SUMMARY OF THE EVENT

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climactic emergencies. Information is collected through phone interviews with key informants and direct observation.

A fire broke out on 23 January 2023 in the neighborhood of Fort-National (1st Section Turgeau, Municipality of Port-Au-Prince, West district) following an incineration of waste in the open air. **As a result, 29 households (140 individuals) were displaced after their houses were destroyed. Among these households, 24 took refuge with host families in the same neighborhood while 5 took refuge in a nearby drinking establishment.**
