

**1.75M<sup>1</sup>** Individuals potentially at risk

**8,220** Individuals in accommodation centres

**28<sup>2</sup>** Active Accommodation Centres

Mozambique's National Institute for Disaster Management (INGD) estimates 1.75 million people to be affected by recent floods and subsequent landfall of the tropical storm Freddy across central and southern Mozambique. Making landfall on 24 February 2023, Tropical Storm Freddy has impacted the provinces of Gaza, Inhambane, Manica, Sofala and Zambezia. As of 25 February 2023, available reports indicate 2,219 individuals (630 families) have taken shelter in 7 accommodation centres (ACs) across Sofala, 420 individuals (149 families) in 8 ACs across Inhambane and 5,581 individuals (1,269 families) in 8 ACs in Gaza. The majority of these centres are schools and churches. Reported priority needs include WASH, protection, health, food, emergency shelters and education. As rain and flood conditions develop, ongoing joint assessments with INGD and humanitarian partners monitor the needs and conditions of affected populations in the region. *For further information see Mozambique: Severe Tropical Storm Freddy and Floods - Flash Update No.4 (as of 23 February 2023).*

## CURRENT SITUATION IN MOST-HIT PROVINCES

## MOST URGENT NEEDS

<sup>1</sup> Please note that this is a projected figure from the initial forecast and will be reviewed relative to the unfolding severity of TS Freddy.

<sup>2</sup> Also note that several accommodations centres have been identified by the Government (INGD) and this report only captured active centres in Gaza, Inhambane and Sofala.
