting from military actions that began on 17 October.
