

During the reporting period (29 September to 05 October 2021), a total of 90 movements were recorded - 65 arrivals (1,912 individuals), 21 departures (165 individuals), and 4 transits (169 individuals). The largest arrivals were recorded in Metuge (793 individuals), Nangade (701 individuals), and Cidade de Pemba (171 individuals). The largest departures were recorded in Montepuez (303 individuals) and Ibo (303 individuals). More than half of the population (63%) were displaced for the first time. An estimated 37 per cent of observed movements had been displaced prior to this latest movement.

## LARGEST MOVEMENTS RECORDED DURING THE REPORTING PERIOD

## KEY FIGURES

2,748

PEOPLE ON THE MOVE DURING THE REPORTING PERIOD

257

OF THE TOTAL IDPs INTEND TO RETURN TO THEIR PLACE OF ORIGIN

48%

OF THE IDPs REPORTED ARE CHILDREN

60%

OF THE REPORTED IDPs ARE LIVING WITH THE HOST COMMUNITY

81

ELDERLY WERE REPORTED, REPRESENTING THE LARGEST VULNERABLE GROUP

## DEMOGRAPHICS

**WHERE ARE IDPs LIVING**

**SAFETY OF ROADS**

**MOVEMENT INTENTIONS**

## ABOUT THE EMERGENCY TRACKING TOOL (ETT)

Due to the volume and fluidity of population movements in Cabo Delgado and Nampula, IOM's Displacement Tracking Matrix (DTM) rolled out its Emergency Tracking Tool (ETT) methodology in key areas presenting rapid and important movements of populations, in order to ensure the tracking of population on the move and to identify areas of displacement and settlements, and support the identification of critical needs. Mapping displacement trends on a weekly basis complements the information obtained through other activities of the DTM data collection in the country.

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Findings from the Emergency Tracking tool aim to provide support to the Government and the humanitarian community by disseminating data on IDPs for effective humanitarian response planning amongst affected populations.

Emergency tracking teams and enumerators are deployed to Ancuabe, Namuno, Balama, Chiure, Ibo, Mueda, Nangade, Montepuez, Meluco, Mecufi, and Cidade de Pemba districts to collect data on displacement movements on a daily basis. Due to recent attacks, the DTM team has temporarily stopped assessments in Macomia, Muidumbe, Palma and Mocimboa da Praia districts.
