

### OVERVIEW

In June 2021, a total of **20,053** movements were observed across Ethiopia's five flow monitoring points (FMPs). This represents a **1% increase** in daily average movement in comparison with May 2021 when an average of 664 movements per day were observed. It should be noted that data collection at Humera Flow Monitoring Point in Tigray region is not taking place due to security and access constraints, thus affecting the total number of movements for the month.

Following the steady increase in movements this month, outgoing movements during June have continued to be higher than ever (76.5%) than incoming movements (23.5%). The percentage of outgoing versus incoming movements have continued to climb above the proportions observed before the first COVID-19 case was confirmed in Ethiopia. A total of **15,336** outgoing movements were observed of which 7,234 (47.2%) were heading towards the Kingdom of Saudi Arabia, 2,231 (14.5%) were travelling towards Kenya, 2,047 (13.3%) were going to Djibouti, 772 (5.0%) to South Africa, 536 (3.5%) to United Arab Emirates, 441 (2.9%) intended to reach Somalia and 409 (2.7%) headed to Sudan.

At the same time **4,717** incoming movements were observed, of which 2,429 (51.5%) had originated from Sudan, while 949 (20.1%) and 664 (14.1%) movements came from Djibouti and Kenya respectively. Almost all of these were Ethiopian nationals who were likely returning home. The number of incoming movements into Ethiopia from Sudan has kept increasing since the outbreak of the Northern Ethiopia Crisis from 2,022 inflows movements in December 2020, to 2,429 inflow movements in June 2021.

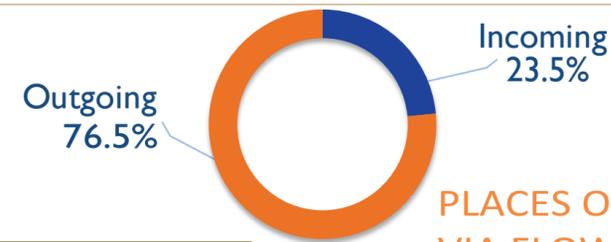

### DEMOGRAPHICS

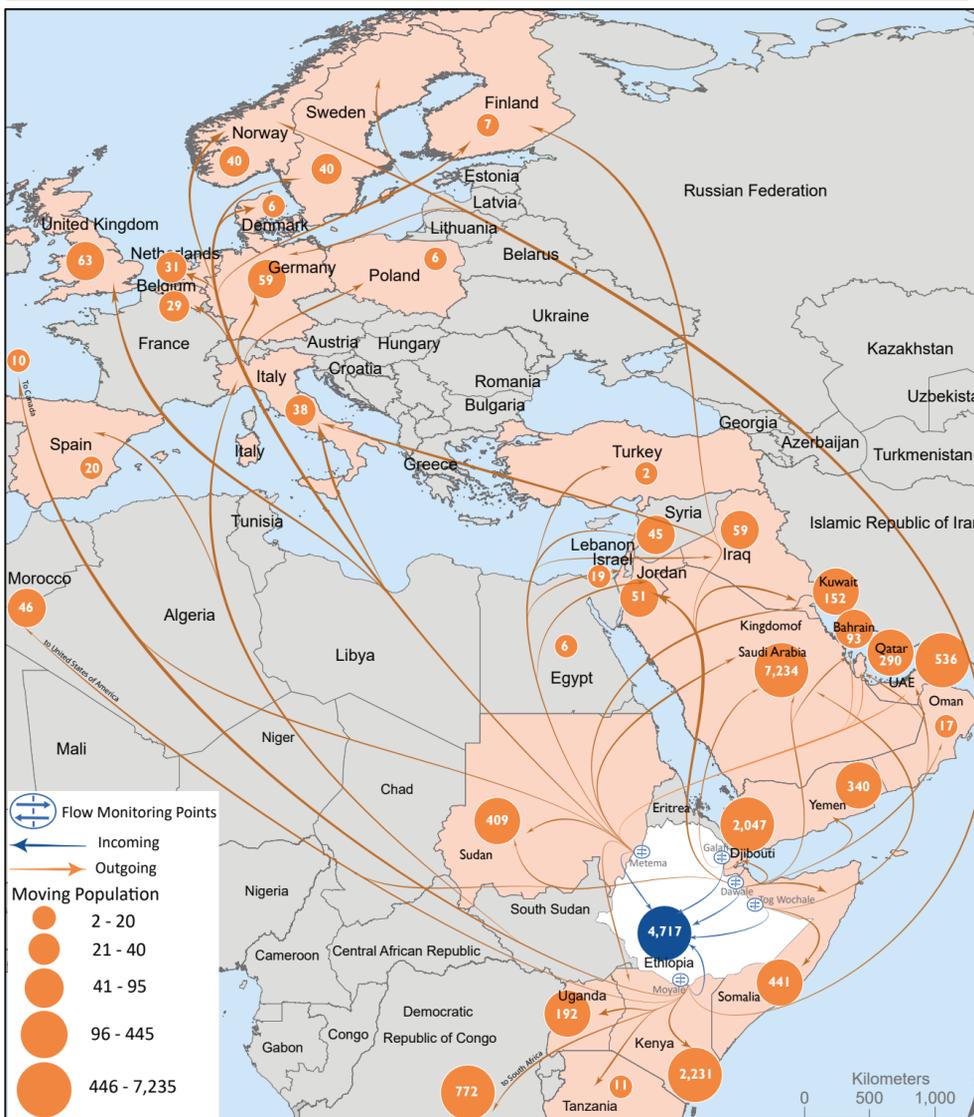

### VULNERABILITY PROFILE

2.3%	Male Unaccompanied Children
1.9%	Children Under 5 years
1.1%	Lactating Mothers
0.9%	Female Unaccompanied Children
0.4%	Pregnant Females
0.2%	Persons with disability
0.1%	Elderly in need of care (60+)

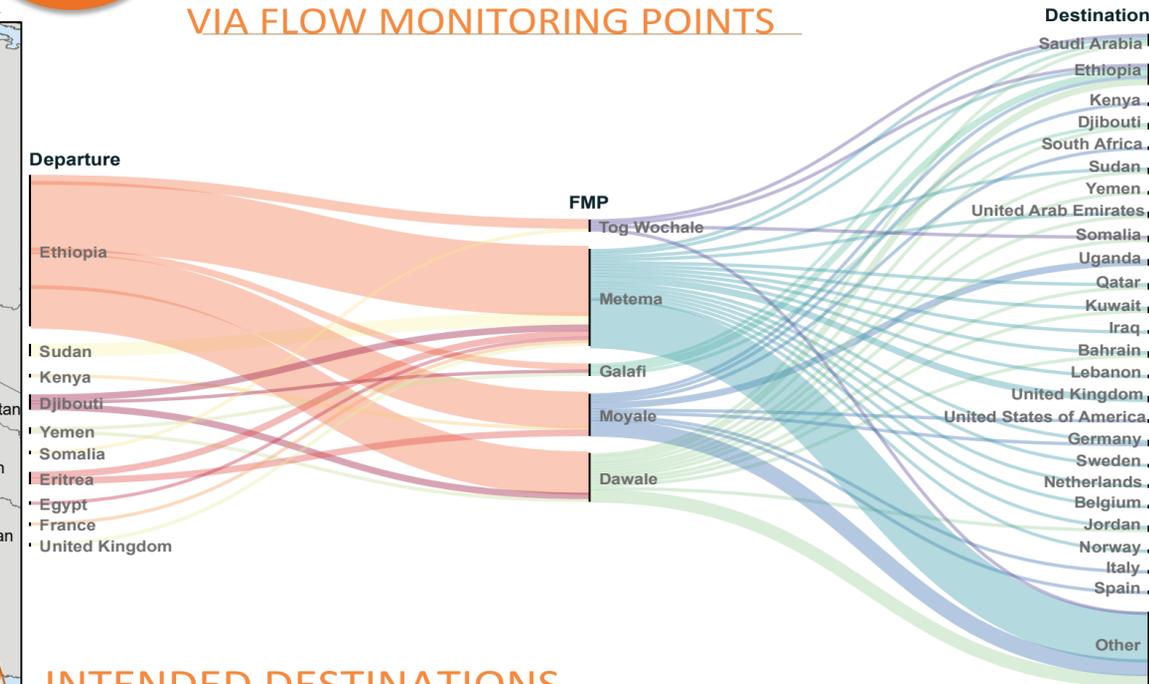

### KEY FIGURES

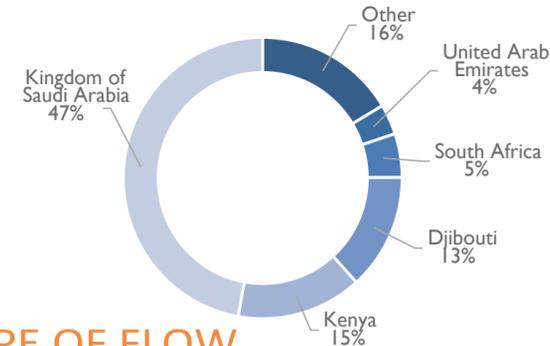

### MOVEMENT ILLUSTRATION

### PLACES OF ORIGIN AND INTENDED DESTINATIONS VIA FLOW MONITORING POINTS

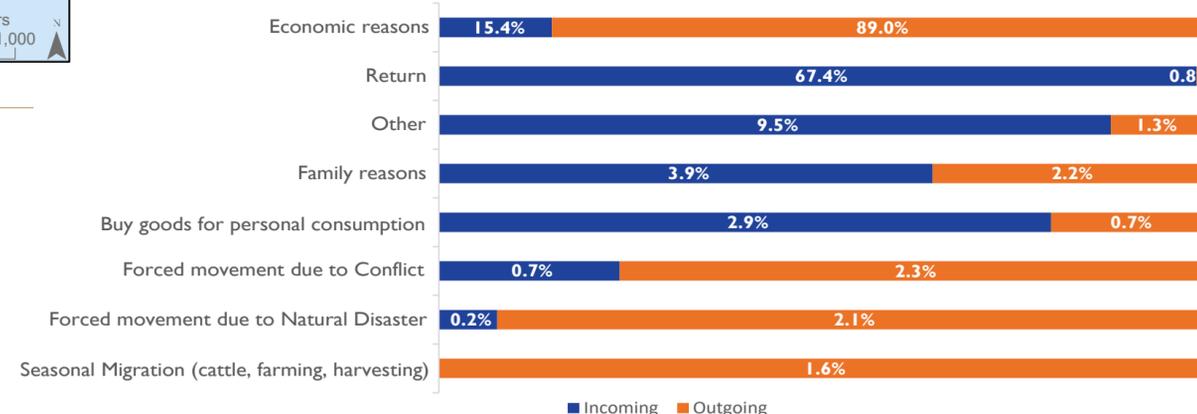

### INTENDED DESTINATIONS

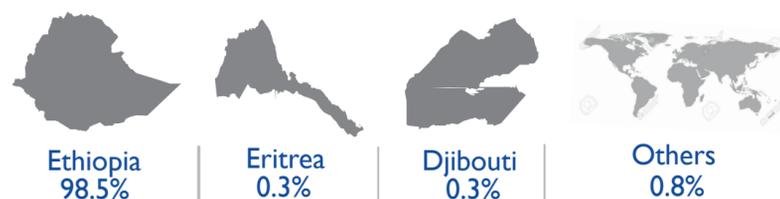

\*\*Please note that figures from Yemen and the Kingdom of Saudi Arabia should be interpreted jointly as movement to KSA often passes through Yemen.

### TYPE OF FLOW

### NATIONALITIES OF PEOPLE ON THE MOVE

\*Data collected at Humera Flow Monitoring Point in Tigray region could not be included due to security and access constraints.
