

IOM's Displacement Tracking Matrix conducted 1,889 interviews representing 5,252 individual movements into and out of Masna collective centre from July to September 2020. Most of the movements were same day movements (4,727) and out of these, the highest number of respondents were women (54%) moving out of the collective centre to access the market. Meanwhile, most of the individuals traveling temporarily into and out of Masna were doing so to visit friends / family and the highest number of respondents stated that their stay will be for at least two to four weeks. Separately, there were 143 new arrivals and 31 permanent exits and all of them moved to join their families. Out of the new arrivals, 65% were male and 41% intend to spend at least one to seven days at the collective centre. Out of the permanent exits, 60% were females who moved towards their former homes in Jur River and Mundri West.

Methodology:
Displacement Site Monitoring (DSFM) is conducted by interviewing a cross-section of persons passing through the gates. DTM aims at understanding mobility dynamics and reasons underpinning movements in and out of the site and provide partners and policy makers with better understanding of the movement patterns (including same day movement, temporary travel, new entry and permanent exit). Please note that interviews are conducted 7 days a week from 8 am to 5 pm at the sites' main gates. The aim of this exercise is to provide an approximate traveller profile for the given months.

September Population Count

5,111 ind.

2,482 (48%) Male

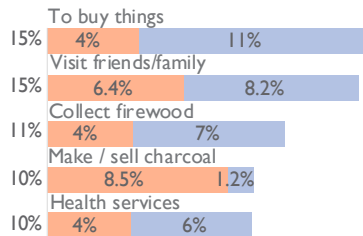

2,629 (51%) Female

Same Day Travel n= 4,727

Main reason for movement in and out of the site: **To buy things**

Top 5 reasons for same day movement

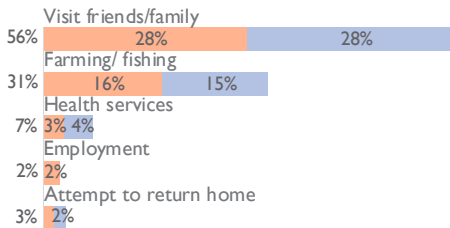

Other reasons: Farming/ fishing (8%), Religious services (8%).

Temporary Travel n= 351

Main reason for movement in and out of the site: **Visit friends/ family**

Top 5 reasons for temporary movement

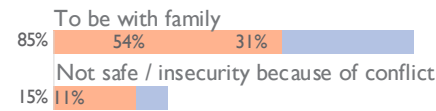

Other reasons: Collect firewood (0.3%), and Access to cash (0.3%).

New Arrivals n= 143

Main reason for movement into the site: **To be with family**

Top reasons for new arrivals

Other reasons: None

Permanent Exits n= 31

Main reason for movement out of the site: **To be with family**

Top reasons for permanent exit

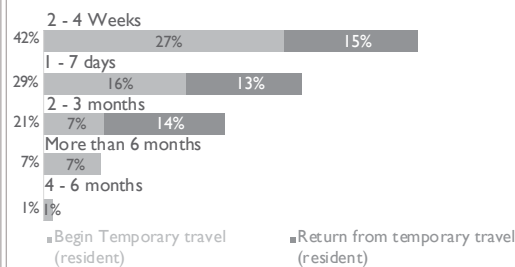

Other reasons: None
