DTM IOM DISPLACEMENT TRACKING MATRIX

DISPLACEMENT TRACKING MATRIX - Nigeria
EMERGENCY TRACKING TOOL (ETT)

The DTM Emergency Tracking Tool (ETT) is deployed to track and to collect information on large and sudden population movements, provide frequent updates on the scale of displacement and quantify the affected population when needed. As a subcomponent of the Mobility Tracking methodology in Nigeria, ETT utilises direct observation and a broad network of key informants to capture best estimates of the affected population per location, enabling targeted humanitarian response planning.

ETT Quarterly Report | July - September 2022

MOVEMENT

41,650 individuals

NEW ARRIVALS SCREENING BY NUTRITION PARTNERS

8,503 Children (6 - 59months) screened for malnutrition
MUAC category of screened children

Between July and September 2022, a total of 41,650 new arrivals have been recorded at locations in Askira/Uba, Bama, Dikwa, Damboa, Gwoza, Hawul, Kala/Balge, Monguno and Ngala Local Government Areas (LGAs) of the most conflict-affected Borno State; and in Demsa, Fufore, Girei, Gombi, Hong, Lamurde, Madagali, Maiha, Michika, Mubi North, Mubi South, Numan, Song, Yola North and Yola South LGAs of Adamawa State; and in Bade LGA of Yobe State.
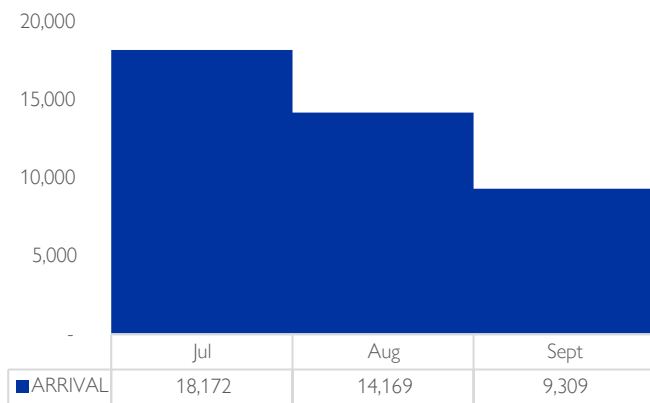

Out of the 41,650 arrivals, 3,215 individuals arrived from neighbouring countries (1,520 from Cameroon, 1,327 from the Republic of Niger and 368 from the Republic of Chad). 2,687 of these arrivals from abroad are now considered to be IDPs as they are Nigerian nationals who sought refuge in a neighbouring country and now integrated in Transit, Banki and Waterboard Camps. The remaining 528 individuals are considered as returnees as they returned to their communities of origin. 38,435 individuals arrived from other locations within the north-east.

ETT assessments identified the following movement triggers: military operations (25%), improved security (20%), poor living conditions (19%), seasonal farming (10%), floods (7%), camp-closure / government-assisted relocation (5%), family re-unification (5%), access to humanitarian support (4%), attacks (4%), fear of attacks (<1%), communal clash (<1%) and lack of humanitarian assistance (<1%).
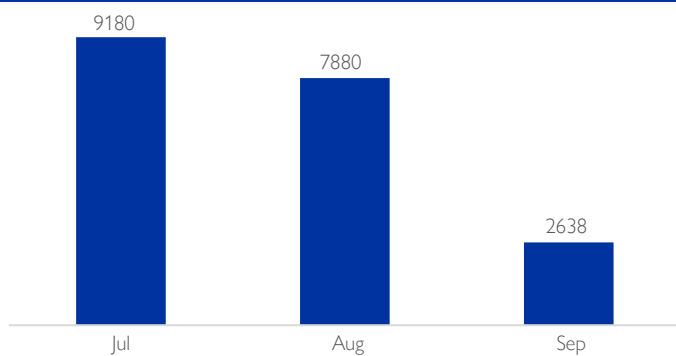

Bama LGA recorded the highest number of arrivals with 18,233 individuals or 44 per cent, Bama was followed by Gwoza LGA with 3,765 individuals or 9 per cent. Meanwhile Hawul LGA recorded the least arrivals with 7 individuals or less than one per cent.
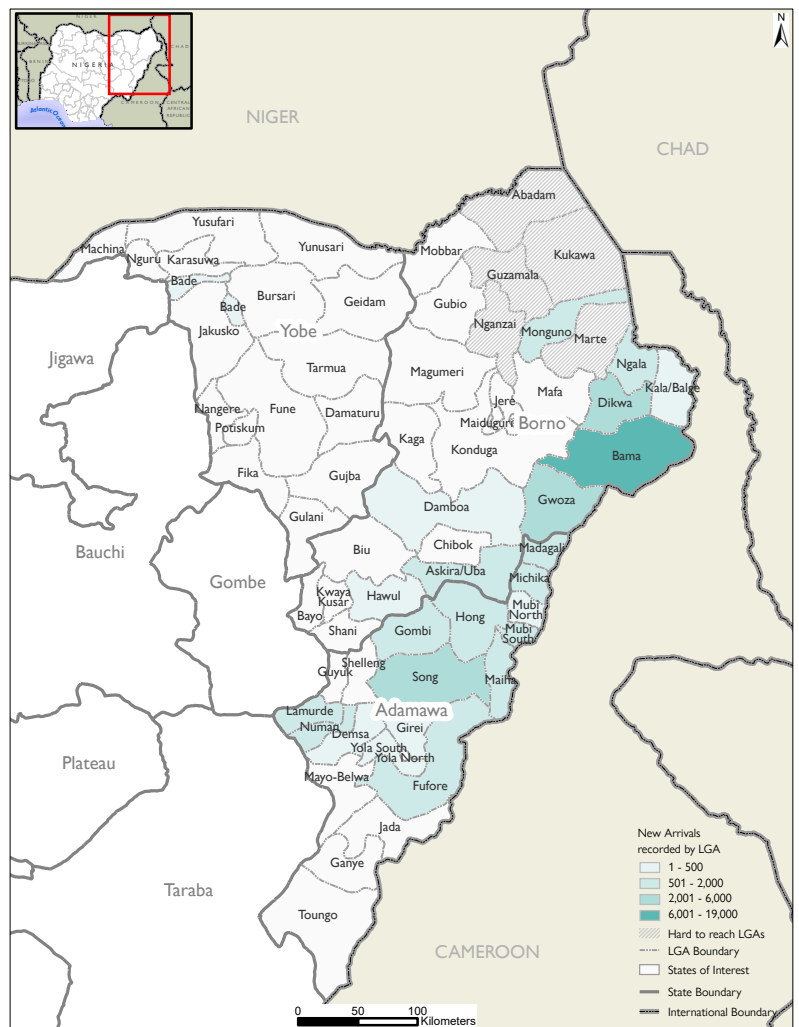

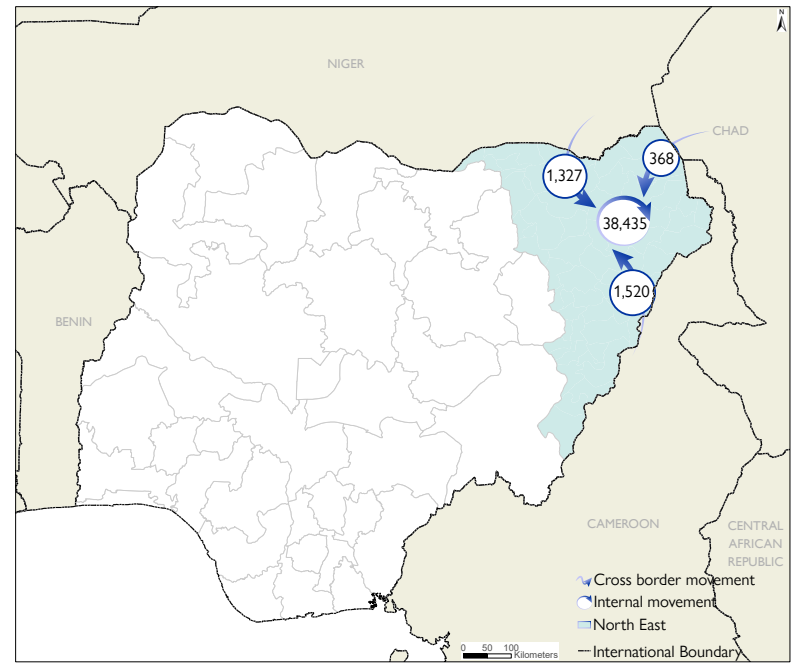

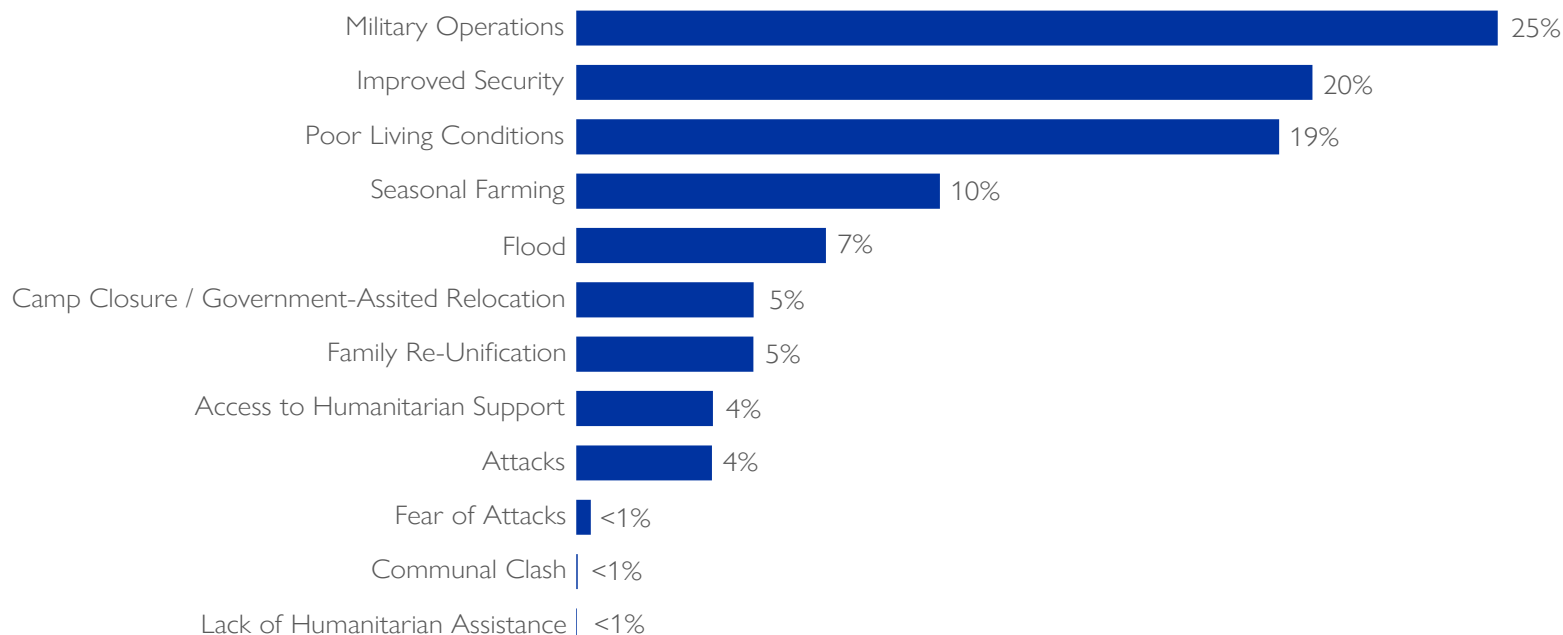

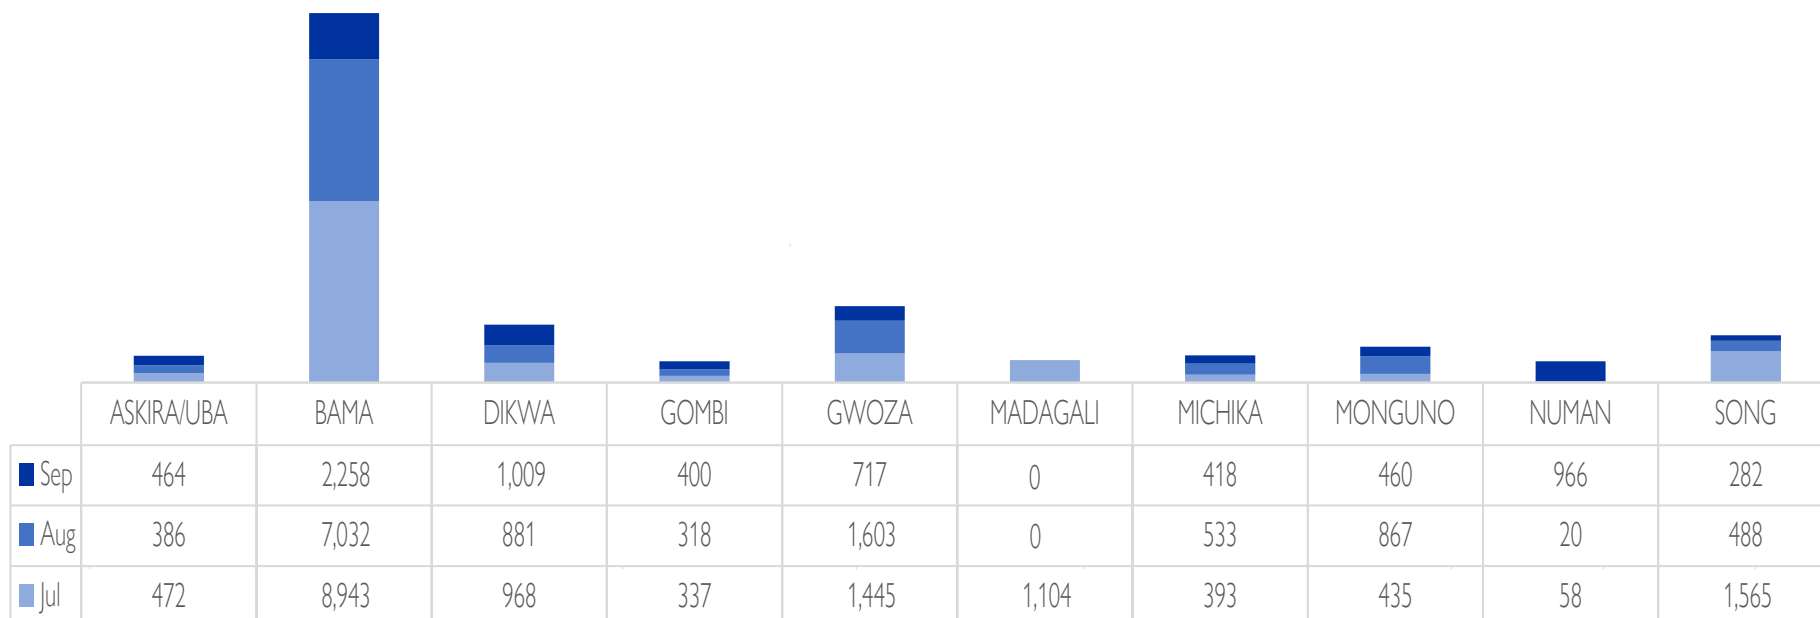

NUMBER OF ARRIVALS BY MONTH

	Jul	Aug	Sept
ARRIVAL	18,172	14,169	9,309

NUMBER OF ARRIVALS FROM HARD TO REACH AREAS

Jul	Aug	Sep
9180	7880	2638

PERCENTAGE OF INDIVIDUALS BY MOVEMENT TRIGGER

Trigger	Percentage
Military Operations	25%
Improved Security	20%
Poor Living Conditions	19%
Seasonal Farming	10%
Flood	7%
Camp Closure / Government-Assited Relocation	5%
Family Re-Unification	5%
Access to Humanitarian Support	4%
Attacks	4%
Fear of Attacks	<1%
Communal Clash	<1%
Lack of Humanitarian Assistance	<1%
