

EMERGENCY EVENT TRACKING

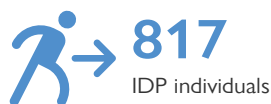

Data collection: 14 December 2022

Conflict

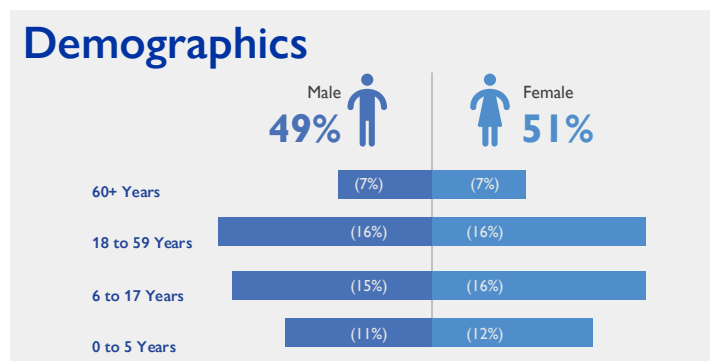

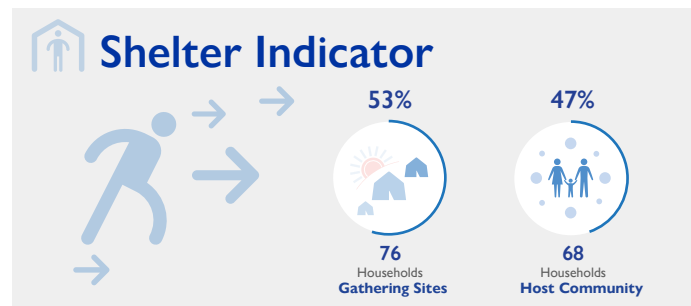

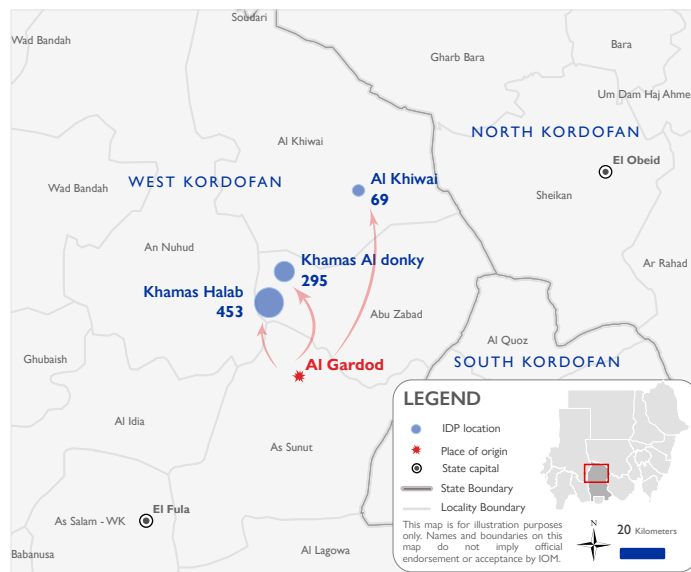

As a subcomponent of the Mobility Tracking methodology (Round Five), the Emergency Event Tracking (EET) tool is deployed to track sudden displacement, provide more frequent updates on the scale of displacement, and quantify the affected population when needed.

Event Overview

On 10 December 2022, inter-communal clashes erupted between members of the Hamar and Misseriya tribes in Al Gardod village in As Sunut locality, West Kordofan following an incident of livestock theft. Field teams indicate that members of the Misseriya tribe requested that community leaders from the Hamar tribe return the livestock a few days prior and reported the theft to the local Security Committee. Sudanese Armed Forces have been deployed to areas of concern. The first EET update estimates a total number of 817 IDP individuals (144 households) currently seeking shelter in Khamas Halab (55%) and Khamas Al Donky (36%) in Abu Zabad locality, and Al Khiwai (9%) village in Al Khiwai locality, West Kordofan. The IDP caseload was originally displaced from the villages of Abu Jafala (92%) and Altaqa'a (8%) in Abu Zabad locality, West Kordofan.

Field teams estimate, upon triangulation with additional sources of information, that ten individuals were killed, and nine individuals sustained injuries. There are 19 cases of reported lost goods, cattle, and/or livestock. All displaced individuals are Sudanese nationals. At least 161 cases of additional vulnerabilities in need of assistance and support were identified by key informants through DTM's Protection indicator. Additionally, DTM Sudan estimates that there are approximately 123 persons with disabilities among the IDP caseload.* Based on a ranking scale, the three priority needs across the caseload are Emergency Shelter, Food, and Non-Food Items.

Return Intention

Data collected through the Return Intention Indicator estimates that the entire IDP caseload (100%) intends to return to their locations of origin.

IOM DISCLAIMER

The opinions expressed in the report are those of the authors and do not necessarily reflect the views of the International Organization for Migration (IOM). The designations employed and the presentation of material throughout the report do not imply the expression of any opinion whatsoever on the part of IOM concerning the legal status of any country, territory, city or area, or of its authorities, or concerning its frontiers or boundaries.

IOM is committed to the principle that humane and orderly migration benefits migrants and society. As an intergovernmental organization, IOM acts with its partners in the international community to: assist in the meeting of operational challenges of migration; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.

*DTM Sudan adopts the WHO global estimate that approximately 15% of the total population are persons with disabilities (PwD).
