

EMERGENCY EVENT TRACKING

Data collection: 15 August 2021

CONFLICT

The DTM Emergency Event Tracking (EET) is deployed to track sudden displacement and population movements, provide more frequent updates on the scale of displacement, and quantify the affected population when needed. As a subcomponent of the new Mobility Tracking methodology in Sudan ([Round Two](#)), and activated on a need basis, EET utilises a broad network of key informants to capture best estimates of the affected population presence per location – a useful tool for humanitarian response planning and design.

## Event Overview

DTM teams activated EET to monitor the displacement of individuals affected by inter-communal violence between Arab Nomads and the Zagawah tribe in Tawila locality, North Darfur between 31 July 2021 and 1 August 2021 over the issue of land ownership. For more information, please see [EET Tawila, North Darfur \(Update 001\)](#).

The second EET update estimates a total number of 10,348 individuals (2,136 households) currently seeking shelter in Dali IDP Camp (60%) in Tawila, North Darfur as well as Shagra C (31%) and Shagra B (9%) in Al Fasher; North Darfur. The IDP caseload was originally displaced from Galab (60%), Um Jegenin (9%), Katool (2%), and Kolgi (1%) in Tawila, North Darfur and Kowaim (7%), Hilat Batnoo (6%), Gangona (4%), Um Hashab (4%), Dargi (3%), Haskanita (3%) and Shag Alnil (1%) in Al Fasher, North Darfur. DTM Sudan has received reports that the IDP caseload has been displaced more widely and will be expanding its operations across the locality to provide greater estimates in future updates.

Field teams indicate that there are three reported deaths and five individuals are reported to be injured. Field teams also indicate that 32 individuals report lost goods, cattle, and/or livestock. All affected individuals are Sudanese nationals. DTM teams identified at least 1,374 cases of additional vulnerabilities in need of assistance and support. Based on a ranking scale, the three priority needs across the caseload are Emergency Shelter, Non-Food Items, and Nutrition.

## Shelter Indicator

## Vulnerabilities

### IOM DISCLAIMER

The opinions expressed in the report are those of the authors and do not necessarily reflect the views of the International Organization for Migration (IOM). The designations employed and the presentation of material throughout the report do not imply the expression of any opinion whatsoever on the part of IOM concerning the legal status of any country, territory, city or area, or of its authorities, or concerning its frontiers or boundaries.

IOM is committed to the principle that humane and orderly migration benefits migrants and society. As an intergovernmental organization, IOM acts with its partners in the international community to: assist in the meeting of operational challenges of migration; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.

### Return Intention

Data collected through the return intention indicator suggests that all IDPs (100%) intend to return to their location of origin upon improvement of the security situation.
