

Households:
274

Individuals:
1,390

Movement Type:
Spontaneous

Movement Trigger:
Fear of Attack

OVERVIEW

The lingering conflict in Nigeria's North East Zone has been the major cause of widespread population displacement. Over 2 million persons have been forced to leave their areas of residence in search of safety and security in neighbouring wards and LGAs.

Since the beginning of March, repeated attacks by Non-State Armed Groups (NSAG) have been reported in Dikwa LGA. Following these attacks, numerous displacements have occurred and continue to occur until today. Flow monitoring assessments have been conducted by IOM DTM field staff with the purpose of informing the humanitarian community and government partners about forced population movements, and enabling targeted response. DTM enumerators were deployed in the transit point Dikwa Motor Park in the ward Dusuman in Jere LGA. IDPs passing through the transit point were asked about their intended destinations and most needed assistance. Since the beginning of May, it was noted that numerous households have started to return to their locations of origin. These return movements were also captured at Dikwa Motor Park in the ward Dusuman and are presented on the map and graphic below.

As a result of the attacks, between 29 May and 4 June 2021, a total of 1,390 individuals were displaced from Dikwa LGA towards the LGAs Jere and Maiduguri Metropolitan Council. They arrived at Dikwa Motor Park from various camps and communities in Dikwa LGA. As presented on the map below, their intended destinations were locations in the LGAs Jere and Maiduguri Metropolitan Council in Borno State. Since the first attack in Dikwa on 1 March 2021, a total of 18,644 IDPs have been recorded by DTM in Dikwa Motor Park. They were displaced from Dikwa LGA and en route to destinations in the LGAs Jere and Maiduguri Metropolitan Council in Borno State. Additionally, since 1 May 2021, a total of 5,893 returnees have been recorded by DTM in the same transit point. They are returning from locations in the LGA Maiduguri Metropolitan Council towards Dikwa LGA.

SECTORIAL INFORMATION ON LOCATION OF ORIGIN - DIKWA

FOOD

In the past week, Care International verified and resolved households with SCOPE issues. Care International has adopted the “no SCOPE card, no food distribution” policy.

NFI

IOM's CCCM carried out sensitization on the recently distributed briquettes and fuel efficiency stoves (locally handmade stove and charcoal) in five camps (Agric, Fulatari, Masarmari, Sangaya and Klagaru Camps). ACTED also distributed torch light-radios to the Site Management Committees (SMCs) in the camps they are managing.

SHELTER

The camps Sehuri Mudu Kasa, Masarmari, 1000, Mohammed Kyari, Ajari, Fulatari, Ministry of Works, Sangaya, Klagaru, Alhaji Bashir and Motor Park are identified as camps that are currently facing considerable shelter challenges. It has been observed that some shelters are completely destroyed by wind-storms, others are damaged because of termites and worn-out tarpaulins. There is still need for shelter support in camps in Dikwa LGA.

HEALTH

The clinic in Shehu Msata II Camp has now opened and has started to support IDPs in the past weeks. However, the facilities and medicine in the clinic do not suffice to meet the needs of the IDPs in terms of services and medicinal supplies.

WASH

IOM WASH volunteers continued COVID-19 sensitization and hygiene promotion in various camps. In the past week, the hygiene promotion included a cholera prevention campaign in case an outbreak should occur. On a weekly basis, the environmental and sanitation situation is assessed by the IOM WASH volunteers.

SAFETY AND SECURITY

There was an attack by a NSAG on local securities escorting the locals to bushes to fetch firewood in the past week, Two of the local securities lost their lives and three others sustained injuries, they have since been taken to Maiduguri for medical treatment.

SUPPORTING PARTNERS CURRENTLY PRESENT IN DIKWA
