

NON-YEMENI MIGRANT ARRIVALS AND YEMENI MIGRANT RETURNEES IN AUGUST 2022

6,542 Migrants | 5,522 Yemeni Migrant Returnees

IOM Yemen DTM's Flow Monitoring Registry (FMR) monitors migrant arrivals on the southern coastal border and Yemeni return locations on Yemen's northern border with the Kingdom of Saudi Arabia (KSA). Enumerators placed at Flow Monitoring Points (FMPs) record migrant arrivals and returning Yemeni nationals to identify different patterns of migration, and to provide quantitative estimates to help define the population of irregular migrants entering the country. FMR is not representative of all flows in Yemen and should be understood as only indicative of migration trends of the unknown total number of migrants arriving in Yemen at FMPs during the time frame indicated. Access constraints limit the ability to collect data at some migrant arrival points.

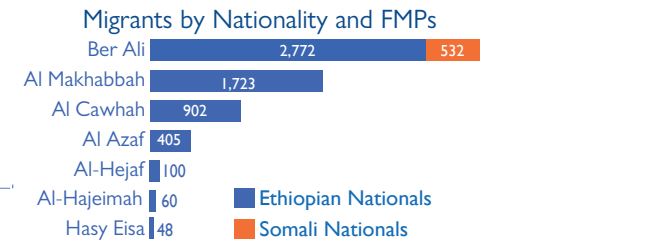

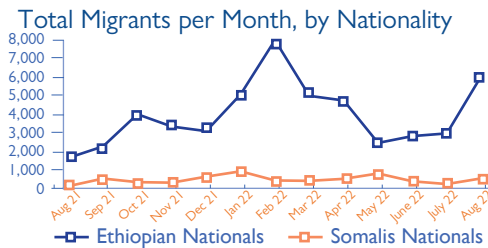

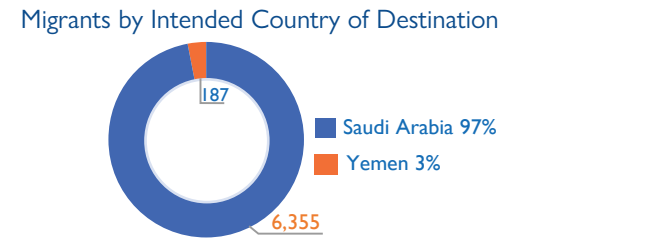

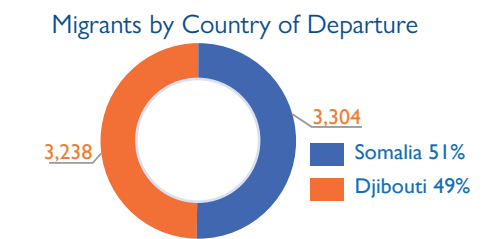

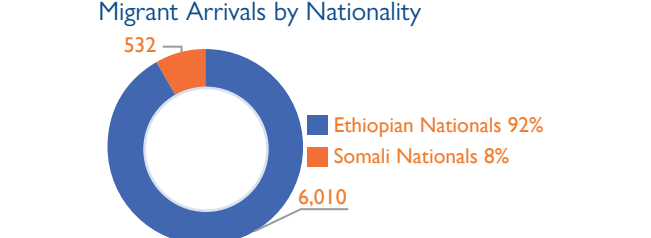

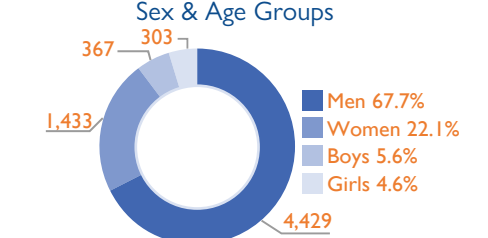

In August 2022, IOM Yemen DTM recorded 6,542 migrants entering Yemen, representing a 106% increase compared to July 2022 (3,171). In both Shabwah and Lahj DTM has registered an increase in arrivals compared to the last months. The overall increase is in part linked to decreased security measures by Djibouti coast guards and the good condition of the weather and the sea.

Due to the deteriorating humanitarian crisis in Yemen and the challenges in moving towards KSA, many migrants opted to return to the Horn of Africa. DTM teams in Djibouti recorded that during August 2022, a total of 266 migrants took the risky return by boat from Yemen to travel home. Moreover, DTM recorded 5,522 Yemeni returns from KSA during the month of August 2022, compared to 4,476 in July 2022. Between 1 January and 31 August 2022, DTM recorded 40,979 migrants and 45,283 Yemeni migrant returnees to Yemen.
