ETT Report : No. 293 | 12 — 18 September 2022

NUMBER OF NEW ARRIVALS

1,688 individuals

NEW ARRIVALS SCREENING BY NUTRITION PARTNERS

228 Children (6 - 59 months) screened for malnutrition
**MUAC** category of screened children

Green: 197   Yellow: 20   Red: 11

The DTM Emergency Tracking Tool (ETT) is deployed to track and to collect information on large and sudden population movements, provide frequent updates on the scale of displacement and quantify the affected population when needed. As a sub-component of the Mobility Tracking methodology in Nigeria, ETT utilises direct observation and a broad network of key informants to capture best estimates of the affected population per location, enabling targeted humanitarian response planning.
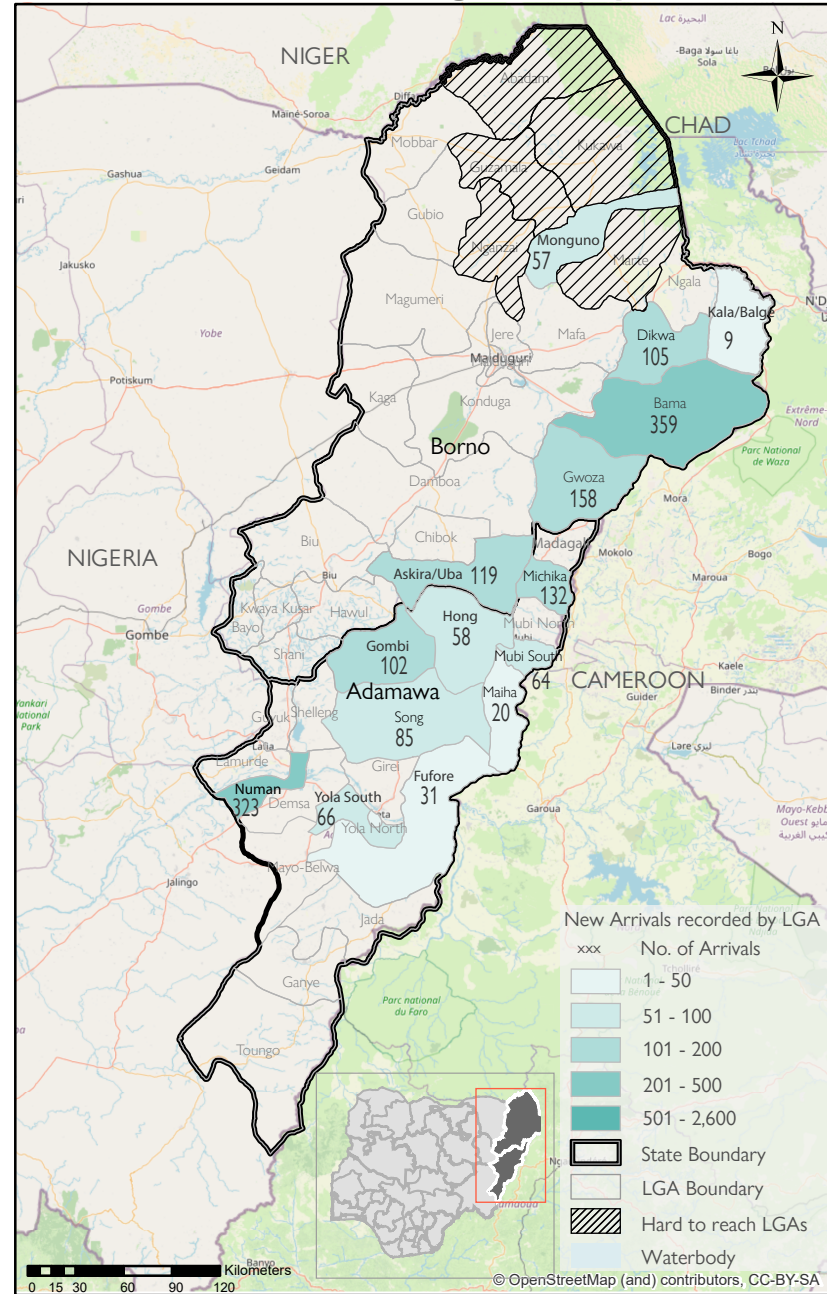

Between 12 and 18 September 2022, a total of 1,688 new arrivals were recorded in locations in Adamawa and Borno States. The new arrivals were recorded at locations in Askira/Uba, Bama, Dikwa, Gwoza, Monguno and Kala Balge Local Government Areas (LGAs) of the most conflict-affected state of Borno and in Fufore, Gombi, Hong, Maiha, Michika, Mubi South, Song, Numan and Yola South LGAs of Adamawa State.

ETT assessments identified the following movement triggers: poor living conditions (342 individuals or 20%), floods (323 individuals or 19%), seasonal farming (275 individuals or 16%), improved security (266 individuals or 16%), camp closure (195 individuals or 12%), military operations (164 individuals or 10%), family re-unification (85 individuals or 5%) and access to humanitarian support (38 individuals or 2%).
PERCENTAGE OF INDIVIDUALS BY MOVEMENT TRIGGER

Trigger	Percentage
POOR LIVING CONDITIONS	20%
FLOOD	19%
SEASONAL FARMING	16%
IMPROVED SECURITY	16%
CAMP CLOSURE	12%
MILITARY OPERATIONS	10%
FAMILY RE-UNIFICATION	5%
ACCESS TO HUMANITARIAN SUPPORT	2%

SUMMARY OF MAJOR NEW ARRIVALS

Bama: Three hundred and fifty-nine (359) new arrivals were recorded in Bama LGA of Borno State. Forty-six per cent of the arrivals were from Sabsabwa/Soye/Bulongu ward and hard-to-reach/inaccessible locations (Gulumba/Jukkuri/Batra and Lawanti/Malam/Mastari/Abbaram wards) within Bama LGA of Borno State and 54 per cent of the arrivals were from Konduga LGA of Borno State. Forty-six per cent of the movements were triggered by military operations and 54 per cent of the movements recorded were a result of the closure of 250 Housing Estate Camp (Dalori II) in Konduga LGA of Borno State.

Numan: Three hundred and twenty-three (323) new arrivals were recorded in Numan LGA of Adamawa State. All arrivals were displaced from Imburu ward in Numan LGA of Adamawa State as a result of the floods.

Gwoza: One hundred and fifty-eight (158) new arrivals were recorded in Gwoza LGA of Borno State. Fifty-seven per cent of the arrivals were from (Pulka/Bokko, Hambagda/Liman Kara/New Settlement and Gwoza Wakane/Bulabulin wards) and hard-to-reach/inaccessible locations (Dure/Wala/Warabe, Johode/Chikide/Kughum and Gavva/Agapalwa wards) within Gwoza LGA of Borno State. Forty-one per cent of the arrivals were Nigerian nationals who returned from the Marwa region of Cameroon and 2 per cent of the arrivals were from Bama LGA of Borno State. Ninety-eight per cent of the movements were triggered by poor living conditions and 2 per cent of the movements were a result of family re-unification.

Michika: One hundred and thirty-two (132) new arrivals were recorded in Michika LGA of Adamawa State. Forty per cent of the arrivals were from Song LGA of Adamawa State, 17 per cent of the arrivals were from Zing LGA of Adamawa State, 15 per cent of the arrivals were from Askira Uba LGA of Borno State, 14 per cent of the arrivals were from (Michika I ward) within Michika LGA of Adamawa State and 14 per cent of the arrivals were from Yola South LGA of Adamawa State. All movements were a result of improved security situations in areas of origin.

IOM's Emergency Tracking Tool (ETT) is deployed in Nigeria's northeastern states. Only Local Government Areas (LGAs) in which the IDP population changed since the latest DTM round of assessments are represented in this report. ETT data is collected by DTM staff deployed at the locations listed and cross-checked with the partners on the ground.

NEW ARRIVAL MALNUTRITION SCREENING SUMMARY (CHILDREN 6 — 59 MONTHS)

Between 12 and 18 September 2022, an exhaustive nutrition screening using Mid-Upper Arm Circumference (MUAC) and oedema for acute malnutrition was conducted by sector partners for 228 children of 6-59 months. Of the 228 children screened, the MUAC reading indicated that 11 children were recorded in the red category, 20 children in the yellow category and 197 children in the green category. No case of oedema was reported in the six LGAs assessed.

Among the 228 children screened, 94 children arrived from neighbouring countries (20 in Gwoza LGA, 4 in Kala Balge, 62 in Mobbar and 8 in Monguno LGA); of all the 94 children measured; 1 were in red, 88 in green and 5 were in yellow. All children found with acute malnutrition have been admitted in the treatment programme.

Please note, the data presented above are not surveillance results and should be interpreted with caution.

Breakdown of MUAC reading by category

LGA	Green (≥12.5cm)		Yellow (11.5cm - 12.5cm)		Red (<11.5cm)		Total
	Inaccessible	Accessible	Inaccessible	Accessible	Inaccessible	Accessible	
Bama	39	41	8	1	4	0	93
Dikwa	9	6	1	1	2	1	20
Gwoza	6	23	3	1	3	1	37
Kala Balge	0	4	0	0	0	0	4
Mobbar	0	57	0	5	0	0	62
Monguno	0	12	0	0	0	0	12
Total	54	143	12	8	9	2	28

- Green ■ Nourished
- Yellow ■ Moderate Acute Malnutrition (MAM)
- Red ■ Severe Acute Malnutrition (SAM)
