International Organization for Migration

**23,766** Individuals

The total number of returnees since **January 2016** up to end of September

**941** Individuals

Returned in the month of **September**

Since 2013, with full coordination with the Humanitarian Aid Commission (HAC) in North Darfur, IOM established a tracking system to monitor the returnees movements in nine localities in North Darfur State (**El Fasher - Korma, Dar el Salam, Kalimendo, Kutum, Mellit, Tawilla,El Tina, Kornoi and Um Buru localities**). These localities are considered as high areas of returns during 2016; therefore, more than **60** enumerators were dispersed to visit over **1,400** villages on a regular basis to monitor the population movements to / from these villages. On average, each staff member is visiting **12** to **20** villages per month. Priority is given for the villages of high return.
