

On 24 January 2022, Tropical Storm Ana made landfall in Angoche district, Nampula. The storm has significantly affected the provinces of Nampula, Zambezia and Tete. Further reports of damages have been recorded in Sofala, Niassa and Cabo Delgado provinces. Situational overviews recorded by the National Institute for Disaster Management and Risk Reduction (INGD) report at least 141,483 individuals affected, 220 people injured, 25 people killed as well infrastructure damages to 144 electricity lines, 765 schools and 30 health centres (OCHA, 01 February 2022)

Through an existing network of enumerators on ground, IOM, in close coordination with INGD, has been providing logistical and technical support in rapid assessments within the first 72 hours of Tropical Storm Ana landfall.

Through an existing network of enumerators on ground, IOM, in close coordination with INGD, has been providing logistical and technical support in rapid assessments within the first 72 hours of Tropical Storm Ana landfall. Within these assessments, a total of 18 Accommodation centres were mapped across the provinces of Zambezia (15), Nampula (1) and Tete (3). As of 01 February, 15 Accommodation Centre have been deactivated- leaving 3 centres providing shelter for storm-affected families in Tete. An estimated 99% of all displaced families (20,252 households) have temporarily moved-in with neighbours/relatives.

Detailed, joint multi-sectoral needs assessments, led by INGD and in collaboration with humanitarian partners, are currently ongoing. IOM’s Displacement Tracking Matrix (DTM) teams continue to support in rapid assessments in Tete, Niassa, Sofala, Nampula and Zambezia – flagging locations, primary needs and impacts across communities yet to be evaluated through in-depth multi-sectoral assessments.

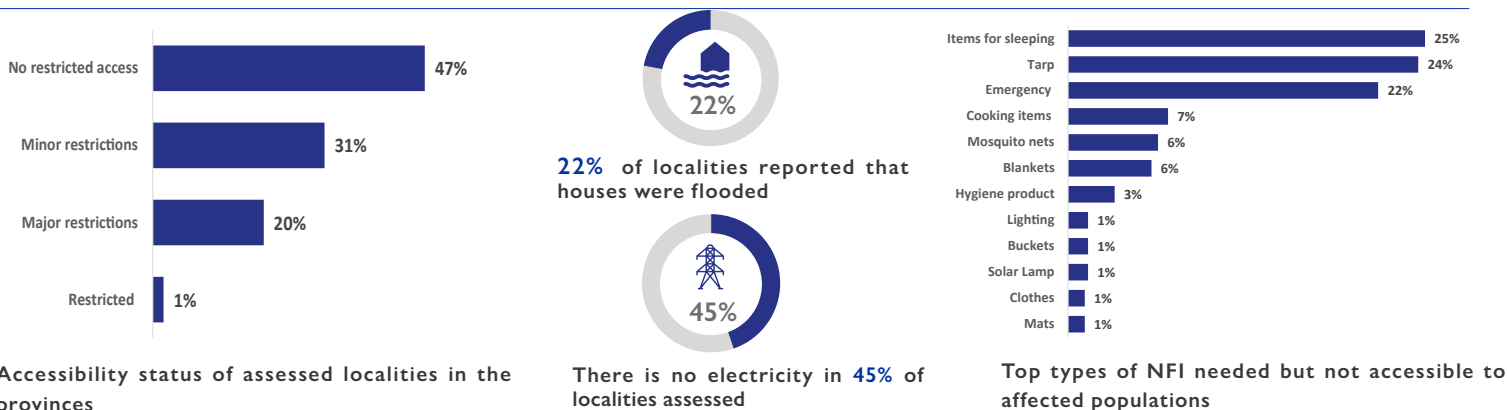

### RAPID ASSESSMENT

Following these events, rapid assessments were conducted by the International Organization for Migration (IOM) in collaboration with the National Institute for Disaster Management and Risk Reduction (INGD), from the 25 January 2022. Rapid assessments are still ongoing with a focus on understanding the extent of initial displacements as well as damages to houses and facilities across all affected localities in Tete, Niassa, Sofala, Nampula and Zambezia Provinces.

As a result of the impact of Tropical Depression Ana, an estimate of 50,768 families had their houses completely/partially damaged in the districts assessed so far. Of these 72% are in Nampula (36,681 houses), 18% in Zambezia (8,913 houses), 8% in Sofala (4,279 households) and 0.2% in Niassa (83 households). Assessment teams have completed data collection in 2 locations across Tete Sede-recording 812 houses (2%) completely/partially damaged. Further assessments in Tete are ongoing to evaluate extent of displacements across Mutarara, Dia and Zambue districts. In addition, 21 tents and 16 emergency shelters were completely or partially destroyed due to the rain and strong winds.

IOM/INGD identified 437 latrines and 8 water points damaged. Moreover, localities assessed so far identify at least 181 schools reporting partial and major damaged. Affected schools are in Nampula (69), Zambezia (87), Sofala (25) provinces. A total of 444 classrooms were completely or partially damaged in the affected schools.

In assessed locations, 16 health centres were also completely/partially damaged in Nampula (14) and Zambezia (12)

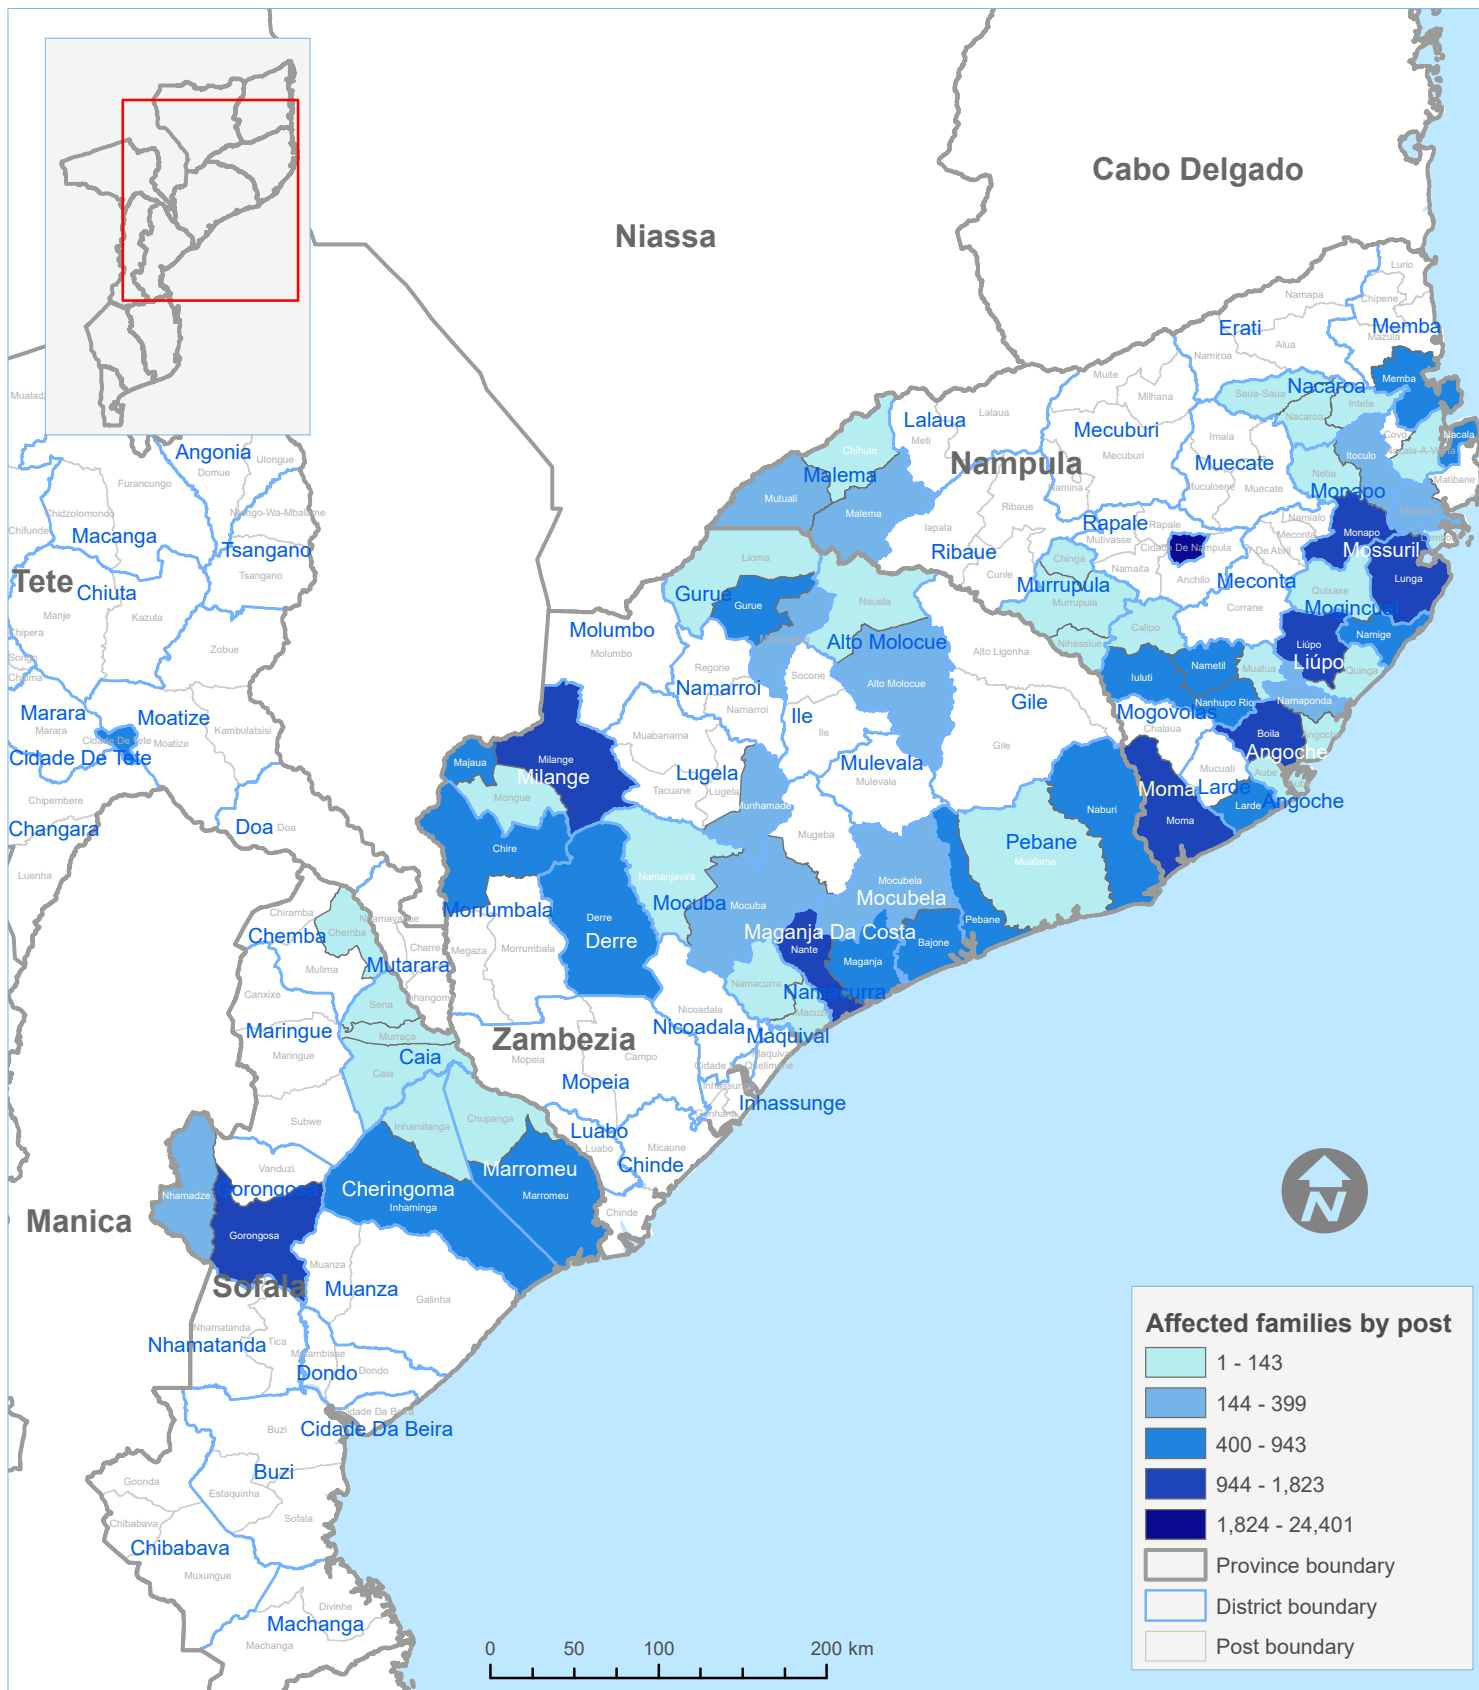

\*Estimation of IDP households whose homes, emergency shelters and tents are completely destroyed

# LOCALITIES AFFECTED IN NAMPULA, ZAMBEZIA, SOFALA, AND TETE PROVINCES BY TROPICAL STORM ANA

The table below summarizes the extent of damages to shelters and facilities across all localities assessed in Nampula, Zambezia, Sofala, and Tete Provinces. Please note that the total figure provided is a sum of affected structures (both partially and totally destroyed). For more information, and to have access to the complete data set, please contact the IOM/DTM team (DTMMozambique@iom.int).

Province	District	Post	No. of permanent houses completely destroyed?	No. of permanent houses partially destroyed?	No. of emergency shelters partially damaged/destroyed?	No. of tents on the site are partially damaged/destroyed?	No. of health center partially damaged/destroyed?	No. of schools partially damaged/destroyed?	No. of damaged latrines (in unit)	No. of water points were damaged or not working?
