

### OVERVIEW

The Area Baseline assessment provides granular data on the number and geographic location of officially recorded internally displaced persons (IDPs). Data collection for the Area Baseline assessment Round 15 took place between 17-28 October across 21 oblasts and Kyiv city. In the areas covered, the number of recorded IDPs was collected for all 106 raions and 998 hromadas (75 per cent of all). In addition, gender disaggregated figures were provided across 62 per cent of hromadas— of those areas, 67 per cent of registered IDPs were females and 33 per cent were males.

This report assesses registered IDP presence at the hromada and oblast-levels, while also mapping the percentage change since the previous round. It further highlights the rate of change at the macro-regional level and charts the registered IDP figures at the raion-level across the previous 9 rounds.

IOM's glossary defines IDPs as persons or groups of persons who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized state border. Operationally, for this assessment, interviewers define and understand IDPs as persons who officially registered as fleeing their habitual place of residence due to the current war in Ukraine.

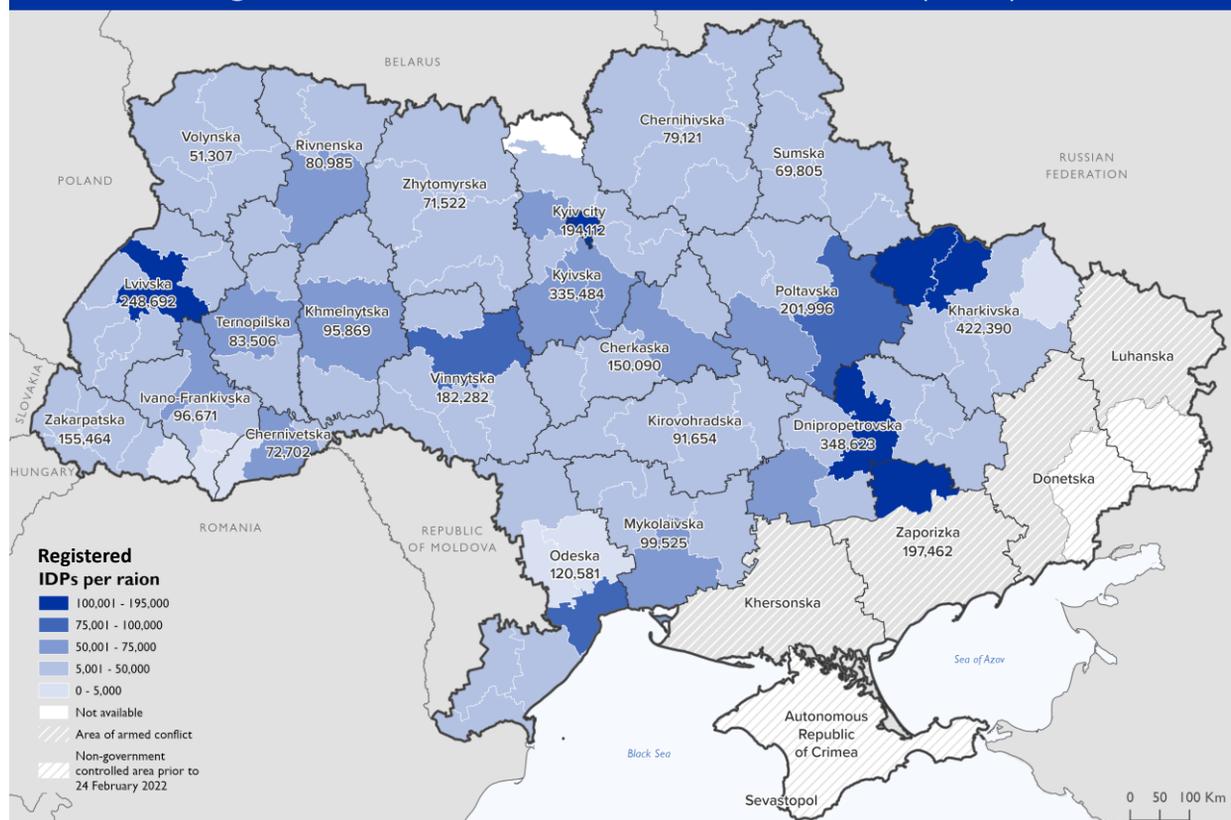

### KEY INSIGHTS

- Round 15 includes information from 998 out of 1,319 hromadas in the covered areas (75%).
- Among oblasts, **Kharkivska (422,390)**, **Dnipropetrovska (348,623)** and **Kyivska (335,484)** have the highest number of displaced persons.
- At the raion level, **Kyivska, Kharkivskiyi, Zaporizkyi, Dniprovskiyi, Lvivskiyi** host the highest number of recorded IDPs, with over 150,000 each.
- Of the total IDPs, the majority have been displaced from **Donetska, Kharkivska and Luhanska** oblasts.
- Out of the 130 cities/towns that reported IDP figures, **Kyiv, Dnipro, Kharkiv, Zaporizhzhia and Kryvyi Rih** recorded the highest displacement figures.

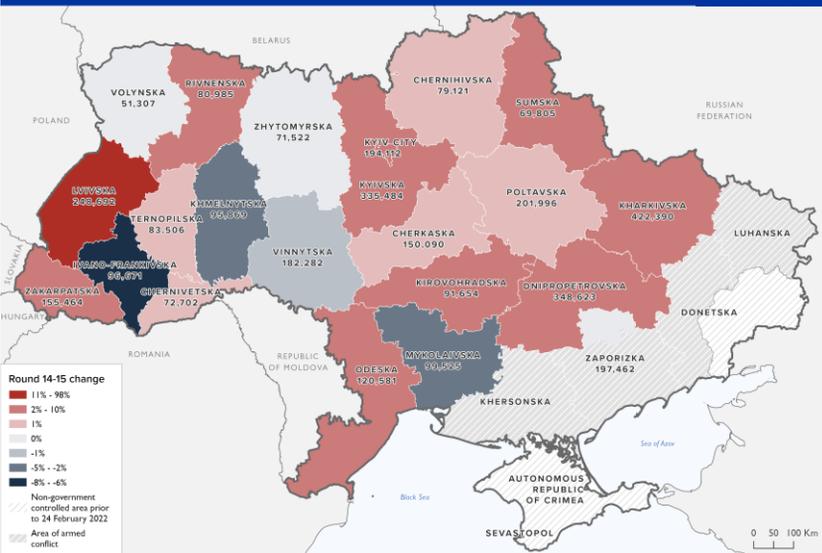

## Ukraine Registered IDP Presence: Area Baseline Round 15 (Raion)

As of: 28 October 2022  
Data source: IOM DTM

Disclaimer: The data in this report was sourced from official IDP data recorded by hromada officials. As such, it likely represents an undercount of those who have been forced to flee their homes.

Registered IDP Presence by Oblast: Percentage Change Between Rounds 14-15

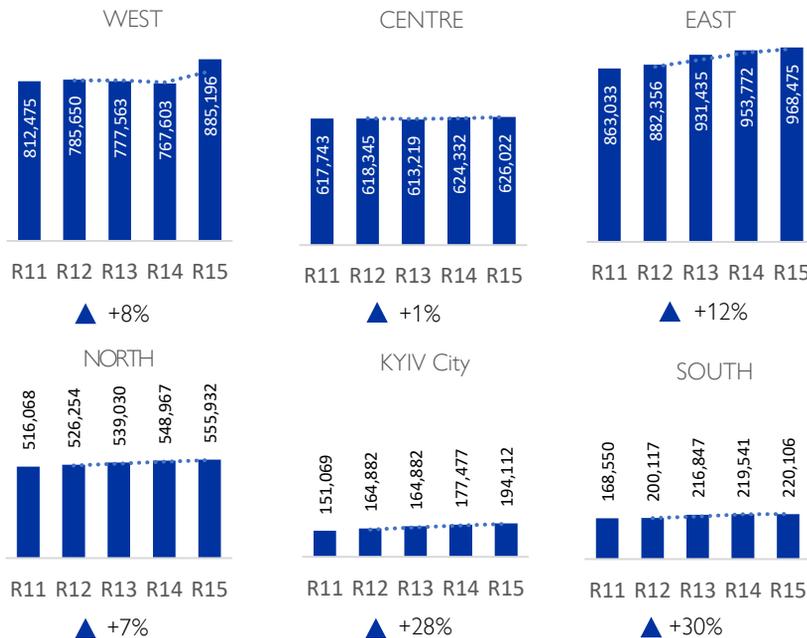

RECENT MOVEMENTS

Since the previous round, the official figures for IDPs have increased by nearly 140,000 (+4%). Registered IDP numbers grew mostly in the Eastern and Central regions. Displacement rates in these areas may be expected to rise as the conflict persists, impacting both displaced persons and the host communities experiencing increased pressure on local shelter, health care and education, and other services.

Lvivska oblast showed a substantial increase (+98%, 123,316) in the total rate of IDPs since the previous round; however, this is entirely due to an increase in data coverage across hromadas in the oblast. In fact, hromadas in Lvivska oblast that were covered in previous and current rounds exhibit a slight decrease in registered IDPs (-4%). Concurrently, there was a decrease in registered IDPs in Ivano-Frankivska, Mykolaivska, Khmelnytska and Vinnitsya oblasts.

Further information about mobility intentions can be found in [IOM General Population Survey](#).

Registered IDPs by Macro-Region

Please note, hromada-level data is available upon request

TRENDS OVER TIME

Since August 2022, DTM data collection activities have covered all macro-regions\* of Ukraine. Information on officially registered presence of IDPs is now available for all areas of the country for multiple consecutive rounds, enabling trends tracking through time.

The Eastern macro-region shows the largest increase in absolute terms, reaching almost 1 million registered IDPs as of end-October. However, Kyiv City (+28%) and Southern oblasts (+30%) were by far the fastest growing areas in relative terms. Registered IDPs in Western Ukraine, on the other hand, increased in terms of total which can be explained by expand coverage of locations in that part of country.

\* The macro-regions include the following oblasts. WEST: Ivano-Frankivska, Volynska, Zakarpatska, Lvivska, Rivnenska, Ternopilska, Chernivetska, Khmelnytska; CENTRE: Vinnitska, Kirovohradska, Poltavska, Cherkaska; EAST: Dnipropetrovska, Kharkivska; NORTH: Chernihivska, Kyivska, Sumska, Zhytomyrska; SOUTH: Odeska, Mykolaivska. Kyiv City is counted separately.

METHODOLOGY AND FURTHER INFORMATION

Data for the Area Baseline Assessment is collected through a Key Informant (KI) network within the area of coverage. DTM field team work continuously to maintain and expand their KI network while triangulating and verifying recorded figures on displacement in each hromada.

For more insight on displacement trends and a sectoral analysis of needs, see [IOM Internal Displacement Report \(General Population Survey\)](#), which provides national and macro-region level estimates and insights of de-facto displacement (registered and unregistered IDPs) and needs using phone surveys and a randomized sampling approach.
