

EMERGENCY EVENT TRACKING

Data collection: 8 December 2020

CONFLICT

The DTM Emergency Event Tracking (EET) is deployed to track sudden displacement and population movements, provide more frequent updates on the scale of displacement and quantify the affected population when needed. As a subcomponent of the new Mobility Tracking methodology in Sudan ([Round one](#)), and activated on a need basis, EET utilises a broad network of key informants to capture best estimates of the affected population presence per location – a useful tool for humanitarian response planning and design.

Event Overview

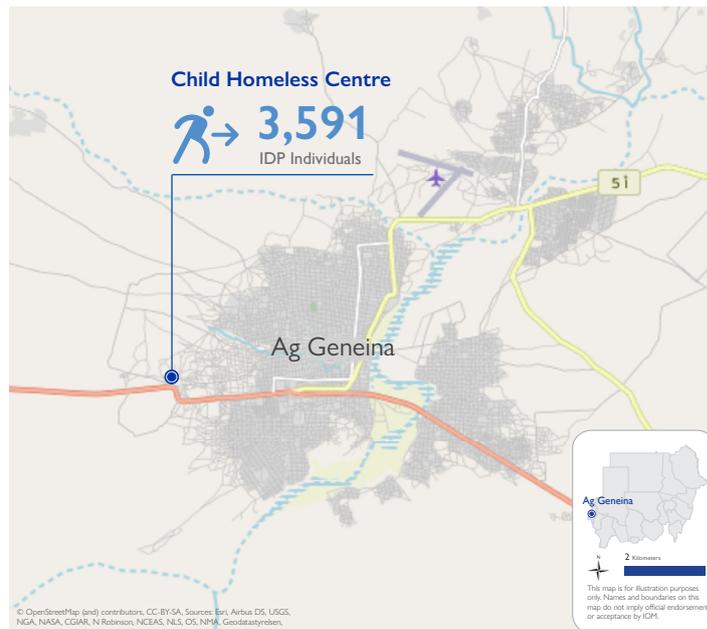

Number of IDPs by Emergency Event Tracking Date

*Out of the 9,722 individuals captured in previous EET rounds, 3,591 have been relocated and 6,131 remain displaced across Ag Geneina locality.

DTM teams activated EET to monitor the displacement of individuals affected by the ongoing violent clashes between Arab and Masalit tribes in Beida and Ag Geneina localities, West Darfur, since 18-20 July 2020. For more information, please see [EET Misterei and Ag Geneina, West Darfur 004](#).

The fifth update revisits Ag Geneina locality and estimates that a total number of 3,591 individuals (857 households) out of the initially displaced 9,722 individuals have now been relocated to a designated centre for homeless children on the outskirts of Ag Geneina town, having previously sought shelter in various schools and other public buildings nearby. Field teams indicate that the distribution of food is urgently required and at least 189 individuals (5%) report additional vulnerabilities in need of assistance and support.

Field teams last visited Ag Geneina on 23 August 2020, during which the [third EET](#) indicated a total of 9,722 individuals displaced. There remain 6,131 individuals displaced across Ag Geneina locality, in addition to the 3,591 captured in this update.

Shelter Indicator

3,591 IDPs **100%**

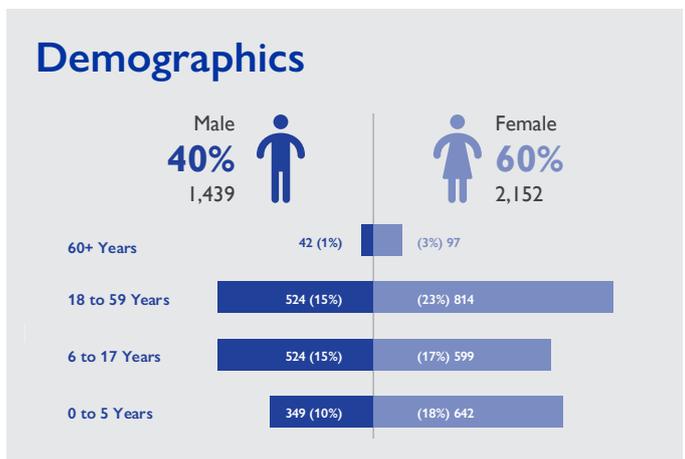

3,591 IDPs (100%) are sheltering in a designated centre for unaccompanied minors in Ag Geneina town, having previously sought shelter in various schools and other public buildings nearby.

Vulnerabilities

- 97** Lactating women
- 78** Pregnant
- 7** Mental illnesses
- 7** Physical disabilities

Return Intention

Data collected indicate unknown return intentions amongst the remaining displaced population, due to evident uncertainty over the current security situation in their locations of origin.

IOM DISCLAIMER

The opinions expressed in the report are those of the authors and do not necessarily reflect the views of the International Organization for Migration (IOM). The designations employed and the presentation of material throughout the report do not imply the expression of any opinion whatsoever on the part of IOM concerning the legal status of any country, territory, city or area, or of its authorities, or concerning its frontiers or boundaries.

IOM is committed to the principle that humane and orderly migration benefits migrants and society. As an intergovernmental organization, IOM acts with its partners in the international community to: assist in the meeting of operational challenges of migration; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.
