

Following the completion of Biometric Registration at Muna El Badawy Camp in Jere Local Government Area (LGA) in the state of Borno, 5,799 households and 28,251 individuals were registered as per 21 March 2022, the average family size in the camp is five individuals. Fifteen per cent of the families consist of 1-2 members, 33 per cent comprising 3-4 members, 31 per cent comprising 5-6 members, 15 per cent comprising 7-8 members, 5 per cent comprising 9-10 and 2 percent comprising of 11 and more members

Additionally, return intention data was collected to ascertain if residents of the camp are willing to return to their locations of origin, remain in the camp or relocate to a different location. More than 99 per cent of respondents are willing to leave the camp while less than one per cent are willing remain in the camp. Fifty-one per cent of IDPs in the camp are willing to return to their place of origin, 47 per cent are willing to return to place of habitual residence and two per cent are willing to relocate to a different locality (nearby town or state).

Vulnerability data was collected to identify individuals who may require additional humanitarian assistance. Fourteen per cent of the registered individuals were categorized as afflicted by one or more vulnerabilities. Some of the vulnerabilities included breastfeeding mothers (56 per cent), pregnant women (14 per cent), special protection needs (13 per cent), single parent headed households (nine per cent), physically disadvantaged (four per cent), visual impairment (two per cent), serious medical conditions (one per cent), mentally disabled (one per cent), others less than (one per cent.) etc.
