DISPLACEMENT & DEMOGRAPHICS			
IDP Households	164		
IDP Individuals	826		
Age Range	% Male	% Female	
< 1	0%	1%	Male 49%
1 - 5	5%	8%	
6 - 17	16%	20%	
18 - 59	26%	21%	Female 51%
60 +	2%	1%	
Majority of IDPs living on this site?	Yes		
Province of Origin:	Sofala		
District of Origin:	Nhamatanda		
Post of Origin:	Nhamatanda		
Locality of Origin:	Vila De Nhamatanda		

SITE CHARACTERISTICS & LAND TENURE			
Site Management Committee at the site	Yes	Site safe and secure	Yes
Site Management Agency at the site	Yes	Site physically accessible	Yes
Status	Open	Inaccessible if disaster	Yes
		Number of Household	
		• renting land in place of origin:	115
		• owning land in place of origin:	49

NEEDS		SHELTER / NFI	
First need:	Shelter	Top one NFI need not accessible to IDPs:	Shoes and clothes
Second need:	Latrines	Top two NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)
Third need:	Healthcare	Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes
		Number of Household living outdoors:	0
		Number of Household living in emergency shelter:	0
		Number of Household living in permanent shelter:	164

PROTECTION		VULNERABILITIES	
Is there a protection desk on-site?	Yes	Pregnant women:	16
Is there a mechanism for referral for GBV survivors?	Yes	Breastfeeding mothers:	81
Is there a support mechanism for psychosocial needs of the population?	Yes	Mental/Physical disability:	3
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes	Chronic diseases:	14
Main reasons survivors could not find help?	Shame on reporting the situation	Elderly without care givers:	81
		Single female head of household:	0
		Single male headed of household:	3
		Elderly head of household:	0
		Does majority of family members have legal documentation?	No

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Facility is not functioning	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Do not know/ no answer	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None Smell	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	61		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Market is not accessible
Have people received food from a distribution at site?	No
When was the latest food distribution at this site?	N/a

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	0
Walking time to the nearest education facility:	16 - 30 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Religious Leader or group Call centre /hotline Other, please specify:
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Call centre /hotline
Literacy level of majority of households	Reads and writes moderately

Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	No
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	5 - 10 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	260		

FOOD SECURITY

Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION

Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD

Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners:	Radio programme in-calls Staff from humanitarian agencies Local government office
Top 3 ways humanitarian partners communicates with population:	Call centre /hotline Local government office
Literacy level of majority of households	Does not read neither write

Status	Open	Inaccessible if disaster	No	• owning land in place of origin: 299

NEEDS	
First need:	Food
Second need:	Household Items (NFI)
Third need:	Shelter

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in emergency shelter:	64
Top three NFI need not accessible to IDPs:	Other	Number of Household living in permanent shelter:	235

PROTECTION	
Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Other

VULNERABILITIES			
Pregnant women:	65	Elderly without care givers:	74
Breastfeeding mothers:	74	Single female head of household:	7
Mental/Physical disability:	8	Single male headed of household:	12
Chronic diseases:	65	Elderly head of household:	0
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	None	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	No
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	250		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household
Site Management Agency at the site	No	Site physically accessible	Limited access (by foot only)	• renting land in place of origin: 0
Status	Open	Inaccessible if disaster	0	• owning land in place of origin: 461

NEEDS	
First need:	Water
Second need:	Education
Third need:	Shelter

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter:	231
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	230

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Lack of confidence on the existing services Shame on reporting the situation Fear of retaliation from

VULNERABILITIES			
Pregnant women:	20	Elderly without care givers:	40
Breastfeeding mothers:	40	Single female head of household:	2
Mental/Physical disability:	6	Single male headed of household:	6
Chronic diseases:	20	Elderly head of household:	0
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	None	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	No
Main problem with water:	Shortage for human consi	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	More than 60 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	97		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION

Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	0	Elderly without care givers:	30
Breastfeeding mothers:	30	Single female head of household:	6
Mental/Physical disability:	11	Single male headed of household:	19
Chronic diseases:	0	Elderly head of household:	0
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	None	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Small water system	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	10 - 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	0		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	80
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	No
If yes, how long does it take the majority of the population to reach their farming land?	0%
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Community volunteer/mobilizers
Top 3 ways humanitarian partners communicates with population:	Community leader or group Community volunteer/mobilizers Local government office
Literacy level of majority of households	Reads and writes moderately

Site Management Committee at the site	No	Site safe and secure	Yes
Site Management Agency at the site	Yes	Site physically accessible	Yes
Status	Open	Inaccessible if disaster	No
		Number of Household	
		• renting land in place of origin:	0
		• owning land in place of origin:	565

NEEDS	
First need:	Food
Second need:	Shelter
Third need:	Water

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Closed containers to transport and /or st	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Shoes and clothes	Number of Household living in emergency shelter:	537
Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter:	28

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	6	Elderly without care givers:	30
Breastfeeding mothers:	30	Single female head of household:	7
Mental/Physical disability:	16	Single male headed of household:	0
Chronic diseases:	6	Elderly head of household:	0
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	Less than 15 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	None	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes but people cannot afford them/	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps Protected w	Is there functional bathing space at site?	No
Main problem with water:	Flavour/Taste	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	More than 60 minutes	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	142		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Status	Open	Inaccessible if disaster	No	• owning land in place of origin: 132

NEEDS	
First need:	Shelter
Second need:	Healthcare
Third need:	Water

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Closed containers to transport and /or st	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in emergency shelter:	132
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in permanent shelter:	0

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	8	Elderly without care givers:	36
Breastfeeding mothers:	36	Single female head of household:	4
Mental/Physical disability:	15	Single male headed of household:	12
Chronic diseases:	8	Elderly head of household:	0
Does majority of family members have legal documentation?	No		

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Other	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	No	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	No
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Between 16 and 30 minte	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	481		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Other
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Is there a mechanism for referral for GBV survivors?	Yes
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Other

VULNERABILITIES			
Pregnant women:	20	Elderly without care givers:	23
Breastfeeding mothers:	23	Single female head of household:	5
Mental/Physical disability:	8	Single male headed of household:	6
Chronic diseases:	20	Elderly head of household:	0
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	0	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	More than 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	None	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	0

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	No
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	217		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	<1 hr
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Local government office Staff from humanitarian agencies Community leader or group
Top 3 ways humanitarian partners communicates with population:	Community leader or group Local government office
Literacy level of majority of households	Does not read neither write

		• renting land in place of origin:	0
		• owning land in place of origin:	270

NEEDS		SHELTER / NFI	
First need:	Shelter	Top one NFI need not accessible to IDPs:	Mosquito nets
Second need:	Food	Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)
Third need:	Household Items (NFI)	Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes
		Number of Household living outdoors:	0
		Number of Household living in emergency shelter:	81
		Number of Household living in permanent shelter:	189

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a support mechanism for psychosocial needs of the population?	Yes
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Lack of existing services Lack of confidence on the existing services Shame on reporting the

VULNERABILITIES	
Pregnant women:	10
Breastfeeding mothers:	14
Mental/Physical disability:	9
Chronic diseases:	10
Elderly without care givers:	14
Single female head of household:	8
Single male headed of household:	11
Elderly head of household:	0
Does majority of family members have legal documentation?	Yes

HEALTH	
Availability of healthcare services on site:	No
Number of functioning healthcare facilities:	0
Time to reach the nearest health facility:	16 - 30 minutes
Why people don't have access to healthcare?	Other
Is medicines available for majority of the population:	Yes, of good quality and people can afford them
During their pregnancy, are most women seeing a health professional?	Yes
Do populations with HIV know where to go to seek treatment and care?	Yes
Do people know where to go to seek Tuberculosis treatment and care?	Yes
Has cholera been reported at this site since the cyclone?	No
How many weeks ago was the last case reported?	0

WASH	
Main source of drinking water:	Hand pumps
Main problem with water:	None
Average daily water consumption per person:	5 - 10 ltr
Average wait time for water:	Less than 15 minutes
Number of functional latrines at site:	152
Is there functional bathing space at site?	No
Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
How clean you think the site is in terms of waste?	2. Clean
Do people live in areas where open defecation is frequently visible?	No

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last two weeks

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Local government office
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Local government office
Literacy level of majority of households	Does not read neither write
