

## OVERVIEW

IOM Pakistan collects data on the outflows of **undocumented Afghan migrants** at the Torkham and Chaman border crossing points in an effort to better understand the migration movements of undocumented Afghan migrants returning to Afghanistan from Pakistan. This exercise is part of the **European Union** funded project “Displacement Tracking Matrix Regional Evidence for Migration Analysis and Policy (DTM REMAP)”.

From 25 April to 8 May 2021, **475** undocumented Afghan migrants returned to Afghanistan, including **124** through the Torkham border point and **351** through the Chaman border point. During the reporting period, border authorities facilitated the return of **57** individuals due to the lack of legal documentation to remain in Pakistan. Therefore, information concerning these 57 individuals is not included in the report analysis.\*

\*The Torkham border point has been partially closed since 1 November 2020. The figures represented on the timeline from November 2020 to May 2021 include a data compilation effort between IOM Pakistan and IOM Afghanistan.

## HIGHLIGHTS

- During the reporting period, 14% of returnees were categorized as vulnerable persons, mainly elderly and chronically ill.
- In Pakistan, the primary occupations reported by returnees were: unskilled labor (66%), skilled labor (32%) and business (3%).
- The returnees were carrying household items (98%), cash (98%), personal belongings (96%), productive assets (76%) and transportation or private vehicles (2%).
- The average cost of travelling from Pakistan to Afghanistan reported was 8,955 PKR per family.
- The top 3 challenges returnees expected to face in Afghanistan were: arranging for livelihoods (27%), settling into a new city (27%) and finding income opportunities (27%).

## 4,762 UNDOCUMENTED AFGHAN RETURNEES AT TORKHAM AND CHAMAN SINCE JANUARY 2021
