

METHODOLOGY

- Assessment conducted in affected areas ✓
- Assessment conducted through phone interviews with key informants ✓
- Use of secondary data on incidents* ✓

DISPLACEMENT LOCATIONS

DISPLACED PERSONS

~ 361 Displaced households
1,888 Displaced individuals

EVENT INFORMATION

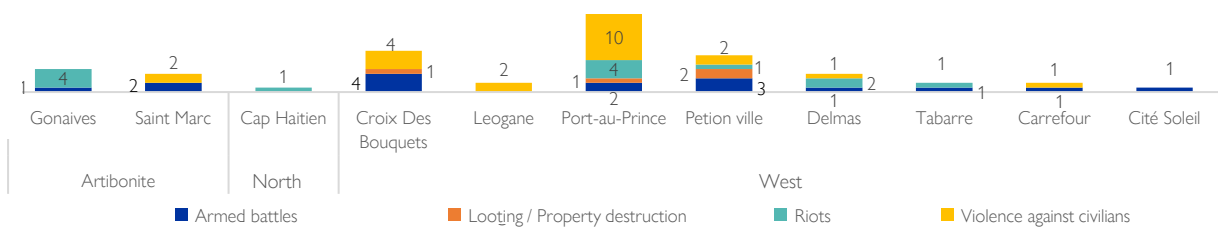

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements as well as security and climactic emergencies. Information is collected through phone interviews with key informants (at least 3) and direct observation. **This dashboard presents information on important population displacement that occurred in January 2023.**

- Following an armed attack on 22 January 2023 in the Jerusalem 7 neighborhood, located in the municipality of Croix-des-Bouquets (West District), nearly 100 households (800 persons) fled their homes, mainly towards neighborhoods located in the same municipality; in particular towards Shada-Tiginen, Casimir, Lizon, Lillavois-Cesselesse and Santo.
- Due to an armed attack that took place on 20 January 2023 in the neighborhood of Metivier, located in the municipality of Petion-ville, approximately 261 households (1,088 persons) left their residence to seek refuge mainly in the neighborhoods of Girardeau, Nerette, Jalousie, Puits Blain, Vivy Mitchel, Bois Moquette and Malick, located in the same municipality. It should also be noted that some people fled towards areas outside the Port-au-Prince Metropolitan Area (towards Mirebalais in the Center district and Jeremie in the Grand'Anse district).

LEGEND

- Number of reported violence per municipalities (source ACLED)
 - 1 - 5
 - 5 - 10
 - 10 - 15
 - 15 - 16
- Number of Internally Displaced People per origin (IDPs)
 - 200
 - 400
 - 600
 - 800
- IDPs per origin
 - IDPs per host location
 - District sections
 - Departement
- Displacement from the Port-au-Prince Metropolitan Area towards other departments
