

EMERGENCY EVENT TRACKING

Data collection: 10 April 2023

As a subcomponent of the Mobility Tracking methodology (Round Five), the Emergency Event Tracking (EET) tool is deployed to track sudden displacement, provide more frequent updates on the scale of displacement, and quantify the affected population when needed.

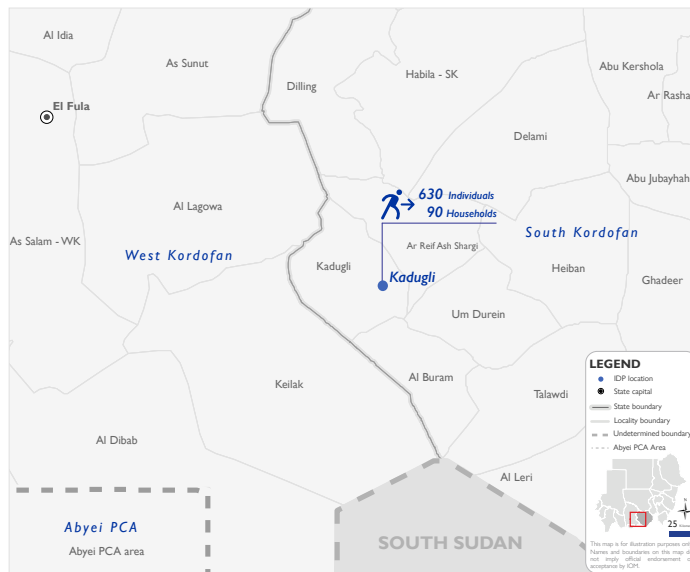

## Event Overview

On 1 April 2023, inter-communal tensions between the Nuba and Misseriya tribes rose following the death of two Nuba tribesmen in Sharifi village of Keilak locality, West Kordofan. Reportedly, IDPs seeking refuge in Al Kharasana town in Keilak locality, West Kordofan, moved to Kadugli Town in Kadugli locality, South Kordofan, in fear of reprisals. The IDP caseload was originally displaced from Trogi (72%) and Angola (28%) villages in Al Buram locality, South Kordofan.

The first EET update estimates a total number of 630 individuals (90 households) are currently seeking shelter in gathering sites (informal settlements or open areas) in Tafry neighbourhood in Kadugli town of Kadugli locality, South Kordofan.

Field teams report that there are no deaths or injuries. All personal belongings of affected households (including livestock) were reportedly lost during the incident. Field teams estimate that the entire IDP caseload are Sudanese nationals (100%). At least 30 cases of additional vulnerabilities in need of assistance and support were identified by key informants through DTM's Protection indicator. Additionally, DTM Sudan estimates that there are approximately 95 persons with disabilities among the IDP caseload.\* Based on a ranking scale, the three priority needs across the caseload are Emergency Shelter, Food, and Health (Medical Needs).

### IOM DISCLAIMER

The opinions expressed in the report are those of the authors and do not necessarily reflect the views of the International Organization for Migration (IOM). The designations employed and the presentation of material throughout the report do not imply the expression of any opinion whatsoever on the part of IOM concerning the legal status of any country, territory, city or area, or of its authorities, or concerning its frontiers or boundaries.

IOM is committed to the principle that humane and orderly migration benefits migrants and society. As an intergovernmental organization, IOM acts with its partners in the international community to: assist in the meeting of operational challenges of migration; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.

## Shelter Indicator

## Return Intention

Data collected through the return intention indicator estimates that the entire IDP caseload (100%) intends to remain within their current location.

\*DTM Sudan adopts the WHO global estimate that approximately 15% of the total population are persons with disabilities (PwD).
