

The objective of the Emergency Tracking Tool (ETT) - Movement Alert is to collect information on large and sudden population movements, and to provide support to the Government and the humanitarian community by disseminating data on IDPs for ensuring effective humanitarian response to the affected population. Information is collected through key informant interviews or direct observation. The dashboard provides basic information on displacements, and additional information can be shared upon request.

MOVEMENT ALERT

SUMMARY OF THE EVENT

Fear of attacks and subsequent confirmed attacks in Ancuabe district by Non State Armed Groups triggered displacements movements between 02-07 June. Recent attacks in Nduli locality triggered the movements of 3,402 individuals to Ancuabe (Metoro), Chuire, Mocomia, Montepuez, Meluco, Metuge and Cidade de Pemba between 04-07 June 2022. Approximately 123 IDPs have been identified with vulnerabilities: 66 elderly, 34 pregnant women, 5 people with disabilities, and 18 unaccompanied/separated children. At least 43% of these movements are departures from sites in Metuge (reporting 02-07 June 2022).
