

Affected Population:
70 Individuals

Damaged Shelters:
None

Casualties:
3

Movement Trigger:
Armed attacks

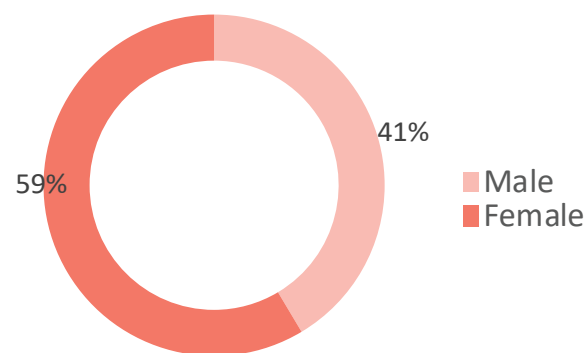

OVERVIEW

Nigeria's North Central and North West Zones are afflicted with a multidimensional crisis that is rooted in long-standing tensions between ethnic and religious groups and involves attacks by criminal groups and banditry/hirabah (such as kidnapping and grand larceny along major highways). The crisis has accelerated during the past years because of the intensification of attacks and has resulted in widespread displacement across the region.

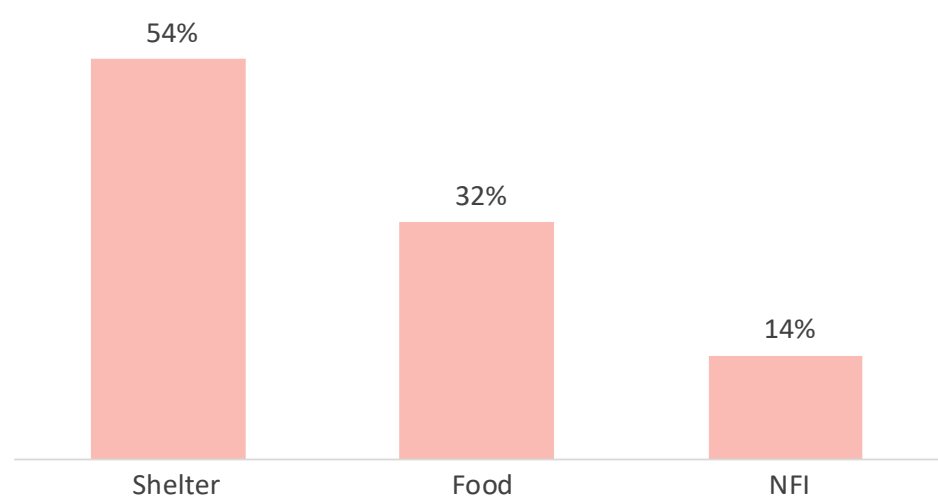

Between 10 and 16 May 2021, armed clashes between herdsman and farmers, and bandits and local communities have led to new waves of population displacement. Following these events, rapid assessments were conducted by DTM (Displacement Tracking Matrix) field staff with the purpose of informing the humanitarian community and government partners, and enable targeted response. Flash reports utilise direct observation and a broad network of key informants to gather representative data and collect information on the number, profile and immediate needs of affected populations.

The Latest attacks affected 70 individuals including 3 injuries in Katsina-ala and Logo LGAs of Benue State. The attacks caused people to flee to neighbouring localities.
