40% decrease in displacement from the previous week (60 HHs)

2 Returnee HHs

IOM Yemen DTM's Rapid Displacement Tracking (RDT) tool collects data on estimated numbers of households forced to flee on a daily basis from their locations of habitual residence or displacement, allowing for regular reporting of new displacements¹ in terms of estimated numbers, causes of displacement, geography and needs. It also tracks returnees who returned to their location of habitual residence.

Between 25 September and 1 October 2022, IOM Yemen DTM tracked 36 households (216 individuals)² who experienced displacement at least once.

Safety and security concerns as a result of the conflict were the main reason for displacement, accounting for 72 per cent (26 HHs) of the total and followed by economic reasons related to conflict, accounting for 28 per cent (10 HHs).

From 1 January to 1 October 2022, IOM Yemen DTM tracked 8,960 households (HH)³ (53,760 Individuals) who experienced displacement at least once.

Since the beginning of the year, the number of tracked new instances of displacement has been declining in an irregular pattern.

IOM DTM also recorded two returnee households in the governorate of Marib returning to their locations of origin during the reporting period due to an improved security situation.

Governorate of Displacement	IDP HHs Displaced during the week 25 Sep to 1 Oct 2022	Total ⁴ IDP HHs from 1 Jan to 1 Oct 2022

4. New arrivals recorded by IOM DTM within the reporting period. This does not necessarily represent the exact total increase of HHs due to an unknown number of instances of multiple displacements and/or return.

1. Displacement in Yemen refers to the 13 governorates where IOM DTM's team has access, namely: Abyan, Ad Dali, Aden, Al Bayda, Al Hodeidah, Al Jawf, Al Maharah, Hadramawt, Lahj, Ma'rib, Shabwah, Socotra, Taiz.

2. IOM DTM estimates that one household represents six individuals.

3. Please note that further additions to previous reporting periods can be reflected in cumulative totals without being individually addressed in narrative reports.
