Individuals:
1,494

Movement Type:
Spontaneous

Movement Trigger:
Fear of Attack

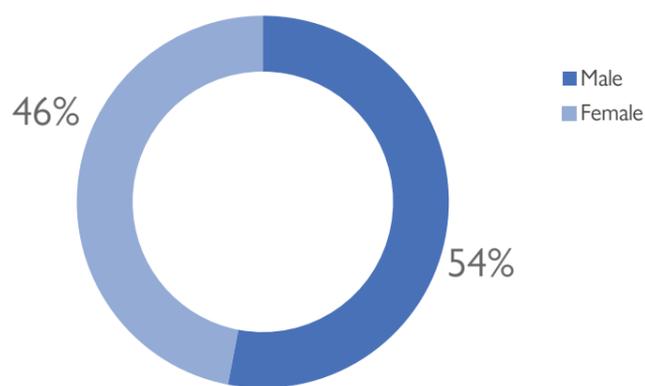

OVERVIEW

The lingering conflict in Nigeria's North East Zone has been the major cause of widespread population displacement. Over 2 million persons have been forced to leave their areas of residence in search of safety and security in neighbouring wards and LGAs.

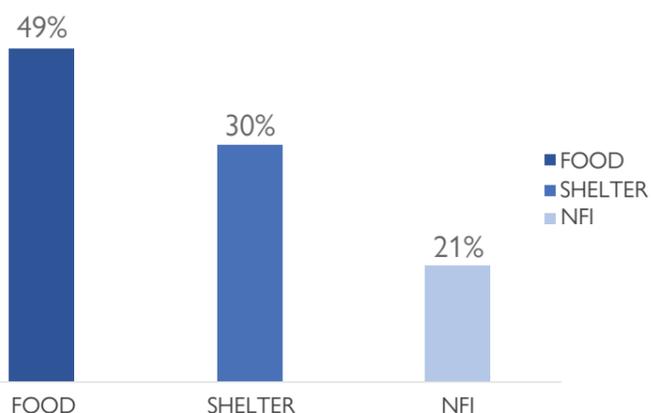

Since the beginning of March, repeated attacks by Non-State Armed Groups (NSAG) have been reported in Dikwa LGA. Following these attacks, numerous displacements have occurred and continue to occur until today. Flow monitoring assessments have been conducted by IOM DTM field staff with the purpose of informing the humanitarian community and government partners about forced population movements, and enabling targeted response. DTM enumerators were deployed in the transit point Dikwa Motor Park in the ward Dusuman in Jere LGA. IDPs passing through the transit point were asked about their intended destinations and most needed assistance. Since the beginning of May, it was noted that numerous households have started to return to their locations of origin. These return movements were also captured at Dikwa Motor Park in the ward Dusuman and are presented on the map and graphic below.

As a result of the attacks, between 22 and 28 May 2021, a total of 1,494 individuals were displaced from Dikwa LGA towards the LGAs Jere and Maiduguri Metropolitan Council. They arrived at Dikwa Motor Park from various camps and communities in Dikwa LGA. As presented on the map below, their intended destinations were locations in the LGAs Jere and Maiduguri Metropolitan Council in Borno State. Since the first attack in Dikwa on 1 March 2021, a total of 17,254 IDPs have been recorded by DTM in Dikwa Motor Park. They were displaced from Dikwa LGA and en route to destinations in the LGAs Jere and Maiduguri Metropolitan Council in Borno State. Additionally, since 1 May 2021, a total of 4,569 returnees have been recorded by DTM in the same transit point. They are returning from locations in the LGA Maiduguri Metropolitan Council towards Dikwa LGA.

SECTORIAL INFORMATION ON LOCATION OF ORIGIN - DIKWA

In the past week, Care International distributed food in camps and host communities.

As part of IOM's CCCM coverage in Dikwa LGA, the livelihood unit distributed briquettes and fuel efficiency stoves (locally handmade stove and charcoal) in five camps (Agric, Fulatari, Masarmari, Sangaya and Klagaru Camps).

The camps Sehuri Mudu Kasa, Masarmari, 1000, Mohammed Kyari, Ajari, Fulatari, Ministry of Works, Sangaya, Klagaru, Alhaji Bashir and Motor Park are identified as camps that are currently facing considerable shelter challenges. It has been observed that some shelters are completely destroyed by windstorms, others are damaged because of termites and worn-out tarpaulins.

The clinic in Shehu Msata II Camp has now opened and has started to support IDPs in the past weeks. However, the facilities and medicine in the clinic do not suffice to meet the needs of the IDPs.

IOM WASH volunteers continued COVID-19 sensitization and hygiene promotion in various camps. IOM WASH evacuated the waste disposal pits in Fulatari Camp. Meanwhile, construction of new toilets in Klagaru and Fulatari Camps are on-going. In the past week, the hygiene promotion included a cholera prevention campaign in case an outbreak should occur. On a weekly basis, the environmental and sanitation situation is assessed by the IOM WASH volunteers. DRC rehabilitated latrines and showers in Sangaya Camp in the past week.

SAFETY AND SECURITY

There were no security issues reported this week, the LGA has since been calm.

SUPPORTING PARTNERS CURRENTLY PRESENT IN DIKWA

Care International

WASH

SI, IOM, NRC, Mercy Corps

FOOD

Care International

HEALTH
ICRC, UNICEF, Local Clinic

PROTECTION

GISCOR, DRC, INTERSOS

CCCM

IOM, ACTED
