52%
Female

5%
Elderly

107
Persons with disabilities

Methodology: Security incidents in northern Mozambique since 2017 have resulted in increasing population displacement across affected districts. As of September 2021, an estimated 642,404 IDPs across host communities and sites have been recorded through baseline assessments in Cabo Delgado. Movements tracked through IOM's Displacement Tracking Matrix (DTM) Emergency Tracking Tool record daily internal movements within and between districts.

Recognizing continued pendular population movements between host communities and displacement sites and to support service providers for better programme plans, IOM DTM works in collaboration with CCCM cluster to conduct population count exercises in sites where the cluster is providing coordination and service monitoring. Exercises are coordinated through government focal points and local leadership working in temporary sites, relocation sites and host-community extensions.

Population count teams identify zones in which to complete shelter-to-shelter interviews with Heads of Households/Household Focal Points. By recording the number of individuals living in each shelter the previous night, population count exercises are designed to provide sex and age disaggregated demographics as well as basic vulnerabilities amongst households residing in sites. Periodic population count activities complement information obtained through other site-level DTM/CCCM data collection activities deployed in Northern Mozambique

From 06 to 21 November 2021, Population Count exercises in Naminawe (Metuge district); Ujama, Upajo (Montepueuz district); and Maningane (Chiure district) Relocation Sites were conducted in collaboration with IOM DTM and IOM CCCM in close coordination with the CCCM cluster. The results of the exercise are shown in the table below.

Counted population by gender and age

Location details		# Shelters	Female			Male			Total population	Vulnerabilities	
District	Sites		0 - 17 y	18 - 59 y	60+ y	0 - 17 y	18 - 59 y	60+ y		Persons with disabilities	Separated children
Metuge	Naminawe	740	1,054	667	72	1,067	628	41	3,529	31	19
Montepueuz	Ujama	395	503	387	63	513	287	52	1,805	3	-
Montepueuz	Upajo	441	541	410	32	505	332	34	1,854	2	9
Chiure	Maningane	1,585	2,207	1,507	243	2,104	1,239	155	7,455	71	5
