<sup>&</sup>lt;sup>4</sup> The difference in figures between the current and previous SitRep is due the fact that the data reflects the date of entry into Haiti and not the date of the data entry into the database. The unusually low figures reported in this week's SitRep are due to two consecutive holidays (November 1<sup>st</sup> & November 2<sup>nd</sup>) falling during this week of reporting.

<sup>&</sup>lt;sup>5</sup> The total weekly figures are comprised of all spontaneous returns and all deportations – including the officially deported individuals who did not agree to be registered but were still counted.

<sup>&</sup>lt;sup>6</sup> The figures represented in this table correspond to the individuals who voluntarily accepted to be registered between the period from Thursday 27<sup>th</sup> to Wednesday 2<sup>nd</sup> of November 2016.
