81 Head of households interviewed

Accounting for

400 Family members
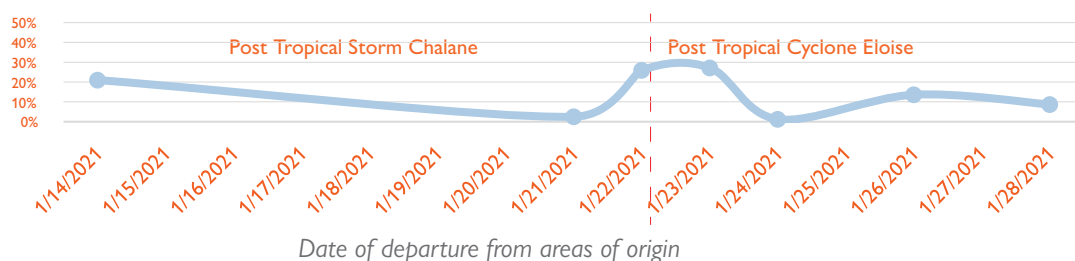

1 Accommodation Centre

On 13 February 2021, in close coordination with the Mozambique's National Institute for Disaster Management and Risk Reduction (INGD), International Organization for Migration (IOM) DTM, and the CCCM Cluster together with the Local HCT and the district authority conducted an intention survey, at household level, in accommodation centres located in Beira district of Sofala province. A total of 81 heads of households (accounting for 400 family members) were interviewed during this exercise to understand their intentions and concerns.

The findings from the 81 households were used as a basis to generalise to a population of approximately 926 individuals staying in the accommodation centre in Nhamatanda. The margin of error on reported findings is 9.6 percentage points with a 95 per cent level of confidence.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the International Organization for Migration.
DATE OF DEPARTURE FROM AREAS OF ORIGIN

The majority of families (77%) in the accommodation centres left their area of origin post Tropical Cyclone Eloise and the remaining 23 per cent departed post Tropical Storm Chalane.

Date of departure from areas of origin
RESIDENCE PRIOR TO DISPLACEMENT

Ninety-one per cent of all IDP households had been living in their own house prior to evacuation, while five per cent had been living in rented houses and four per cent had been residing with family members or friends

House (purchased/built) **91%**

House (rented) **5%**

Vith friends/family **4%**

Type of house in which families lived prior to displacement.

DEMOGRAPHIC PROFILES OF HOUSEHOLDS INTERVIEWED

The majority (51%) of families interviewed are composed of children, while 25 per cent are women and 24 per cent are men. Among the surveyed households, 29 elderly people (7% of the total number of family members surveyed) were identified.

Demography — 25% women, 24% men, Girls 26%, Boys 25%, 51% children

Children (0 - 17 yrs) **51%**

Adults (18 - 59 yrs) **42%**

Elderly (60+ yrs) **7%**

Percentage of population by sex and age group
Percentage of population by age group

HOUSING STATUS OF RESPONDANTS

The majority of the households had their houses completely destroyed or severely damaged (81%), while nine per cent have houses that are partially damaged, seven per cent still have their house flooded and two per cent of the houses had been looted.
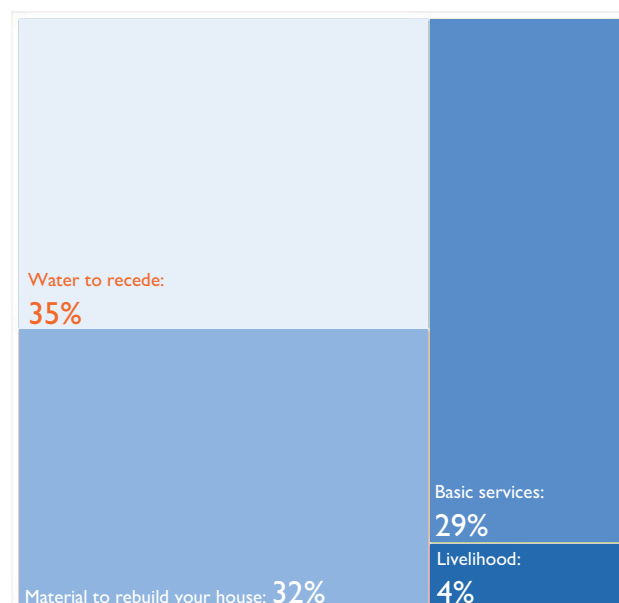

House completely destroyed/ severely damaged **81%**

House partially damaged **9%**

House is still flooded **7%**

House had been looted **2%**

Current state of house in which families had lived prior to displacement

RETURN INTENTION

Stay for now **44%**

Another place **38%**

Place of origin **12%**
I don't know **5%**

Forty-four per cent of households indicated their intention to remain for the time being. While another 38 per cent would like to relocate to another place, 12 per cent said they wanted to return to their place of origin and five per cent had not decided yet, pending information and support.
Water to recede: **35%**

Basic services: **29%**

Livelihood: **4%**

Material to rebuild your house: **32%**

Assistance/conditions needed to return to place of origin
