1,151 displaced individuals³
3.0% of respondents

DTM's Flow Monitoring Registry (FMR) surveys people on the move at key transit points within South Sudan (SSD) and at its borders. It provides an insight into mobility trends, migration drivers and traveller profiles to inform programming by humanitarian and development partners and by the government, complementing DTM's [monitoring of COVID-19 mobility restrictions](#). In total, 22 Flow Monitoring Points (FMPs) were active in August 2021, surveying internal flows and cross-border travel with Uganda

(UGA), the Democratic Republic of Congo (DRC), Sudan (SDN), Ethiopia (ETH), Kenya (KEN) and the Central African Republic (CAR). The FMPs Renk North Checkpoint and Malakal Bus Station continue to be suspended. Activities in Source Yubu resumed on 5 August 2021. Figures are only indicative of existing trends among respondents at the active FMPs since DTM does not have full coverage of cross-border or internal flows. Participation in the survey is voluntary and anonymous.

No. of respondents (August 2021)

- 1,000
- 4,000
- 8,000

Reasons for displacement³ by direction of travel

Reason for disp.	Outgoing (n = 244)	Internal (n = 793)	Incoming (n = 114)
Conflict	31.1%	9.7%	38.6%
Natural Disaster	17.6%	87.6%	12.3%
Food Insecurity	51.2%	2.6%	49.1%

Additionally, 0 displaced individuals were surveyed in transit through South Sudan.

Long / medium term⁴ flows of South Sudanese to South Sudan (exc. IDPs)

Place of departure	Voluntary return	Forced ⁵ return	Voluntary relocation
From SSD	695 (375 refugees ⁵)	5 (0 refugees)	138 (13 refugees)
From abroad	1,513 (712 refugees)	6 (0 refugees)	81 (39 refugees)

1,559 possible voluntary returnees (of which 1,098 from abroad), 25 forced returnees (6 from abroad) and 549 relocated individuals (208 from abroad) reported an unknown intended duration of stay or unknown length of stay at the location of departure.

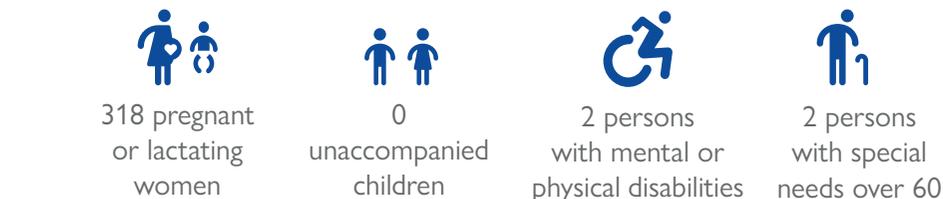

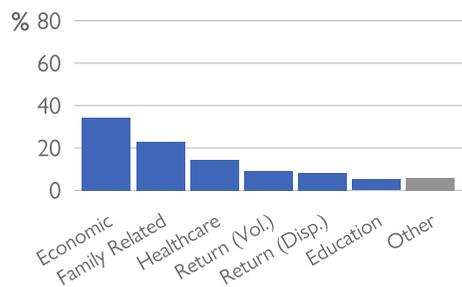

Long / medium term⁴ total migration flows by country

Country	Inflow	Outflow	Net flow
Uganda	612 (376 refugees ⁵)	40 (8 refugees)	+572 (368 refugees)
DRC	87 (57 refugees)	11 (0 refugees)	+76 (57 refugees)
Sudan	665 (95 refugees)	302 (0 refugees)	+363 (95 refugees)
Ethiopia	20 (19 refugees)	23 (8 refugees)	-3 (+11 refugees)
Kenya	273 (217 refugees)	359 (220 refugees)	-86 (-3 refugees)
CAR	26 (0 refugees)	28 (0 refugees)	-2 (0 refugees)

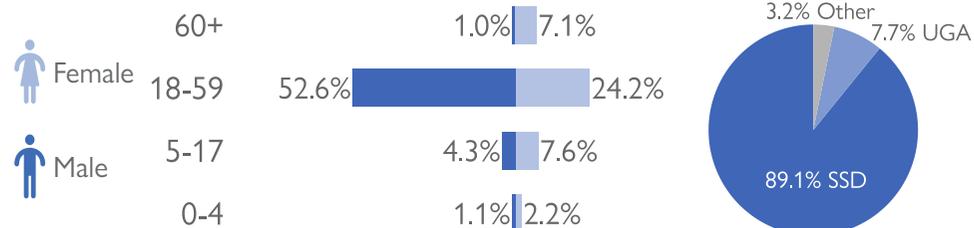

The boundaries on the map do not imply official endorsement or acceptance by the Government of the Republic of South Sudan or by IOM. The map is for planning purposes only. IOM cannot guarantee that the map is error free and therefore accepts no liability for consequential or indirect damages arising from its use. [1] Respondents going to or coming from non-neighbouring countries (35), as well as respondents whose locations of departure and destination are both outside South Sudan (521), are not included in country-specific analysis. [2] Individuals travelling together are surveyed as a group, which often corresponds to the household. [3] Individuals reporting forced movement due to conflict, natural disaster or food insecurity (if intention to stay over a week) are counted as displaced. [4] Flows are considered to be long / medium term if the group spent over 3 months at the location of departure and intends to spend over 6 months at destination. [5] Registered refugee status is self-reported.

Methodology

DTM's Flow Monitoring Registry (FMR) surveys people's movement through key transit points within South Sudan and at its borders. The purpose is to **provide regularly updated information on mobility dynamics and traveller demographics, intentions and motivations**. Data is collected on both **internal and cross-border flows**.

Flow Monitoring Points (FMPs) are positioned at strategic border crossings and transport hubs, as determined by a preliminary assessment of high-transit locations. As a result, **the data is indicative of selected key flows** and does not provide a full or statistically representative picture of internal and cross-border movement in South Sudan.

The FMR methodology aims to track all non-local traffic passing through an FMP, usually between 8:00-17:00, during the week and on weekends. Trained enumerators briefly survey each group of travellers and collect disaggregated information about individual demographics and vulnerabilities. Participation in the survey is voluntary and children under 15 are not directly interviewed.

FMPs are not active overnight as a result of security constraints and operations may be temporarily suspended in periods of increased risk. Due to staffing constraints, full coverage may not be possible at times of exceptionally high movement through the FMP.

not necessarily reflect the number of individuals travelling.
