IDPs and Returnees were covered by DTM Round XIX

IOM manages the Displacement Tracking Matrix (DTM) in Nigeria and other countries round the world to support humanitarian communities with data on displacement and mobility. This information management product determines the status, locations, and needs of people displaced by the ongoing conflict in Northeast Nigeria. As of 24 September 2017, the DTM has identified 1,713,771 IDPs (316,331 households) across Adamawa, Bauchi, Borno, Gombe, Taraba, and Yobe States. This represents a decrease of 43,517 individuals from the previous DTM Round, reflecting the continuing trend of IDPs returning to their Local Government Areas, particularly in Borno State. Although, most of these IDPs still retain their status because they could not return to their actual places of abode. Assessments were carried out from 3 to 24 September 2017.

Displacement

1,713,771 Individuals

39% of the IDPs are in camps/camp like settings

61% of the people are in host community settings

79% Women and Children

46% Male

54% Female

28% Children under 5 years

70% of IDP Sites surveyed cited food as unmet need

Returnees

1,307,847 Individuals

91% Returnee IDPs

9% Returnee Refugees

Shelter condition in return areas
