

DISPLACEMENT TRACKING MATRIX

EMERGENCY TRACKING

MOSUL OPERATIONS DATA SNAPSHOT: 08 AUG 2017

The Emergency Tracking (ET) system is a crisis-based tool that aims at tracking sudden displacement or return movements triggered by specific crises. The ET figures reported on this portal are not cumulative of the all persons affected by the Mosul crisis thus

far, rather the ET update provides only a snapshot of the current displacement situation for the indicated date. The data and information reported on this page are related solely to the displacement caused by the Mosul operations which started on 17 October 2016. IOM IRAQ

TOTAL NUMBER OF IDPS CURRENTLY DISPLACED

139,913
IDP FAMILIES

839,478*
IDP INDIVIDUALS

WHERE ARE PEOPLE DISPLACED TO?

Number of IDPs, by governorates of displacement and districts in Ninewa

Governorate and District of displacement	IDP individuals	%
Total Ninewa Governorate	800,832	95%
Akre	36	<1%
Al Hamdaniya	126,600	15%
Al-Shikhan	10,698	1%
Hatra	1,440	<1%
Mosul	643,038	77%
Telafar	8,682	1%
Tilkaif	10,338	1%
Anbar Governorate	480	<1%
Babylon Governorate	198	<1%
Baghdad Governorate	15,108	2%
Basrah Governorate	426	<1%
Diyala Governorate	270	<1%
Erbil Governorate	14,376	2%
Missan Governorate	240	<1%
Qadissiya Governorate	18	<1%
Salah al-Din Governorate	6,618	1%
Sulaymaniyah	630	<1%
Thi-Qar Governorate	204	<1%
Wassit Governorate	78	<1%
Total	839,478	100%

WHERE ARE PEOPLE COMING FROM?

WHERE ARE PEOPLE STAYING?

NUMBER OF DISPLACED INDIVIDUALS IDENTIFIED BY EMERGENCY TRACKING SINCE 17 OCTOBER

As of 07 August:

- Khazer M1 camp recorded an overall decrease of approximately 127 IDP families due to return movements;
- Ongoing field visits allowed to identify IDP families in the South of Mosul city.

All information collected on IDPs and returnees is included in the Emergency Tracking (ET) database once the locations of displacement or return have been identified and validated. The identification of the locations of displacement of the new arrivals requires some time, especially in out-of-camp locations. As some areas are not easily accessible, time is required between an actual population movement and its tracking and reporting.

*Emergency tracking numbers are not cumulative. They reflect a snapshot of displacement on the day of reporting. The number of individuals is calculated by multiplying the number of identified families by six, which is the average size of an Iraqi family.

The IOM Iraq Displacement Tracking Matrix (DTM) is the standard data source being used in Iraq to guide the humanitarian response. Emergency tracking for the Mosul operations began identifying people displaced resulting from military actions that began on 17 October.
