Since the onset of the war in Ukraine, people have been fleeing the crisis into Moldova and other neighbouring countries. This report presents findings based on cumulative and daily registrations by the General Inspectorate for Border Police (GIBP) and movements of refugees and other third-country nationals (TCNs) entering from Ukraine to the Republic of Moldova from all Border Crossing Points (BCPs) since 24 February 2022 and exiting the country from all BCPs towards Romania and Ukraine, as well as via flights. In addition, this report presents data on those who entered and are still present in the country.

Third country nationals comprise 9 per cent of all entries to the Republic of Moldova from Ukraine

Between 24 February and 15 August 2022, Ukrainian refugees represented 91 per cent (524,540) of all individuals registered at entry from Ukraine (UKR) to the Republic of Moldova (MDA). The remaining nine per cent (48,803) were other TCNs. Similarly, Ukrainian refugees represent 90 per cent (294,801) of all individuals registered leaving the Republic of Moldova towards Romania during the reporting period and the remaining ten per cent (33,207) were TCNs.

This report focuses on the observable trends in the data on TCNs who entered the Republic of Moldova from Ukraine and analyzes data concerning their stay or their subsequent movement out of the country.
