STATISTICAL REPORT

NIGER Flow Monitoring Points (FMP)

REPORTING PERIOD

01 August 2016

01 September 2016

Flow monitoring points are placed at known migrant transit points along the Niger migratory route. Data is collected daily at FMPs to inform migrant movements and profiles. The data collected provides a snapshot of migrant movements through the region. The numbers are collected from primary sources and do not claim to reflect all migrants passing through the flow monitoring points.

- Known migrant flows not currently monitored by IOM
